foundation for the theory and practice of business ethics and how ethical leadership results in long-term success in business. It challenges readers to understand their own beliefs and actively base the ethics they practice in business on those beliefs for building an ethical culture that can lead to a sustainable competitive advantage. The book begins by covering business ethics basics, highlighting how ethics are good for business. Ruddell then analyses the Scriptural teaching about business ethics as a model for how faith can (and indeed must) integrate with business ethics and then contrasts with other, secular, views of business ethics. He continues by reviewing steps for solving ethical problems in business and how to set up and carry out an effective ethics program inside the business and how companies can extend those ethics to those around them through effective social outreach programs, and to the environment by being good stewards of our resources.

Business Ethics - Faith That Works, 2nd Edition

"An ethical man is a Christian holding four aces." So said Mark Twain. But practicing Christians, at least, want to be ethical in all areas of life and work--not just when they are holding four aces. To those faced with the many questions and quandaries of doing business with integrity, Alexander Hill offers a place to begin. Alexander Hill carefully explores the foundational Christian concepts of holiness, justice and love. These keys to God's character, he argues, are also the keys to Christian business ethics. Hill then shows how some common responses to business ethics fall short of a fully Christian response. Finally, he turns to penetrating case studies on such pressing topics as employer-employee relations, discrimination and affirmative action, and environmental damage. This is an excellent introduction to business ethics for students and a bracing refresher for

"Magisterial. . . . A learned, brilliant and enjoyable study."—Géza Vermès, Times Literary Supplement In this exciting book, Paula Fredriksen explains the variety of New Testament images of Jesus by exploring the ways that the new Christian communities interpreted his mission and message in light of the delay of the Kingdom he had preached. This edition includes an introduction reviews the most recent scholarship on Jesus and its implications for both history and theology.

"Brilliant and lucidly written, full of original and fascinating insights."—Reginald H. Fuller, Journal of the American Academy of Religion "This is a first-rate work of a first-rate historian."—James D. Tabor, Journal of Religion "Fredriksen confronts her documents—principally the writings of the New Testament—as an archaeologist would an especially rich complex site. With great care she distinguishes the literary images from historical fact. As she does so, she explains the images of Jesus in terms of the strategies and purposes of the writers Paul, Matthew, Mark, Luke, and John."—Thomas D'Evelyn, Christian Science Monitor

According to author Scott B. Rae in *Doing the Right Thing*, our culture is in an ethical mess because we've neglected moral training and education. This book proposes that there is such a thing as moral truth, that it can be known, and that it can be put into practice. Looking specifically at the areas of medicine, the marketplace, public life, education, and the family, Rae shows how foundational ethical principles can guide you in making moral day-to-day decisions. Informed by Scripture and calling for a renewed understanding of the importance of the Christian faith in moral training, *Doing the Right Thing* issues a call for cultivated virtue that can bring about both better lives and a better society. You will find yourself examining the ways in which ethical and character issues relate to your life. As a result, you will be better equipped to promote virtue in your own spheres of influence and the culture at large.

Inventing the Individual

This volume explores ways of understanding equality and non-discrimination. Drawing on the timeless logic of realist philosophy, Catholic morality, and Catholic social teaching, the authors seek to provide intellectual clarity on many controversial questions. The contributors are lawyers, philosophers, and theologians who offer rich insights into the modern crisis of social thought on equality. They examine various global assaults on human life, marriage, the family, and the natural dignity of masculinity and femininity. They seek to uphold the

essential foundations of reality for the attainment of the common good. The contributors attempt to move beyond a positivist mentality in order to evaluate the first principles of the natural law in which all human law is grounded. The various chapters evaluate developments and application of theories of equality and non-discrimination in the history of Western thought; in modern European practice; in contemporary inter-American practice; in the Asian setting; in the Middle East and North Africa; and in the Catholic canon law tradition. The authors strive to restore a universally valid conception of equality and non-discrimination as understood within the Catholic tradition.

