### **The Outsiders**

### **Carsick**

Participating in the 1805 Battle of Cape Town after the death of Admiral Nelson, Captain Lewrie voyages to South America to assist Britain's campaigns on the Spanish colonies only to confront a formidable adversary that places his career and life at risk. By the author of Reefs and Shoals. 40,000 first printing.

### **Nights in White Castle**

In a world run by machines, humans are an endangered species -- and their only hope is a rebel warrior with nothing left to lose. The Great War is over. The robots have won. The humans who survived have two choices: they can submit and serve the vicious rulers they created, or be banished to the Reserve, a desolate, unforgiving landscape where it's a crime just to be human. Following the orders of

their soulless leader, the robots are planning to conquer humanity's last refuge and make all humans bow down. The only thing more powerful than an enemy who feels nothing is a rebel warrior with a cause and nothing left to lose. Six is a feisty, determined woman whose parents were killed with the first shots of the war, and whose siblings lie rotting in prison. Her partner in crime is Dubs, the one person who respects authority even less than she does. On the run for their lives after an attempted massacre, Six and Dubs are determined to save humanity before the robots wipe humans off the face of the earth. Pushed to the brink of survival, they discover a powerful secret that may set humanity free, but to succeed they'll have to trust the unlikeliest of allies . . . or be forced to bow down, once and for all. Full of twists and turns from the world's #1 writer, *Humans, Bow Down* is an epic, dystopian, genre-bending thrill ride you'll never forget.

the next level, you must understand the coveted 4th degree of action. This 4th degree, also known as the 10 X Rule, is that level of action that guarantees companies and individuals realize their goals and dreams. The 10 X Rule unveils the principle of "Massive Action," allowing you to blast through business clichés and risk-aversion while taking concrete steps to reach your dreams. It also demonstrates why people get stuck in the first three actions and how to move into making the 10X Rule a discipline. Find out exactly where to start, what to do, and how to follow up each action you take with more action to achieve Massive Action results. Learn the "Estimation of Effort" calculation to ensure you exceed your targets. Make the Fourth Degree a way of life and defy mediocrity. Discover the time management myth. Get the exact reasons why people fail and others succeed. Know the exact formula to solve problems. Extreme success is by definition outside the realm of normal action. Instead of behaving like everybody else and settling for average results, take Massive Action with The 10 X Rule, remove luck and chance from your business equation, and lock in massive success.

Interweaving historical research, pop culture, and original interviews, Kristen Sollée reclaims the cat archetype as a source of feminine identity and sexual power. This is a wide-ranging feminist exploration of the car archetype in myth and magic. The author takes the reader on a romp through feline myth and lore and examines the

many ways in which men and women have talked and thought about cats since the dawn of time. Among the chapters are: The Cat Lady (Crazy, Sexy, Queer) The Black Cat Shapeshifters, Tricksters, and Femme Fatales Pussy Hats and Homocats Hello Kitty and the Cult of Cute From the "crazy cat lady" unbowed by patriarchal prescriptions to the coveted sex kitten to the dreadful crone and her yowling compatriot, feminine feline archetypes reveal the ways in which women have been revered and reviled around the world - in Greek and Egyptian mythology, the European witch trials, Japanese folklore, and contemporary film. By combining historical research, pop culture, art analyses, and original interviews, Cat Call explores the cat and its indivisible connection to femininity and teases out how this connection can help us better understand the relationship between myth, history, magic, womanhood in the digital age, and our beloved, clawed companions. Cat Call is a must read for millennial women, queer fold, feminists, witchy femmes, and cat lovers of all stripes. "Just like a cat itself, Sollée has eyes that see the dark corners of civilization others miss. In Cat Call, Sollée uses the cat to claw open aspects of humanity others are too scared to investigate, from kink, to feminist politics, to viral feline stars that demonstrate the cat is still worshipped by humans from all walks of life. She flips the cat call on itself by dismantling patriarchal uses of the feline to discredit the intimidating power of the pussy while gifting us with a book that leaves you eager to embrace your personal cat power." - Sophie Saint Thomas, sex writer, witch, and author of Finding Your Higher Self: Your Guide to Cannabis for Self-Care

Do you know what "quatrefoil" and "impolitic" mean? What about "halcyon" or "narcolepsy"? This book is a handy, easy-to-read reference guide to the proper parlance for any situation. In this book you will find: Words You Absolutely Should Know (covert, exonerate, perimeter); Words You Should Know But Probably Don't (dour, incendiary, scintilla); Words Most People Don't Know (schlimazel, thaumaturgy, epergne); Words You Should Know to Sound Overeducated (ad infinitum, nugatory, garrulity); Words You Probably Shouldn't Know (priapic, damnatory, labia majora); and more. Whether writing an essay, studying for a test, or trying to impress friends, family, and fellow cocktail party guests with their prolixity, you will achieve magniloquence, ebullience, and flights of rhetorical brilliance.

'Raw, poetic and compulsively readable I can't wait to buy a copy for everyone I know.' Kathryn Stockett, author of *The Help* The summer she turned thirteen, Molly

Brodak's father was arrested for robbing eleven banks. In time, the image she held of him would unravel further, as more and more unexpected facets of his personality came to light. Bandit is her attempt to discover what, exactly, is left, when the most fundamental relationship of your life turns out to have been built on falsehoods. It is also a scrupulously honest account of learning how to trust again, and to rebuild the very idea of family from scratch. Refusing to fence off the trickier sides of her father's character, Brodak tries to find, through crystalline, spellbinding prose, a version of him that does not rely on the easy answers but allows him to be: an unknowable and incomprehensible whole - who is also her father. Unforgettable, moving, and utterly relatable, Bandit is a story of the unpredictable complexity of family.

