Global Justice, State Duties

Study Guide for Maternity Nursing - Revised Reprint - E-Book

Study Guide for Maternity Nursing - Revised Reprint - E-Book

Nationalising Femininity

Provides an account of how, shortly before World War II, a heroic Naval officer named Swede Momsen led the efforts to save thirty-three men trapped in a sunken submarine.

Fragments of Horror

The rise of globalization and the persistence of global poverty are straining the territorial paradigm of human rights. This book asks if states possess extraterritorial obligations under existing international human rights law to respect and ensure economic, social and cultural rights and how far those duties extend. Taking a departure point in theory and practice, the book is the first of its kind to analyze the principal cross-cutting legal issues at stake: the legal status of obligations, jurisdiction, causation, division of responsibility, and remedies and accountability. The book focuses specifically on the role of states but also

addresses their duties to regulate powerful nonstate actors. The authors demonstrate that many key issues have been resolved or clarified in international law while others remain controversial or await the development of further practice, particularly the scope of jurisdiction and the quantitative dimension of extraterritorial obligations to fulfil.

Big Book of Personality Tests

“Thought-provoking, informative and fresh, Bender’s multi-faceted ethnomusicology of taiko promises to endure as the definitive scholarship on the topic for some time to come.” -E. Taylor Atkins, author of Blue Nippon “Immensely readable, unique and thoughtful, Taiko Boom is a must-have for anyone interested in taiko, and there are many--it’s difficult to overstate the explosion in popularity taiko has experienced globally. Flashy and powerful, it’s unlike any other music. Bender presents here the first thorough look at this art form in Japan, detailing the origins and meaning of this style.” - Jennifer Milioto Matsue, Associate Professor of Music, Asian Studies and Anthropology at Union College

Authentic American Indian Beadwork and How to Do It

Complete coverage for your BMW R1200 dohc Twins for 2010 thru 2012: --Routine

Maintenance and servicing --Tune-up procedures --Engine, clutch and transmission repair --Cooling system --Fuel and exhaust --Ignition and electrical systems --Brakes, wheels and tires --Steering, suspension and final drive --Frame and bodywork --Wiring diagrams --Reference Section With a Haynes manual, you can do it yourself...from simple maintenance to basic repairs. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Flaming Womb

Web Development with Jade

This key text is written for senior undergraduate and graduate engineering students. It delivers a complete introduction to finite element methods and to automatic adaptation (error estimation) that will enable students to understand and use FEA as a true engineering tool. It has been specifically developed to be accessible to non-mathematics students and provides the only complete text for FEA with error estimators for non-mathematicians. Error estimation is taught on nearly half of all FEM courses for engineers at senior undergraduate and postgraduate level; no other existing textbook for this market covers this topic. The only introductory FEA text with error estimation for students of engineering,

scientific computing and applied mathematics Includes source code for creating and proving FEA error estimators

Finite Element Analysis with Error Estimators

The Princess of the Flaming Womb, the Javanese legend that introduces this pioneering study, symbolizes the many ambiguities attached to femaleness in Southeast Asian societies. Yet despite these ambiguities, the relatively egalitarian nature of male–female relations in Southeast Asia is central to arguments claiming a coherent identity for the region. This challenging work by senior scholar Barbara Watson Andaya considers such contradictions while offering a thought-provoking view of Southeast Asian history that focuses on women’s roles and perceptions. Andaya explores the broad themes of the early modern era (1500–1800)—the introduction of new religions, major economic shifts, changing patterns of state control, the impact of elite lifestyles and behaviors—drawing on an extraordinary range of sources and citing numerous examples from Thai, Vietnamese, Burmese, Philippine, and Malay societies. In the process, she provides a timely and innovative model for putting women back into world history Andaya approaches the problematic issue of "Southeast Asia" by considering ways in which topography helped describe a geo-cultural zone and contributed to regional distinctiveness in gender construction. She examines the degree to which world religions have been instrumental in (re)constructing conceptions of gender— an issue especially

pertinent to Southeast Asian societies because of the leading role so often played by women in indigenous ritual. She also considers the effects of the expansion of long-distance trade, the incorporation of the region into a global trading network, the beginnings of cash-cropping and wage labor, and the increase in slavery on the position of women. Erudite, nuanced, and accessible, *The Flaming Womb* makes a major contribution to a Southeast Asia history that is both regional and global in content and perspective.

