'Fascinating . . . Shot through with fresh insights . . . No previous biography has attempted anything so comprehensive.' Observer Nelson is a thrilling new appraisal of Horatio Nelson, the greatest practitioner of naval command the world has ever seen. It explores the professional, personal, intellectual and practical origins of one man's genius, to understand how the greatest warrior that Britain has ever produced transformed the art of conflict, and enabled his country to survive the challenge of total war and international isolation. In Nelson, Andrew Lambert - described by David Cannadine as 'the outstanding British naval historian of his generation' - is able to offer new insights into the individual quality which led Byron rightly to celebrate Nelson's genius as 'Britannia's God of War'. He demonstrates how Admiral Nelson elevated the business of naval warfare to the level of the sublime. Nelson's unique gift was to take that which other commanders found complex, and reduce it to simplicity. Where his predecessors and opponents saw a particular battle as an end in itself, Nelson was always a step ahead - even in the midst of terrifying, close-quarters action, with officers and men struck down all around him. 'Excellent . . . Worthy of the stirring events [it celebrates].'

Hesiod's Cosmos offers a comprehensive interpretation of both the Theogony and the Works and Days and demonstrates how the two Hesiodic poems must be read together as two halves of an integrated whole embracing both the divine and the human cosmos. After first offering a survey of the structure of both poems, Professor Clay reveals their mutually illuminating unity by offering detailed analyses of their respective poems, their teachings on the origins of the human race and the two versions of the Prometheus myth. She then examines the role of human beings in the Theogony and the role of the

The Wholehearted Marriage

The Bible was written for people to read, ponder, and understand. The message of God's love for humans transcends time, culture, and language. Nevertheless, readers of the Bible are often left with questions. The names sound strange to our ears, the geography is often unfamiliar, and we ask, "Who was this person? Is he mentioned somewhere else in the Bible?" "When did this happen?" "Where did it happen?" "Is this a real city?" Nelson's Foundational Bible Dictionary seeks to answer questions like these and many more. Features include: Every person mentioned in the Bible with biblical references and biographical information All animals and minerals mentioned in the Bible with definitions Modern equivalents of ancient geographical names Key theological terms with their various meanings and interpretations Common household items and occupations with cultural and historical information about life in ancient times In addition to the full Dictionary materials, the eBook version of Nelson's Foundational Bible Dictionary also contains an appendix of the full text of the New King James Version Bible. All verse references in the Dictionary are linked to that verse in the Bible so that you can easily navigate between the Dictionary and Bible text.

The Wholehearted Marriage offers practical tools for helping couples keep a passionate connection with one another and understand the role their hearts play in their lives. Drs. Smalley and Stoeber maintain that circumstances, such as busy lifestyles, differences between spouses, personal baggage, the loss of a loved one, childhood trauma, etc., trigger reactions that condition us to close up our hearts for protection, blocking the flow of love. A disengaged, protected heart makes it impossible to experience an intimate, connected marriage. As a result, couples drift apart, trying to find some version of contentment, or they give up altogether and look for love somewhere else. Through their experiences in marriage counseling, Drs. Smalley and Stoeber discovered that the commonly heard phrase "I don't love him/her anymore" is merely a camouflaged misunderstanding about what true love is and God's design for it. They affirm that love is more than just a feeling, and that to have true, lasting intimacy, couples need to learn to love wholeheartedly.

Janet Warren Lane has been a Christian for 54 years, a school teacher for 15 years, a minister's wife for 33 years, a mother of four grown and married children who are all involved in ministry and/or missions, and a grandmother of 8 and counting! For most of that time she was unaware of Satan's most formidable weapon used against Christians - Fiery Darts. Since becoming aware of this weapon, Satan's motives for using it, and how to wield the power of God's Word against it, Janet's release from years of captivity has been wondrously secured. Most people agree that negative thinking can have a debilitating effect on a person's life. But just knowing this does little to help combat such thinking. By comparing negative thinking to the weapon of fiery darts, Janet exposes the weapon and the tactics used by Satan to manipulate. After the weapon and its tactics are exposed, detailed instructions are given as to how to counter-attack and live life free from the bondage negative thinking can impose.

Intellectual property has rapidly become one of the most important, as well as most controversial, subjects in recent years amongst productive thinkers of many kinds all over the world. Scientific work and technological progress now depend largely on questions of who owns what, as do the success and profits of countless authors, artists, inventors, researchers and industrialists. Economic, legal and ethical issues play a central role in the increasingly complex balance between unilateral gains and universal benefits from the "knowledge society". Economics, Law and Intellectual Property explores the field in both depth and breadth through the latest views of leading experts in Europe and the United States. It provides a fundamental understanding of the problems and potential solutions, not only in

Fiery Darts: Satan's Weapon of Choice

Describes the rise of debt in colonial New York as evidenced in probate inventories and court records to prove that 18th century economic relationships were business arrangements, not familial or communal in nature, and that there was widespread involvement in the market not only by wealthy merchants but also farmers, craftsmen, and others of average or modest means. Examines women as well as men in the rising capitalist economy, looking at the process by which women were marginalized from the core of economic relations as the economy and legal system became more contractualized and formalized, and contrasts urban and rural women. His twenty seven years prison life, the anecdote of his days in Island prison, and his uncompromising attitude to the white Government are so enthralling one can not help responding to them. But I was in trouble in having authentic informations about his multifarious political activities. However my beloved son, Bitirna has extended his helping hand and procured informations through internet facilities. I have also taken the help of Mandela's autobiography. I owe to them all. The book has been designed to make the readers updated with the informations about Mandela's life. I shall be thankful if the book can serve the purpose.

The Lord Nelson Class has come to be viewed as an 'also ran' amongst express locomotives and is largely overlooked for that reason. It had the misfortune to be sandwiched on Southern metals between the classic and much revered King Arthurs and Schools and by Bullied's controversial Pacifics. In such company any design might suffer by comparison. And yet when first appearing they attracted plaudits from railway professionals, including the footplate crew, and the public alike. But with only 16 being built their impact was muted and any faults in their design were magnified beyond their actual impact. In truth they deserved far better than this and were, in fact sturdy, reliable performers that served the company well on the heavy boat trains for which they were designed