Moral Choices

Introducing Christian Ethics helps Christians form a sound basis for making ethical decisions in today's complex postmodern world. Raising 14 key ethical questions on today's most pressing issues including abortion, war, sexual ethics, capital punishment, and more, Scott Rae guides his readers in making moral choices wisely. Based on the best-selling college and seminary ethics textbook Moral Choices, this book distills nearly two decades of teaching and study into a succinct and user-friendly volume. It is an ideal primer for pastors, students, and everyday Christians who desire engagement with the world around them in an intelligent and informed manner. Teaching and study resources for the book, including additional video clips based on the questions corresponding to each chapter, make it ideal for

Just Capitalism

THIS IS NO TIME TO RUN AND HIDE America seems to be crumbling from within. Having abandoned the Judeo-Christian values that are the foundation of its culture, our nation, in the eyes of many, is going the way of the great civilizations of the past. If our 250-year experiment in ordered liberty has really run its course, is it time to recognize the inevitable, pack up our families, and head for the hills, hunkering down through the dark days to come? Or is there hope for an American restoration? Tim Goeglein and Craig Osten, battle-hardened veterans of the culture wars, know as well as anyone that the decadence is undeniable. But they make the case that an American restoration is not only possible, but probable—if we act now. The key is for Christians to engage with the culture, not flee from it, to be the salt and light that will renew it from within. That engagement must take place especially at the local level, where real spiritual and cultural transformation occurs. If America returns to its spiritual foundations, the tumultuous times we live in will be nothing more than a bumpy detour in our nation's history. This book is a roadmap for the way back. In this clear-eyed but hopeful guide to restoration, Goeglein and Osten explain how patriotic Americans, with God's help, can renew fifteen critical components of our culture. Government will not provide the

solutions we desperately need. The solutions lie in our churches, our communities, and our homes. The light for our path is faith. As that light pierces the darkness, America will experience a reawakening, regeneration, and renewal.

Can We Trust the Gospels?

The authors assess various secular approaches to bioethics that are particularly influential today and develop a framework for a Christian approach to assist people in addressing the many pressing issues in the field. Throughout, the authors touch on the numerous debated issues in bioethics though they are primarily concerned to give an account of the central theological notions crucial to an informed Christian perspective on bioethics.

The Right Side of History

For anyone who feels caught in the tension between the beauty of God's story and the ugliness of human hypocrisy, *Why I Still Believe* offers a stirring story of hope. Why would anyone be a Christian when there is so much hypocrisy in the church? Mary Jo Sharp shares her journey as a skeptical believer who still holds to a beautiful faith despite wounding experiences in the Christian community. At a time when de-conversion stories have become all too common, this is an earnest

response - the compelling conversion of an unlikely believer whose questions ultimately led her to irresistible hope. Sharp addresses her own struggle with the reality that God's people repeatedly give God's story a bad name and takes a careful look at how the current church often inadvertently produces atheists despite its life-giving message. For those who feel the ever-present tension between the beauty of salvation and the dark side of human nature, *Why I Still Believe* is a candid and approachable case for believing in God when you really want to walk away. With fresh and thoughtful insights, this spiritual narrative presents relevant answers to haunting questions like: Isn't there too much pain and suffering to believe? Is it okay to have doubt? What if Jesus' story is a copy of another story? Is there any evidence for Jesus' resurrection? Does atheism explain the human experience better than Christianity can? How can the truth of Christianity matter when the behaviors of Christians are reprehensible? At once logical and loving, Sharp reframes the gospel as it truly is: the good news of redemption. With firmly grounded truths, *Why I Still Believe* is an affirming reminder that the hypocrisy of Christians can never negate the transforming grace and truth of Christ.

Why I Am a "Liberal" and Other Conservative Ideas

In recent years, resilience has become a near ubiquitous cultural phenomenon whose influence extends into many fields of academic enquiry. Though research suggests that religion and spirituality are significant factors in engendering resilient adaptation, comparatively little biblical and theological reflection has gone into understanding this construct. This book seeks to remedy this deficiency through a breadth of reflection upon human resilience from canonical biblical and Christian theological sources. Divided into three parts, biblical scholars and theologians provide critical accounts of these perspectives, integrating biblical and theological insight with current social scientific understandings of resilience. Part 1 presents a range of biblical visions of resilience. Part 2 considers a variety of theological perspectives on resilience, drawing from figures including Thomas

Aquinas, Martin Luther, and Dietrich Bonhoeffer. Part 3 explores the clinical and pastoral applications of such expressions of resilience. This diverse yet cohesive book sets out a new and challenging perspective of how human resilience might be re-envisioned from a Christian perspective. As a result, it will be of interest to scholars of practical and pastoral theology, biblical studies, and religion, spirituality and health. It will also be a valuable resource for chaplains, pastors, and clinicians with an interest in religion and spirituality.

