The Greek World

Primary Sources New York Test Preparation

The Greeks

This book provides an original and challenging answer to the question: 'Who were the Classical Greeks?' Paul Cartledge - 'one of the most theoretically alert, widely read and prolific of contemporary ancient historians' (TLS) - here examines the Greeks and their achievements in terms of their own self-image, mainly as it was presented by the supposedly objective historians: Herodotus, Thucydides, and Xenophon. Many of our modern concepts as we understand them were invented by the Greeks: for example, democracy, theatre, philosophy, and history. Yet despite being our cultural ancestors in many ways, their legacy remains rooted in myth and the mental and material contexts of many of their achievements are deeply alien to our own ways of thinking and acting. The Greeks aims to explore in depth how the dominant group (adult, male, citizen) attempted, with limited success, to define themselves unambiguously in polar opposition to a whole series of 'Others' - non-Greeks, women, non-citizens, slaves and gods. This new edition contains an updated bibliography, a new chapter entitled 'Entr'acte: Others in Images and Images of Others', and a new afterword.

Exploring World History

This Greek god is about to meet his goddess... When Eglantine "Harry" Knight sets off to Greece at the last minute to step in as manager of a friend's touring band, the last thing she expects is to meet a billionaire Greek playboy. Iakovos

Papaioannou is perfection on every level, except for his unpronounceable name. And Harry can't stop herself from falling hard and fast for him. Iakovos knew his sister hired her favorite band to perform at her birthday party, he's just not sure where this six-foot-tall, wild-haired, tempestuous woman fits in, or how she's already ended up in his bed—and in his heart. Harry is so not his type. She's as infuriating as she is intriguing, and she can't keep her hands off his butt. But she just may be the woman who knocks him off the world's most eligible bachelor list for good...

World Civilizations

These flexible assessments can be used both in correlation with the Primary Sources kits or as stand-alone practice pieces for a variety of standardized tests. The Teacher's Edition includes a lesson to help teach students how to write Document-Based Question essays. Each Student Edition (sold separately in packs of 30 and in Add-On packs of 10) contains an assessment with the following types of questions: multiple choice, constructed-response, and documents leading to a DBQ (Document-Based Question) task.

Political Theories of International Relations

Document-Based Assessment for Global History

Religious beliefs and practices, which permeated all aspects of life in antiquity, traveled well-worn routes throughout the Mediterranean: itinerant charismatic practitioners peddled their skills as healers, purifiers, cursers, and initiators; and vessels decorated with illustrations of myths traveled with them. This collection of essays, drawn from the groundbreaking reference work *Religion in the Ancient World*, offers an expansive, comparative perspective on this complex spiritual world.

A History of the World in Six Glasses

The Secret History

Strabo of Amasia offers an intellectual biography of Strabo, a Greek man of letters, set against the political and cultural background of Augustan Rome. It offers the first full-scale interpretation of the man and his life in English. It emphasizes the place and importance of Strabo's *Geography* and of geography itself within these intellectual circles. It argues for a deeper understanding of the fusion of Greek and Roman elements in the culture of the Roman Empire. Though he wrote in Greek, Strabo must be regarded as an 'Augustan' writer like Virgil or Livy.

