A Service-Book For Public Worship

For Fans of Jo Nesbø, Stieg Larsson, and Henning Mankell, a Gripping Nordic Thriller That Was a Bestseller in Denmark
After the death of her industrialist father, Elizabeth Caspersen finds a compromising DVD in his safe: it seems to show two people being hunted to their death in a gruesome, well-organized manhunt. Michael Sander, a private investigator and security consultant, is hired to find out who the victims are and why Caspersen was involved. Meanwhile, police investigator Lene Jensen is investigating the death of a decorated war veteran found hanged on his wedding night. Having recently come into money, the man appears to have been driven to suicide, but the question is, why? As the two cases begin to intertwine, Lene and Michael uncover a chilling secret: the existence of a hunting club formed by Denmark's elite businessmen, where the targets are humans who are carefully selected and made to run for their lives. As their investigations take them into the darkest depths of humanity, uncovering crimes that reach further than they ever imagined, Lene and Michael must team up to overcome an opponent who outstrips them in resources and lethal danger—before they become the ones who are hunted.

Children of the Atom by Vita Ayala Vol. 1

A sweeping novel of World War II, set in the Ardennes, from the acclaimed author of *Child Wonder* The Ardennes, a forested, mountainous borderland that spans France, Germany, Belgium, and Luxembourg, was crucial to Hitler's invasion of France and host to the Battle of the Bulge. In a small valley among these borders lives Robert, born of an affair between an American GI and the Belgian nurse who rescued him. In his father's absence, Robert finds a mentor in Markus Hebel, who has faked blindness ever since serving as a Wehrmacht radio operator in Russia. Markus, in turn, confides his secret to Robert--and then he tells the story of his own son, whose fanatical loyalty to Hitler left him trapped during the siege of Stalingrad. In *Borders*, Roy Jacobsen brilliantly layers these stories of impossible

choices between familial love and national identity, culminating in a nuanced, probing novel of shifting wartime loyalties.

Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert, George Sand, Robyn Davidson, and Sara Wheeler.

The Allis-Chalmers Story

The demon has waited a long time. Hidden away in a location so secret, even the President doesn't know about it, the demon has outlasted its creators and its keepers and become lost to human memory. But now it has been found and it will soon bring mankind to the brink of nuclear Armageddon. Douglas Wright is an unemployed aerospace engineer. Broke, divorced, homeless, and bitter, he has no idea where to turn next. Two very different and powerful men, both utterly ruthless, are ready to tell him. Ben Savitch, a former wheat farmer turned bank robber and anarchist, offers Wright a million and a half dollars to re-awaken the demon. The other man, known only as Mr. Black, is the enigmatic head of a rogue agency within Homeland Security. Wright thinks both men are insane. He would like to collect the one-point-five mil, but he would also like to avoid starting World War III. But the cost of disobeying either of his new masters is death. On the run from both of them, he must find a way to get the money, get the wolves to devour each other, and live to tell about it."

Killingly Revisited

In the first volume, Killingly revealed the initial manufacturing emphasis in the town's villages. Killingly Revisited illustrates how the town survived after losing most of the textile industry, as it moved South, by actively seeking diversified commercial businesses. Within these pages, the town's fascinating past is displayed as newly acquired vintage views are coupled with information recently uncovered from the Killingly Historical and Genealogical Society's newspaper archives and other reference materials. In celebration of 300 years as an incorporated Connecticut town, the society is sharing photographs of Killingly's mills, businesses, buildings, churches, schools, and cemeteries. There have been losses from devastating fires that changed the face of Main Street. New streets and roads were added as modes of transportation changed. There are also new views of citizens at work and play.
