From the #1 New York Times-bestselling author of *The 48 Laws of Power* comes the definitive new book on decoding the behavior of the people around you. Robert Greene is a master guide for millions of readers, distilling ancient wisdom and philosophy into essential texts for seekers of power, understanding and mastery. Now he turns to the most important subject of all - understanding people's drives and motivations, even when they are unconscious of them themselves. We are social animals. Our very lives depend on our relationships with people. Knowing why people do what they do is the most important tool we can possess, without which our other talents can only take us so far. Drawing from the ideas and examples of Pericles, Queen Elizabeth I, Martin Luther King Jr, and many others, Greene teaches us how to detach ourselves from our own emotions and master self-control, how to develop the empathy that leads to insight, how to look behind people's masks, and how to resist conformity to develop your singular sense of purpose. Whether at work, in relationships, or in shaping the world around you, *The Laws of Human Nature* offers brilliant tactics for success, self-improvement, and self-defense.

Zarek's Point of View: Dark-Hunter: A soulless guardian who stands between mankind and those who would see mankind destroyed. Yeah, right. The only part of that Code of Honor I got was eternity and solitude. Insanity: A condition many say I suffer from after being alone for so long. But I don't suffer from my insanity-I enjoy every minute of it. Trust: I can't trust anyone not even myself. The only thing I trust in is my ability to do the wrong thing in any situation and to hurt anyone who gets in my way. Truth: I endured a lifetime as a Roman slave, and 900 years as an exiled Dark-Hunter. Now I'm tired of enduring. I want the truth about what happened the night I was exiled-I have nothing to lose and everything to gain. Astrid (Greek, meaning star): An exceptional woman who can see straight to the truth. Brave and strong, she is a point of light in the darkness. She touches me and I tremble. She smiles and my cold heart shatters. Zarek: They say even the most damned man can be forgiven. I never believed that until the night Astrid opened her door to me and made this feral beast want to be human again. Made me want to love and be loved. But how can an ex-slave whose soul is owned by a Greek goddess ever dream of touching, let alone holding, a fiery star?

century German psychiatric literature, which, while almost completely unknown to modern readers, have had a devastating influence on attitudes toward women and children in the 20th century. The articles on the sexual "lies" and sexual "fantasies" of children were seminal, brutal, and still resonate in today's literature, having taken a terrible toll on the intellectual ideas of modern psychiatry. The articles document brutal treatment for masturbation, hysteria, and vaginismus, as well as incidences of the so-called fabricated sexual abuse of "prematurely perverted" children. Though by no means an "easy read," Masson's collection of these nine articles exposes a point in the history of the practice of psychology that proves ignorance and negative attitudes towards women created a dark science that modern psychiatrists struggle to overcome.

Dark Rules

BOOK ONE OF THE DARK DUET: Caleb is a man with a singular interest in revenge. Kidnapped as a young boy and sold into slavery by a power-hungry mobster, he has thought of nothing but vengeance. For twelve years he has immersed himself in the world of pleasure slaves searching for the one man he holds ultimately responsible. Finally, the architect of his suffering has emerged with a new identity, but not a new nature. If Caleb is to get close enough to strike, he must become the very thing he abhors and kidnap a beautiful girl to train her to be all that he once was. Eighteen-year-old Olivia Ruiz has just woken up in a strange place. Blindfolded and bound, there is only a calm male voice to welcome her. His name is Caleb, though he demands to be called Master. Olivia is young, beautiful, naïve and willful to a fault. She has a dark sensuality that cannot be hidden or denied, though she tries to accomplish both. Although she is frightened by the strong, sadistic, and arrogant man who holds her prisoner, what keeps Olivia awake in the dark is her unwelcome attraction to him. **WARNING:** This book contains very disturbing situations, dubious consent, strong language, and graphic violence.

Romance Fiction: A Guide to the Genre, 2nd Edition

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action

with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