Discovering Our Past

The Iliad and The Odyssey are the earliest works of Western literature and are the wellspring for much of Western culture. The Iliad, beginning "Sing, goddess, the anger of Peleus' son Achilles / and its devastation" describes the devastation unleashed by Achilles's rage, engulfing soldier and civilian, hero and coward, ruler and slave and even women and children. It is a story of heroes of immense pride and animal strength operating in their element. But it is much more than a great war epic. Homer creates complex human characters. A Greek and Trojan pair, Diomedes and Glaucus, meet on the battlefield, but realizing that they have an ancestral connection, they exchange conversation and armour rather than taunts and blows. King Priam kisses the hands of Achilles, saying "I have endured what no one on earth has endured. I have kissed the hands of the man who killed my son," an act which provokes deep sympathy in Achilles, who in turn returns the body of heroic Hector which he had defiled. The nearly invincible Ajax struggles to choose between heroic glory on the battlefield and the blessing of returning to the beloved land of his fathers. The Iliad is the story of the Trojan War, but much more: it has many tender scenes, it critiques the idea of the hero and it examines the role of the Gods in history. The Odyssey, Homer's epic tale of Odysseus and his ten-year journey home after the Trojan war is a wonderful story that has entranced generations over the last two and a half millennia. The characters and events are well known, and the form - a long journey of discovery and testing - has become a standard device in storytelling. Odysseus is known as "polytropos," a man of many twists and turns and tricks, a man who lives by his wits. As the Greeks leave for Troy, it is Odysseus' cleverness that allows him to find the hero Achilles who is crucial to their victory. Then, after ten years camped outside Troy and the loss of countless lives on both sides, he brings the Trojan war to a dramatic conclusion with the now famous Trojan horse. One expects Odysseus' story to end with his returning home as a hero. Instead, Homer and the fates send him on another ten years of travels. This is the story of The Odyssey is not just about Odysseus' adventures on the way home, it is also about faithful marital love, and the love of home and country. Aristotle says that while The Iliad is about events, The Odyssey is about character. The word "odyssey" has entered the English language, and many regard The Odyssey as the world's most enduring narrative. Homer was called "the teacher of all Greece," and "the leader of Greek culture," by Plato. Indeed, in the classical age, the Greeks regarded the Iliad and Odyssey as much more than works of literature; they knew much of them by heart, and they valued them as symbols of Hellenic unity and heroism but also as sources of moral and even practical instruction. Homer's works have been studied, quoted and translated in every corner of Europe and his influence on the Western imagination is immense. This prose edition was translated by Samuel Butler, the iconoclastic English author of the Utopian satirical novel Erewhon and the semi-autobiographical novel The Way of All Flesh. The latter was published posthumously as he was afraid to publish it in his lifetime.

World History & Geography

Alexander the Great

Now in its 4th edition, this popular text offers practical, interesting, exciting ways to teach social studies and a multitude of instructional and professional resources for teachers. Theory, curriculum, methods, and assessment are woven into a comprehensive model for setting objectives; planning lessons, units, and courses; choosing classroom strategies; and constructing tests for some of the field's most popular and enduring programs. The reflective and integrative framework emphasizes building imagination, insight, and critical thinking into everyday classrooms; encourages problem-solving attitudes and behavior; and provokes analysis, reflection, and debate. The text includes separate chapters on teaching each of the major areas of the social studies curriculum. Throughout the text, all aspects of curriculum and instruction are viewed from a tripartite perspective that divides social studies instruction into didactic (factual), reflective (analytical), and affective (judgmental) components. These three components are seen as supporting one another, building the groundwork for taking stands on issues, past and present. At the center is the author's belief that the heart and soul of social studies instruction, perhaps all teaching, lies in stimulating the production of ideas; looking at knowledge from others' viewpoints; and formulating for oneself a set of goals, values, and beliefs that can be explained and justified in open discussion.

United States History: Preparing for the Advanced Placement Examination, 2018 Edition

Ancient Greece

Aliki describes and illustrates the techniques and the reasons for the use of mummification in ancient Egypt.

The History of the Decline and Fall of the Roman Empire

Thermopylae

An account of the ancient battle between Persia and the alliance of Greek city-

states, including the legendary “300 Spartans.” In 480 BCE, Persian king Xerxes led a massive invasion of Greece. A critical point in this invasion was the battle for the pass at Thermopylae—“Hot Gates” in Greek. Xerxes had amassed one of the largest armies yet known to man, while Leonidas’s troops, a group of united Spartans, Thespians, Thebans, and others, including slaves, were a small fraction of the Persian horde. Despite the overwhelming odds, Leonidas and his men stood their ground for three days in a historic display of patriotism and courage. In *Thermopylae: Battle for the West*, acclaimed author Ernie Bradford covers the entire era of the invasion—from the foundation of the Persian empire to the accession of Darius all the way to the final, bloody battles—in a fascinating and accessible look at warfare in ancient times.

The Birds

Whatever your favourite tippie, when you pour yourself a drink, you have the past in a glass. You can likely find them all in your own kitchen — beer, wine, spirits, coffee, tea, cola. Line them up on the counter, and there you have it: thousands of years of human history in six drinks. Tom Standage opens a window onto the past in this tour of six beverages that remain essentials today. En route he makes fascinating forays into the byways of western culture: Why were ancient Egyptians buried with beer? Why was wine considered a “classier” drink than beer by the Romans? How did rum grog help the British navy defeat Napoleon? What is the relationship between coffee and revolution? And how did Coca-Cola become the number one poster-product for globalization decades before the term was even coined? From the Hardcover edition.