Is there evidence to believe the Gospels? The Gospels—Matthew, Mark, Luke, John—are four accounts of Jesus's life and teachings while on earth. But should we accept them as historically accurate? What evidence is there that the recorded events actually happened? Presenting a case for the historical reliability of the Gospels, New Testament scholar Peter Williams examines evidence from non-

Christian sources, assesses how accurately the four biblical accounts reflect the cultural context of their day, compares different accounts of the same events, and looks at how these texts were handed down throughout the centuries. Everyone from the skeptic to the scholar will find powerful arguments in favor of trusting the Gospels as trustworthy accounts of Jesus's earthly life.

The Crisis of Islam

In a world plagued by religious conflict, how can the various religious and secular traditions coexist peacefully on the planet? And, what role does sociology play in helping us understand the state of religious life in a globalizing world? In the Fourth Edition of *Gods in the Global Village*, author Lester Kurtz continues to address these questions. This text is an engaging, thought-provoking examination of the relationships among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order. Thoroughly updated to reflect recent events, the book discusses the role of religion in our daily lives and global politics, and the ways in which religion is both an agent of, and barrier to, social change.

Beyond Integrity

Just Capitalism is a Christian moral defense of economic globalization as a system that is well-suited to provide the necessary material needs that are prerequisite for human community and flourishing. Global-based market exchange offers the development and distribution of the goods of creation for humans to enjoy and share. Globalization also offers "the most realistic and promising way of exercising a preferential option for the poor." Waters argues that economic globalization, and thus capitalism, is a necessary condition for sustaining human life but not a sufficient condition for enabling human flourishing. Even though globalization is generally compatible with Christian theological and moral claims and can realistically facilitate the well-being of the human family, it must be reoriented toward koinoniahuman community, communication, fellowshipas the global economy's primary goal in order to help actualize human flourishing. Readers will gain insight about how economic globalization (and thus capitalism) is good for the human family and can be made better by certain reorientations that are compatible with Christian moral values. Waters provides a mature and civil counterargument against knee-jerk condemnations of economic globalization and capitalism.

Doing the Right Thing

Is business just a way to make money? Or can the marketplace a venue for service to others? Scott B. Rae and Kenman L. Wong seek to explore this and other critical business issues from a uniquely Christian perspective, offering up a vision for work and service that is theologically grounded and practically oriented. Among the specific questions they address along the way are these: What implications does the Christian story have for the vision, mission or sense of purpose that shapes business engagement? What parts of business can be affirmed and practiced "as is" and what parts need to be rejected or transformed? What challenges exist as attempts are made to live out Christian ideals in a broken world characterized by tight margins, fierce competition and short-term investor pressures? How do Christian values inform specific functional areas of business such as the management of people, marketing and environmental sustainability? Business can be even more than an environment through which individual Christians grow in

The use of assisted reproductive technology (ART) is on the rise in our culture as an alternative for couples facing infertility issues and single women desiring to have children. Is it right – morally, ethically, biblically – to engage this new technology? Are there some aspects of ART that are more acceptable than others? *Outside the Womb: The Ethics of Reproductive Technologies* addresses the whole issue of “making life”, providing valuable information, both theologically and scientifically, for Christian couples to reflect upon as they consider the various fertility treatments.

Brave New Families

"Riveting, inspiring, at times hard to believe but utterly true it gives some measure of hope in these rancorous times." -- John Grisham As an ordinary high school student in the 1960s, Tom Tarrants became deeply unsettled by the social upheaval of the era. In response, he turned for answers to extremist ideology and was soon utterly radicalized. Before long, he became involved in the reign of terror spread by Mississippi's dreaded White Knights of the Ku Klux Klan, described by the FBI as the most violent right-wing terrorist organization in America. In 1969, while attempting to bomb the home of a Jewish leader in Meridian, Mississippi, Tom was ambushed by law enforcement and shot multiple times during a high-speed chase. Nearly dead from his wounds, he was arrested and sentenced to thirty years in the Mississippi State Penitentiary at Parchman Farm. Unrepentant, Tom and two other inmates made a daring escape from Parchman yet were tracked down by an FBI SWAT team and apprehended in hail of bullets that killed one of the convicts. Tom spent the next three years alone in a six-foot-by-nine-foot cell. There he began a search for truth that led him to the Bible and a reading of the gospels, resulting in his conversion to Jesus Christ and liberation from the grip of racial hatred and violence. Astounded by the change in Tom, many of the very people who worked to put him behind bars began advocating for his release. After serving eight years of a 35-year sentence, Tom left prison. He attended college, moved to Washington, DC, and became copastor of a racially mixed church. He