Picking up where he left off in his acclaimed memoir *Sting-Ray Afternoons*, Steve Rushin brilliantly captures a bygone era, and the thrills of new adulthood in the early 80s. It begins in Bloomington, Minnesota, with a 13-year-old kid staging his own author photo that he hopes will someday grace the cover of a book jacket. And it ends at a desk in the legendary Time & Life building, with that same boy—now in his early 20s and writing professionally—reflecting on how the hell he got there from what seems like a distant universe. In between, Steve Rushin whisks us along on an extraordinarily funny, tender, and altogether unforgettable journey. From a menial summer job at suburban Bennigan's, to first-time college experiences in Milwaukee, to surviving early adulthood in seedy New York City, this deeply touching odyssey will remind any reader of those special moments when they too went from innocence to experience.

Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got *The Yugo: The Rise and Fall of the Worst Car in History*. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a

And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.

BuzzFeed, Shelf Awareness, Bustle, and Publishers Weekly\* An essential read for our times: an eye-opening memoir of working-class poverty in America that will deepen our understanding of the ways in which class shapes our country and “a deeply humane memoir that crackles with clarifying insight”.\* Sarah Smarsh was born a fifth generation Kansas wheat farmer on her paternal side, and the product of generations of teen mothers on her maternal side. Through her experiences growing up on a farm thirty miles west of Wichita, we are given a unique and essential look into the lives of poor and working class Americans living in the heartland. During Sarah’s turbulent childhood in Kansas in the 1980s and 1990s, she enjoyed the freedom of a country childhood, but observed the painful challenges of the poverty around her; untreated medical conditions for lack of insurance or consistent care, unsafe job conditions, abusive relationships, and limited resources and information that would provide for the upward mobility that is the American Dream. By telling the story of her life and the lives of the people she loves with clarity and precision but without judgement, Smarsh challenges us to look more closely at the class divide in our country. Beautifully written, in a distinctive voice, Heartland combines personal narrative with powerful analysis and cultural commentary, challenging the myths about people thought to be less because they earn less. “Heartland is one of a growing number of important works—including Matthew Desmond’s Evicted and Amy Goldstein’s Janesville—that together merit their own section in nonfiction aisles across the country: America’s postindustrial declineSmarsh shows how the false promise of the ‘American dream’

was used to subjugate the poor. It's a powerful mantra" \*(The New York Times Book Review).

Acclaimed historian Leslie Berlin's "deeply researched and dramatic narrative of Silicon Valley's early years...is a meticulously told...compelling history" (The New York Times) of the men and women who chased innovation, and ended up changing the world. Troublemakers is the gripping tale of seven exceptional men and women, pioneers of Silicon Valley in the 1970s and early 1980s. Together, they worked across generations, industries, and companies to bring technology from Pentagon offices and university laboratories to the rest of us. In doing so, they changed the world. "In this vigorous account...a sturdy, skillfully constructed work" (Kirkus Reviews), historian Leslie Berlin introduces the people and stories

behind the birth of the Internet and the microprocessor, as well as Apple, Atari, Genentech, Xerox PARC, ROLM, ASK, and the iconic venture capital firms Sequoia Capital and Kleiner Perkins Caufield & Byers. In the space of only seven years, five major industries—personal computing, video games, biotechnology, modern venture capital, and advanced semiconductor logic—were born. “There is much to learn from Berlin’s account, particularly that Silicon Valley has long provided the backdrop where technology, elite education, institutional capital, and entrepreneurship collide with incredible force” (The Christian Science Monitor). Featured among well-known Silicon Valley innovators are Mike Markkula, the underappreciated chairman of Apple who owned one-third of the company; Bob Taylor, who masterminded the personal computer; software entrepreneur Sandra Kurtzig, the first woman to take a technology company public; Bob Swanson, the cofounder of Genentech; Al Alcorn, the Atari engineer behind the first successful video game; Fawn Alvarez, who rose from the factory line to the executive suite; and Niels Reimers, the Stanford administrator who changed how university innovations reach the public. Together, these troublemakers rewrote the rules and invented the future.

At last, the enigmatic partner of Elvis Cole (The Two Minute Rule) takes center stage in this pulse-racing thriller. When Joe Pike is charged with safeguarding a wealthy heiress, he discovers protecting the sole witness to a crime is nothing compared to protecting an LA party girl from her own self-destruction... Larkin Conner Barkley lives like the City of Angels is hers for the taking. Young and staggeringly rich, she speeds through the city during its loneliest hours, blowing through red after red in her Aston Martin as if running for her life. Then suddenly she sees another car's metal-on-metal explosion of a terrible accident and, dazed, finds herself the single witness in a secret federal investigation. For maybe the first time in her life, Larkin wants to do the right thing. But in doing so she becomes the target for a relentless team of killers. And when the US Marshals and the finest security money can buy can't protect her, Larkin's wealthy family turns to the one man money can't buy—Joe Pike. Pike lives a world away from the palaces of Beverly Hills. He's an ex-cop, ex-Marine, ex-mercenary who owes a bad man a favor, and that favor is to keep the uncontrollable Larkin alive. Pike commits to protecting the girl, but it becomes clear someone in their circle is selling them out. Taking matters into his own hands, Joe drops off the gird with Larkin and follows his own survival rules: strike fast, hit hard, hunt down the hunters. With the help of private investigator Elvis Cole, Pike uncovers a web of lies and betrayals, and the stunning revelation that even the cops are not who they seem. As the body count

rises, Pike's biggest threat might come from the girl herself, a lost soul in the City of Angels, determined to destroy herself unless Joe Pike can teach her the value of life and love.

### **The New Republic**

In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. His name was Christopher Johnson McCandless. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving

a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. Digging deeply, he takes an inherently compelling mystery and unravels the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page. From the Trade Paperback edition.
