should give you a good idea of how to accomplish this.

### **DIY Paper Treat Boxes with Cut Files for Silhouette or**

Masu boxes were originally a square wooden box used to measure portions of rice during the feudal period in Japan. If you want to fold a lid for your box you have a couple of options. Greeting cards made of cardstock require a little more finger muscle to fold a sharp exacting crease so practicing with paper helps with the basics before

Change the size of the box Make it bigger or smaller. The size of the bottom cardstock has to be able to be divided by 3. A 9" square would be scored at 3" and 6", a 12" square by 4" and 8". For the lid the box with a the 9" square bottom would have to have a 5" square, scored 1" all the way around.

Explosion Box Lid Template (print directly onto the back of your lid cardstock) Be sure to print each of these templates at 100% or full size. There's a test square on each one that should measure exactly 1 inch. The Cutting Guide gives dimensions for up to 7 layers for your box.

### **Glass Containers Kitchen Storage : Target**

Fold the bottom flaps in and close the bottom lid over them. Tuck the bottom lid's flap inside the box. Repeat for the top lid. Tip: Make a stronger box by putting a piece of cardboard, cut to size, in the bottom of the box. You can also glue the bottom flaps to the box's bottom, but the box will no longer be collapsible. Step 8: Add Finishing

Repeat the same steps for making the bottom of the box, but cut off  $\frac{1}{8}$ " off the height and width of the paper first. What you just did was the top half of the box, and naturally it needs to be a bit bigger than the bottom. Take the same size paper you just worked with and cut off  $\frac{1}{8}$ " length-wise and width-wise.
