### **Sharing Keynote Slideshows: The Mini Missing Manual**

There used to be a time when human life held value. When entire nations would go to war over a single injury or death. Then politics became involved and slowly, over time, people took on the value of the collective. No longer were humans viewed as individual persons but, rather, as pawns "too stupid" to think for him or herself. Life became a commodity and has been shown throughout the world in places such as Bosnia, Darfur, and Rwanda, an extremely cheap commodity at that. Over one million Tutsis and Hutus died in genocides during 1972 and 1994, but who cared about blacks killing blacks in Africa? Today, Christians are being murdered and mutilated throughout the Middle East and Northern Africa, but who cares about the faithful? Even Russia has presently violated the sovereignty and territoriality of neighboring Ukraine, but who cares about nationalistic squabbling? Add to this instability the growing "clear and present danger" of Islamic jihadists and narcotics trafficking organizations, but who cares about your safety and survival? Frankly, you do. Time for you to go to

war, isn't it? This third edition of Mini-Manual of the Independent Counterterrorist provides you with the inspiration, knowledge, and tools required combating the Evil that threatens the world. All that is truly needed to destroy the evil that men do remain one fighting individual citizen at a time...