The History of Karate

Acute Care Nurse Practitioner

Agile development methods began to emerge around 20 years ago. However, it was not until the early 2000s that they began to be widely used in industry. This growth was often due to the advent of Internet services requiring faster cycles of development in order to heighten the rate at which an ever-greater number of functionalities were made available. In parallel, user-centered design (UCD) methods were also becoming more and more widely used: hence, user-centered design and agile methods were bound to cross paths, at least in the telecoms industry! During this period, in the field of telecommunications, the explosion in

the number of connected terminals, Web applications, new use environments (particularly in a domestic setting), etc., meant it was crucial to gain a fuller understanding of users' requirements and better evaluate the relevance and acceptance of services' attempts to cater for these requirements. Thus the user-centered agile method, as proposed in this book, aims to mutually integrate two existing methods: user-centered design - as used by ergonomists - and the agile Scrum method - as used by developers. The user testing method is also covered. Analyzing work on this subject spanning the past 10 years, the authors also provide an assessment of the feedback on the user-centered agile method. The method described in this book has been based on all these sources. It is a framework relying on the logic introduced by Scrum, i.e. a framework based on project management. The method proposed is seen as an extension of Scrum which is "centered on humans" because of the integration of user-centered design and user-testing. Therefore the description of the user-centered agile method is based on the basics of the agile Scrum method and uses its terminology and elements. As well as descriptive elements of the user-centered agile method, practical examples of how to implement it are also provided.

Contents

1. Introduction.
2. Introduction to the Methods Employed.
3. Sources for this Work.
4. Description of The User-Centered Agile Method.
5. Case Studies.

About the Authors
Dominique Deuff worked at the National Institute of Informatics in Japan for 21/2 years before coming back to France in June 2006 and joining Orange Labs France Telecom as a developer in a Scrum team. In 2008, she graduated with a Master's

degree in ergonomics and has since then been applying her new skills to various projects at Orange Labs Lannion. Mathilde Cosquer joined Orange Labs as an ergonomist after completing her PhD on the question of transparency of technical devices from the user's point of view. She has taken part in the design and evaluation of numerous innovating services, but over the past four years, she has been more particularly involved in projects of interpersonal communication services.

Falling for Mr. December

This practical resource functions as both a reference guide in the acute care setting and as a self-study preparation tool for Acute Care Nurse Practitioner certification. Coverage begins with a chapter on test-taking strategies, then proceeds with an in-depth review of the diseases and disorders commonly found in acute care practice. Each clinical chapter provides disease definitions, pathophysiology and etiology, signs and symptoms, physical findings, differential diagnoses, tests and diagnostic reasoning, therapeutic management/treatment/education, and outcome evaluation.

The Global Family Planning Revolution

Veterinary Assisting Fundamentals and Applications provides a well-rounded, complete approach to learning the skills required in the field of veterinary assisting. Beginning with basic skills such as veterinary medical terminology and office procedures, the book progresses to more advanced skills such as nursing care and radiology. There is a section on animal production and management covering companion animals, large animals, and exotic animals. Clinical scenarios are provided in each chapter to help demonstrate application of the skills to real world practice. Robust instructor support materials are also provided including an instructor's guide, presentations on PowerPoint, and a testbank. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

User-Centered Agile Method

This start-to-finish guide enables even beginners to create beautiful beadwork based on authentic Native American designs. Step-by-step instructions include diagrams for 71 patterns for bead weaving and applique weaving.