went on to earn a doctorate and became the president of the C. S. Lewis Institute, where he devoted himself to helping others become wholehearted followers of Jesus. A dramatic story of radical transformation, *Consumed by Hate, Redeemed by Love* demonstrates that hope is not lost even in the most tumultuous of times, even those similar to our own. "As a kid in Mississippi in the late 1960's, I remember the men of our church discussing the Klan's bombing campaign against the Jews. The men did not disapprove. Later, I would use this fascinating chapter of civil rights history as the backdrop for my novel *The Chamber*. Now, one of the bombers, Thomas Tarrants, tells the real story in this remarkable memoir. It is riveting, inspiring, at times hard to believe but utterly true, and it gives some measure of hope in these rancorous times." --John Grisham "DramaticSimply astonishingEssential reading for these times. If you want to understand how the evil of extremist thought works--and how the gospel of God's grace can overcome it--read this book." --Mark Batterson, New York Times bestselling author of *The Circle Maker*, lead pastor of National Community Church "AmazingGives hope for what God can do." --Dr. John Perkins, president emeritus, John Perkins Foundation; co-founder emeritus, Christian Community Development Association "A riveting narrative." --Russell Moore, president, the Ethics & Religious Liberty Commission of the Southern Baptist Convention "This gripping and inspiring story is as timely as today's headlines.Put on your seatbelt and prepare to enter into one of the most extraordinary true stories you'll ever encounter!" --Lee Strobel, best-selling author of *The Case for Christ* and *The Case for Grace* "Reveals how easily a political

Christianity and Law

This book is about why character and ethics do matter. While many authors of leadership books attempt to answer tough questions about leadership with sweeping generalizations, the authors chose instead to focus on one simple premise: Doing the right thing and making the right leadership decisions is based on a leader's character. That focus is what the book is about and a major key to leadership success.

Business for the Common Good

Now a #1 New York Times Bestseller. Human beings have never had it better than we have it now in the West. So why are we on the verge of throwing it all away? In 2016, New York Times bestselling author Ben Shapiro spoke at the University of California–Berkeley. Hundreds of police officers were required to protect his speech. What was so frightening about Shapiro? He came to argue that Western civilization is in the midst of a crisis of purpose and ideas; that we have let grievances replace our sense of community and political expediency limit our individual rights; that we are teaching our kids that their emotions matter more than rational debate; and that the only meaning in life is arbitrary and subjective. As a society, we are forgetting that almost everything great that has ever happened in history happened because of people who believed in both Judeo-Christian values and in the Greek-born power of reason. In *The Right Side of History*, Shapiro sprints through more than 3,500 years, dozens of philosophers, and the thicket of modern politics to show how our freedoms are built upon the twin notions that every human being is made in God’s image and that human beings were created with reason capable of exploring God’s world. We can thank these values for the birth of science, the dream of progress, human rights, prosperity, peace, and artistic beauty. Jerusalem and Athens built America, ended

slavery, defeated the Nazis and the Communists, lifted billions from poverty, and gave billions more spiritual purpose. Jerusalem and Athens built America, ended slavery, defeated the Nazis and the Communists, lifted billions from poverty, and gave billions more spiritual purpose. Yet we are in the process of abandoning Judeo-Christian values and Greek natural law, watching our civilization collapse into age-old tribalism, individualistic hedonism, and moral subjectivism. We believe we can satisfy ourselves with intersectionality, scientific materialism, progressive politics, authoritarian governance, or nationalistic solidarity. We can't. The West is special, and in *The Right Side of History*, Ben Shapiro bravely explains how we have lost sight of the moral purpose that drives each of us to be better, the sacred duty to work together for the greater good,.