Capital Cities of Arab Islam

‘Tell the Spartans, stranger passing by, that here obedient to their laws we lie.’ One of the most remarkable actions in ancient or modern military history took place at Thermopylae in 480BC. Rupert Matthews has personally examined the battlefield in order to try to explain how 300 Spartans could hold at bay the hordes of the Persian Emperor Xerxes. This was no vain sacrifice; the delay gave breathing space for the Greek states to organise their defence, and ultimately defend successfully their homelands. Among other intriguing revelations the author explains the importance of the half-ruined wall that sheltered the Spartans against the onslaught. With concise diagrams and maps of the entire campaign, the reader can begin to understand the extraordinary, apparently impossible outcome of the war.

Cracking the AP World History Exam 2017, Premium Edition

Studying from the Mycenaean to the late Hellenistic period, this work includes new articles by twenty-seven specialists of ancient Greece, and presents an examination of the Greek cultures of mainland Greece, Asia Minor, Egypt and Italy. With the chapters sharing the theme of social history, this fascinating book focuses on women, the poor, and the slaves – all traditionally seen as beyond the margins of power and includes the study of figures who were on the literal margins of the Greek world. Bringing to the forefront the research into areas previously thought of

as marginal, Anton Powell sheds new light on vital topics and authors who are central to the study of Greek culture. Plato's reforms are illuminated through a consideration of his impatient and revolutionary attitude to women, and Powell also examines how the most potent symbol of central Greek history – the Parthenon – can be understood as a political symbol when viewed with the knowledge of the cosmetic techniques used by classical Athenian women. The Greek World is a stimulating and enlightening interaction of social and political history, comprehensive, and unique to boot, students will undoubtedly benefit from the insight and knowledge it imparts.

It's All Greek to Me

The Economist

A unique insight into the reign of the imperial couple Justinian and Theodora is presented. The private and public life of the emperors, their deceit and destruction and its consequences are depicted. The book reveals secrets and gives voice to that age's common men. It is an essential landmark in the history of individual legal rights.

World History

An introduction to the gods and goddesses of ancient Greece.

Conversations of Socrates

Ingri and Edgar Parin D'Aulaire's Book of Greek Myths

Ancient Religions

Boucher uses ideas of Western philosophy's most significant thinkers to trace the history of political theory in international relations. He ends by showing how theories compare with and extend the themes addressed by their predecessors.

The Battle of Thermopylae

Presents a history of ancient Greece and discusses the accomplishments and culture of the people.

The Persian Wars

Covers all significant eras of global history. Encourages students to analyze evidence, documents, and other data to make informed decisions. Develops essential writing skills.

Outlines of the Philosophy of Religion

Alexander the Great conquered territories on a superhuman scale and established an empire that stretched from Greece to India. He spread Greek culture and education throughout his empire, and was worshipped as a living god by many of his subjects. But how great is a leader responsible for the deaths on tens of thousands of people? A ruler who prefers constant warring to administering the peace? A man who believed he was a god, who murdered his friends, and recklessly put his soldiers lives at risk? Ian Worthington delves into Alexander's successes and failures, his paranoia, the murders he engineered, his megalomania, and his constant drinking. It presents a king corrupted by power and who, for his own personal ends, sacrificed the empire his father had fought to establish.

The Religions of the Ancient World

Taureans, ever wondered what the Sun-signs tell you about love and life? This

unique anthology of poems for love and life relates directly to your Sun-sign, Taurus. If you were born between the 21st of April and the 21st of May, you will relate to many of the themes identified with your sign's characteristics and personality traits. The poems in this collection have been chosen because they reflect a Taurean attitude to life. They appeal to the interests 'ruled' by your sign; the animals, flowers, trees, plants and places celebrated by the poets and associated with the sign of Taurus over three thousand years of traditional astrology. Some have been chosen simply because we believe you will enjoy them, and that they will awaken or re-awaken your love of poetry.

The Ancient Spartans

After the execution of Socrates in 399 BC, a number of his followers wrote dialogues featuring him as the protagonist and, in so doing, transformed the great philosopher into a legendary figure. Xenophon's portrait is the only one other than Plato's to survive, and while it offers a very personal interpretation of Socratic thought, it also reveals much about the man and his philosophical views. In 'Socrates' Defence' Xenophon defends his mentor against charges of arrogance made at his trial, while the 'Memoirs of Socrates' also starts with an impassioned plea for the rehabilitation of a wronged reputation. Along with 'The Estate-Manager', a practical economic treatise, and 'The Dinner-Party', a sparkling exploration of love, Xenophon's dialogues offer fascinating insights into the Socratic world and into the intellectual atmosphere and daily life of ancient Greece.

Social Studies for the Twenty-First Century

Incorporate classroom-tested reading strategies that give your students the tools they need to become independent learners with this middle school world history program—the perfect combination of story and standards.
