Martin Heidegger's work is pivotal in the history of modern European philosophy. The New Heidegger presents a comprehensive and stimulating overview of, and introduction to, the work of one of the most influential and controversial philosophers of our time. Heidegger has had an extraordinary impact on contemporary philosophical and extra-philosophical life: on deconstruction, hermeneutics, ontology, technology and techno-science, art and architecture, politics, psychotherapy, and ecology. The New Heidegger takes a thematic approach to Heidegger's work, covering not only the seminal Being and Time, but also Heidegger's lesser known works. Lively, clear and succinct, the book requires no prior knowledge of Heidegger and is an essential resource for anyone studying or teaching the work of this major modern philosopher.

The culmination of Jeni Couzyn's Selected Poems, *Life by Drowning*, was a new body of powerful, mystical poetry, including *A Time To Be Born* and *The Coming of the Angel*. In her latest collection, *In the Skin House*, she continues her journey of self-discovery in probing poems that are remarkable not just for their spiritual qualities but also for their tender lyricism and sense of wonder. The Sufi writer Llewellyn Vaughan-Lee calls *In the Skin House* Jeni Couzyn's own inner story: 'Her mysticism is neither abstract nor ascetic, but belongs to the school of lovers like Mary Magdalene She does not deny the body, but embraces it and goes beyond its boundaries. She is a woman in the arms of her inner lover, surrendering to the mystery of the soul.' Rosemary Sullivan writes: 'When I think of *In the Skin House*, I think of the drawings of Paul Klee or the love poems of Rumi; of spirit tracks that must be followed intuitively. If, for something to hang on to, you were to try to read these poems as an amalgam of spiritual traditions - a bit of Western gnosticism mixed with Eastern mysticism - you would miss their delicacy, for the only way to read them is to submit to the poems themselves. They create their own language of discovery.'

### **The Liberation of Gabriel King**

It is often said that the poet Homer "educated" ancient Greece. Joseph J. Foy and Timothy M. Dale have assembled a team of notable scholars who argue, quite persuasively, that Homer Simpson and his ilk are educating America and offering insights into the social order and the human condition. Following *Homer Simpson Goes to Washington* (winner of the John G. Cawelti Award for Best Textbook or Primer on American and Popular Culture) and *Homer Simpson Marches on Washington*, this exceptional volume reveals how books like J. R. R. Tolkien's *The Hobbit* and J. K. Rowling's *Harry Potter*, movies like *Avatar* and *Star Wars*, and television shows like *The Office* and *Firefly* define Americans' perceptions of society. The authors expand the discussion to explore the ways in which political theories play out in popular culture. *Homer Simpson Ponders Politics* includes a foreword by fantasy author Margaret Weis (coauthor/creator of the *Dragonlance* novels and game world) and is divided according to eras and themes in political thought: The first section explores civic virtue, applying the work of

Plato and Aristotle to modern media. Part 2 draws on the philosophy of Hobbes, Locke, Rousseau, and Smith as a framework for understanding the role of the state. Part 3 explores the work of theorists such as Kant and Marx, and the final section investigates the ways in which movies and newer forms of electronic media either support or challenge the underlying assumptions of the democratic order. The result is an engaging read for undergraduate students as well as anyone interested in popular culture.