BMW R1200 Twins

Currently in development with CBS Films, this is the emotional and uplifting

memoir of a woman who became a volunteer trainer for Daisy, a sweet yellow Lab puppy, and her unique relationship with the inmate who is Daisy's partner in the Prison PUP program. When Sharron Luttrell, a journalist still deeply mourning the loss of her family dog, found out about a weekend puppy raiser program for a service dog organization, she knew it was just she needed to help her move on. It seemed ideal; pick up a puppy on Friday, return it on Sunday night, get a new puppy each year. No strings attached. Well, it turns out that there were strings – and they tugged at her every Sunday evening when she had to return “her dog” to prison. This memoir chronicles Sharron's year co-parenting Daisy, a sweet lab puppy, with Keith, a convicted felon serving a decades-long sentence. As Sharron and Keith develop a rapport based on their brief weekend handovers (an exchange she describes as "divorced parents handing over the kids"), she begins to speculate about what the quiet, gentle Keith could have done to wind up in medium-security prison. When, through an accident of fate, Sharron finally discovers the crime Keith actually committed, she is shaken to her foundation. How can she continue to work with him, knowing what she does? But can she dismiss her personal experience with him, which has been nothing but kind? Ultimately, she looks to Daisy to pull her through—she must “think like a dog” and react in the present, not the past. Mindful of how much Daisy has taught her in a short time, Sharron can also see how much this special dog has helped Keith learn empathy, remorse, and to face the consequences of his actions. As the two of them work tirelessly to ensure that Daisy passes her final test and fulfills her destiny by

becoming a service dog, Sharron tests the limits of her own strength, compassion, and capacity for love.

Salon Fundamentals, A Resource for Your Cosmetology Career

The best Christmas present ever! Photographer Sammy Thompson has learned the hard way to protect herself. After surviving cancer, she's not about to risk her emotions on just anyone! But meeting buttoned-up barrister Nick Kennedy at a charity calendar shoot, and feeling the sparks between them, makes Sammy wonder what she's been missing out on... Sammy's never dreamed of forever, but as she gets to know the man behind the pinstripes, dare she hope Nick will make it a Christmas to remember with the most magical gift of all—his heart?

Palliative Care Patient and Family Counseling Manual

With a Haynes manual, you can do it yourself—from simple maintenance to basic repairs. Haynes writes every book based on a complete teardown of the motorcycle. DESIGN, BUILD, CREATE, AND SHARE YOUR GAME WITH THE WORLD! Ever wanted to create your own video game? With Microsoft's Kodu, you can. It's fun! And while you're having fun, you'll learn incredible problem-solving, programming, and game design skills as well. Kodu is a simple visual language that's just for games, and you'll be amazed at just how much you can do with it. Yes, you! It's perfect for people who've never programmed before—whether they're 8, 18, or 80. Kodu for Kids teaches you all you need to know to create great Kodu games that you can share with the world! Don't just read it! See it! New online videos show you what to do! INCLUDES FOUR START-TO-FINISH EXAMPLE GAMES: 1-Player Shooter 2-Player Competition Mission Quest Side-Scroller Experience DO IT ALL—EVERY STEP! Learn how games really work Master Kodu's easy tools, controls, and programming Imagine your quest and plan your game Script a great story Create your characters

and make them move and talk Invent and build new worlds Design weapons, targets, and objects Build enemies and make them fight Add amazing sound, music, and special effects Set up multiple players, levels, and points Discover expert tips and tricks for better games Make everything work together Share your games with players all over the world

Basic Labor and Employment Law for Paralegals

A new collection of delightfully macabre tales from a master of horror manga. An old wooden mansion that turns on its inhabitants. A dissection class with a most unusual subject. A funeral where the dead are definitely not laid to rest. Ranging from the terrifying to the comedic, from the erotic to the loathsome, these stories showcase Junji Ito's long-awaited return to the world of horror. -- VIZ Media

The Terrible Hours

The striking upsurge in population growth rates in developing countries at the close of World War II gained force during the next decade. From the 1950s to the 1970s, scholars and advocacy groups publicized the trend and drew troubling conclusions about its economic and ecological implications. Private educational and philanthropic organizations, government, and international organizations

joined in the struggle to reduce fertility. Three decades later this movement has seen changes beyond anyone's most optimistic dreams, and global demographic stabilization is expected in this century. The Global Family Planning Revolution preserves the remarkable record of this success. Its editors and authors offer more than a historical record. They discuss important lessons for current and future initiatives of the international community. Some programs succeeded while others initially failed, and the analyses provide valuable guidance for emerging health-related policy objectives and responses to global challenges.
