Canadian Machinery and Metalworking

Women and Military Service

"[Seize the high ground is a] narrative history of the Army's aerospace experience from the 1950s to the present. The focus is on ballistic missile defense, from the early NIKE-HERCULES missile program through the SAFEGUARD acquisition site allowed by the 1972 ABM Treaty to the more advanced 'Star Wars' concepts studies toward the end of the century. [What is] covered is not only the technological response to the threat but the organizational and tactical development of the commands and units responsible for the defense mission"--CMH website.

Original Harley-Davidson Panhead

Thomas Register of American Manufacturers

Promotes an awareness of metals in America's buildings and monuments, and makes recommendations for the preservation and repair of such metals. Intended for owners, architects, and building managers who are responsible for the preservation and maintenance of America's architectural heritage. When metal building components need rehabilitation or maintenance, info. on proper preservation techniques for each metal and its alloys has not been available. This sourcebook on

historic architectural metals is a reference on metals used in architecture; how they are used, how to identify them, and when to replace them. Photos

Fast Food Nation

Vols. for 1970-71 includes manufacturers' catalogs.

Power Plant Engineering

How to Rebuild the Cushman Cast Iron Engine

Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.

Catalog of Copyright Entries. Third Series

This basic source for identification of U.S. manufacturers is arranged by product in a large multi-volume set. Includes: Products & services, Company profiles and Catalog file.

Public Works Manual

In this pathbreaking work, Jasbir K. Puar argues that configurations of sexuality, race, gender, nation, class, and ethnicity are realigning in relation to

contemporary forces of securitization, counterterrorism, and nationalism. She examines how liberal politics incorporate certain queer subjects into the fold of the nation-state, through developments including the legal recognition inherent in the overturning of anti-sodomy laws and the proliferation of more mainstream representation. These incorporations have shifted many queers from their construction as figures of death (via the AIDS epidemic) to subjects tied to ideas of life and productivity (gay marriage and reproductive kinship). Puar contends, however, that this tenuous inclusion of some queer subjects depends on the production of populations of Orientalized terrorist bodies. Heteronormative ideologies that the U.S. nation-state has long relied on are now accompanied by homonormative ideologies that replicate narrow racial, class, gender, and national ideals. These “homonationalisms” are deployed to distinguish upright “properly hetero,” and now “properly homo,” U.S. patriots from perversely sexualized and racialized terrorist look-a-likes—especially Sikhs, Muslims, and Arabs—who are cordoned off for detention and deportation. Puar combines transnational feminist and queer theory, Foucauldian biopolitics, Deleuzian philosophy, and technoscience criticism, and draws from an extraordinary range of sources, including governmental texts, legal decisions, films, television, ethnographic data, queer media, and activist organizing materials and manifestos. Looking at various cultural events and phenomena, she highlights troublesome links between terrorism and sexuality: in feminist and queer responses to the Abu Ghraib photographs, in the triumphal responses to the

Supreme Court's Lawrence decision repealing anti-sodomy laws, in the measures Sikh Americans and South Asian diasporic queers take to avoid being profiled as terrorists, and in what Puar argues is a growing Islamophobia within global queer organizing.

Monthly Catalog of United States Government Publications

For the most current, comprehensive resource in this rapidly evolving field, look no further than the Revised Edition of the Handbook of Science and Technology Studies. This masterful volume is the first resource in more than 15 years to define, summarize, and synthesize this complex multidisciplinary, international field. Tightly edited with contributions by an internationally recognized team of leading scholars, this volume addresses the crucial contemporary issues—both traditional and nonconventional—social studies, political studies, and humanistic studies in this changing field. Containing theoretical essays, extensive literature reviews, and detailed case studies, this remarkable volume clearly sets the standard for the field. It does nothing less than establish itself as the benchmark, one that will carry the field well into the next century.

U.S. Industrial Directory

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the

newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

Whether you own a Springer, a Duo-Glide, Hydra-Glide or Electra-Glide, your Panhead deserves the best! Restore it to 100% originality with exacting guidance from restoration expert Greg Field. Exceptionally detailed color photographs guide you through each critical restoration process step-by-step. Serial and engine numbers, paint, trim, options, and technical features are detailed every step of the way. Insure the originality of your prized collectible by implementing the time-tested techniques presented throughout this essential volume.

Popular Mechanics

If your hobby is amateur radio or electronics you will often need coils in a variety of size, type, specification, etc.. Coils are no longer as easy to find as they were 20 years ago so you will have to wind your own. With the help of this simple yet detailed manual you'll quickly build a machine that can wind universal and honey comb coils, single layer and multi layer solenoids, close wound and space-wound coils, and pi-spaced coils such as those used for r-f chokes and transformers. And the mechanical counter gives

you total control of accuracy.

Books and Pamphlets, Including Serials and Contributions to Periodicals

India's New Capitalists

Power Engineering

A riot of outrageous shapes and spirals! Inspired by the frenetic Pop Art stylings of Keith Haring and Roy Lichtenstein, 16 highly abstract illustrations challenge colorists to get chaotic. Colorists can draw upon their own palettes to bring the stained glass patterns to vibrant life.

The Pictorial Field-book of the Revolution

In order to do business effectively in contemporary South Asia, it is necessary to understand the culture, the ethos, and the region's new trading communities. In tracing the modern-day evolution of business communities in India, this book uses social history to systematically document and understand India's new entrepreneurial groups.