that few of us question its wisdom. But do we ever completely forgive those who have betrayed us? Aren't some actions unforgivable? Can we achieve closure and healing without forgiving? Drawing on more than two decades of work as a practicing psychotherapist, more than fifty indepth interviews, and sterling research into the concept of forgiveness in our society, Dr. Jeanne Safer challenges popular opinion with her own searching answers to these and other questions. The result is a penetrating look at what is often a lonely, and perhaps unnecessary, struggle to forgive those who have hurt us the most and an illuminating examination of how to determine whether forgiveness is, indeed, the best path to take--and why, often, it is not.

The Little Book of Restorative Justice

Integrity is essential to Judeo-Christian business ethics, but today's business environment is complex. This book provides a decision-making model for those in business or preparing to enter the business world, demonstrating how integrity and biblical ethics can be applied in the workplace so you can go “beyond integrity” in their thinking.

In a delightfully refreshing and revealing tone, Piper exposes the potential fallacy in today's liberal academia and political spheres. He masterfully addresses educational, social, political, and religious issues that have shaped American culture. Liberal readers will be challenged to consider Dr. Piper's viewpoints and conservative readers will be thrilled to find words to express their frustrations with much of the current American culture. Dr. Piper speaks boldly and unapologetically on issues such as natural law, unalienable rights, self-evident truths, and the unavoidable consequences of ideas on personal, political, community, and corporate wellbeing. His commentary rhetorically confronts the reader to consider issues such as freedom, justice, common sense, human dignity, and moral objectivity. Piper is specifically passionate in arguing that postmodern political correctness is really nothing more than an unvarnished ploy to consolidate power among society's elites and to, thus, restrict the individual freedoms and rights of the general public.

Values-based leadership is based upon honesty, respect, trust and dignity, and it regards every employee within a company as a valued human being. This book describes the characteristics of leaders who focus on positivity and virtues to create and sustain highly successful organizations such as Synovus Financial Corporation, HomeBanc Mortgage Company, and the United States Marine Corps. It also addresses leader mistakes and forgiveness, and how difficulties and challenges can be overcome to achieve spectacular results. This inspiring book offers practical advice that can be applied to individual leadership styles and roles. As society tries to rebound from the recent scandals involving fraud, financial improprieties, and unethical behavior among its leadership, the fundamental message of *Leading with Values* is clear: acting ethically and virtuously, and treating all stakeholders with respect and dignity, can create extraordinary outcomes without sacrificing performance and profits.

In recent months, much attention has been paid to Islam and the greater Muslim world. Some analysis has been openly hostile, while even more has been overly simplistic. *Islam in Context* goes behind the recent crisis to discuss the history of Islam, describe its basic structure and beliefs, explore the current division between Muslim moderates and extremists, and suggest a way forward. Authors Peter G. Riddell and Peter Cotterell draw from sources such as the Qur'an, early Christian

chronicles of the Crusades, and contemporary Muslim and non-Muslim writings. They move beyond the stereotypes of Muhammad—both idealized and negative—and argue against the myth that relatively recent events in the Middle East are the only cause for the clash between Islam and the West. Riddell and Cotterell ask the non-Muslim world to attempt to understand Islam from the perspective of Muslims and to acknowledge past mistakes. At the same time, they challenge the Muslim world by suggesting that Islam stands today at a vital crossroads and only Muslims can forge the way forward. *Islam in Context* will appeal to all those who are interested in an alternative to the easily packaged descriptions of the relationship between Islam and the West.

article in the *The London Telegraph* insisted that the industrialized West must re-articulate its moral case for market capitalism. Additionally, numerous commentators proclaimed the days of unfettered markets to be over. In this timely and balanced book, Austin Hill and Scott Rae agree with capitalism's critics that the economy is essentially a moral issue, but they argue that free markets are by-and-large the solution to financial disasters rather than the cause. Though they recognize that there are legitimate criticisms of the market system -- and real limits to what it can and should accomplish -- the authors further conclude that capitalism both depends upon and sustains classic Judeo-Christian virtues better than any of its rival systems. Thoughtful and engaging, this book pushes against the tide of current public opinion and some of the administration's proposed economic policies with a principled defense of capitalism.

This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential movement.
