## **ACCA P3 Business Analysis**

### **FINANCIAL REPORTING (FR) - STUDY TEXT**

Get a new perspective from the ‘other half’ of macroeconomics The failure of the vast majority of economists in government, academia and the private sector to predict either the post-2008 Great Recession or the degree of its severity has raised serious credibility issues for the profession. The repeated failures of central banks and other policymakers in all advanced countries to meet their inflation or growth targets in spite of astronomical monetary easing, have left the public rightfully suspicious of the establishment and its economists. The Other Half of Macroeconomics and the Fate of Globalization elucidates what was missing in economics all along and what changes are needed to make the profession relevant to the economic challenges of today. Once

the other half of macroeconomics is understood both as a post-bubble phenomenon and as a phase of post-industrial economies, it should be possible for policy makers to devise appropriate measures to overcome difficulties advanced countries are facing today such as stagnation and income inequality. • Shows how it's possible to devise appropriate policy response to slow wage and productivity growth in these economies • Demonstrates that the effectiveness of monetary and fiscal policy changes as an economy undergoes different stages of development • Argues that tax rules, regulations and even educational system must be revised to match the need of pursued (by emerging nations) countries • Explains the 200-year process of economic development and where that process is taking all of us Inside, Richard C. Koo offers a completely new way of looking at the economic predicament of advanced countries today.

### **ACCA, for Exams in December 2009 and June 2010**

New edition updated for 2014 examinations Set of over 1,000 short form questions (Q&As) which condense and break down all elements of the P2 syllabus into interactive questions which can be completed very quickly and multiple times before the exam. The process of revisiting key areas will lead to better knowledge retention and a more active revision

technique. Contains large number of numerical questions to get you practising the key techniques required to perform accurate calculations. Breaks down question-length calculations into key components, allowing you to gradually build your knowledge and confidence. Questions are based on review of both the ACCA syllabus and past papers to ensure a focus on key areas. Includes mark breakdown of past papers over the 2008 to 2012 period to identify the key areas. Covers both UK and International paper options. For samples and further explanation of how our unique simplified technique can help you quickly master accountancy concepts, see [www.accasimplified.com](http://www.accasimplified.com).

## **DiplIFR Diploma in International Financial Reporting**

The examining team reviewed P2 Practice & Revision Kit provides invaluable guidance on how to approach the exam and contains many of the long, case study questions that you will find in the exam. Three mock exams provide you with more essential practice and marking schemes show you how the examiner awards marks.

## **ACCA Advanced Audit and Assurance (UK)**

"Accounting Standards contain important definitions, principles and accounting treatments which must be learned. All of these are covered in this book. By ensuring that students have good understanding of

what the topic is about, this essential learning stops being a chore. This book is different from those that teach exam and memory techniques in that it takes such techniques and applies them to a real topic."

## **ACCA STRATEGIC BUSINESS REPORTING**

In this, a unique history of the America's postwar intellectual, David Paul Haney outlines the development of sociology as a discipline and why, given its focus of study, it failed to develop into a

force in the intellectual currents of the United States. Arguing that sociologists attempted to develop both a science and an instrument for the spread of humanistic concern about society, Haney shows how both attempts failed to connect sociology with larger questions of policy and social progress.

## **ACCA P2 Corporate Reporting (International)**

The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has significantly raised its international profile in recent years and now supports a BSc (Hons) in Applied Accounting and an MBA. BPP Learning Media is an ACCA Official Publisher. P2 is a very challenging

paper which builds on the knowledge and skills acquired at earlier levels in the preparation and analysis of financial reports for single entities and groups. It takes these areas to a higher level, putting into context the role of the accountant as a professional steward and adviser, who is responsible to the stakeholders of an organisation. It has five main sections: 1. Regulatory and ethical framework and current issues 2. Reporting the financial performance of entities 3. Group financial statements 4. Specialised entities 5. Analysis of the financial performance of entities

The main new topics introduced at this level relate to group accounts, but other topics are tested with a different emphasis and in more depth than at the Fundamentals Level. We provide material for both International and UK streams. The study text has been reviewed by the examiner and takes account of his advice on approaching the paper. Ethics, which have an impact on all aspects of financial reporting, are introduced at an early stage in the text, as is corporate social responsibility, so that students do not neglect these topics when covering the numerical areas. Accounting standards come next, combining revision with extension into more advanced areas. After a brief revision of basic groups, the more advanced consolidation topics are covered. Current issues are covered throughout the text within the appropriate topics, and also summarised towards the end of the book. The question bank contains practice at the case study-style question you will encounter in the real exam. Specialised entities 5. Analysis of the financial performance of entities

The main new topics introduced at this level relate to group accounts, but other topics are tested with a different emphasis and in more depth than at the Fundamentals Level. We provide material for both International and UK streams. Question practice is essential for all papers, but for P2, there is a strong &quot;fear factor&quot;: Questions look intimidating, and it is only once you get into the detail that you realise that there are easy marks and more complicated parts that are not essential to get a pass. Our practice and revision kit follows the order of the text and there are a large number of questions on all syllabus topics. Our kit gives ample opportunity to practice the long, 50 mark case studies, which will be the compulsory Section A question in the exam. Three mock exams, including the December 2007 exam, also reflect this format. As a gentle introduction to many of the topics, there are preparation questions giving instructions in basic techniques. Most questions have marking schemes, so that you can see that the examiner awards marks for these techniques.
