Apollo's Fire

Sustainable Ethanol

A politically polarized America is coming together over a new kind of car—the plug-in hybrid that will save drivers money, reduce pollution, and increase US security by reducing dependence on imported oil. Plug-in Hybrids points out that, where hydrogen fuel-cell cars won't be ready for decades, the technology for plug-in hybrids exists today. Unlike conventional hybrid cars that can't run without gasoline, plug-in hybrids use gasoline or cheaper, cleaner, domestic electricity—or both. Although plug-in hybrids are not yet for sale, demand for them is widespread, coming from characters across the political spectrum, such as:

- Chelsea Sexton, the automotive insider: working for General Motors, Sexton fought attempts to destroy the all-electric EV1 car and describes how car companies are resisting plug-in hybrids—and why they'll make them anyway.
- Felix Kramer and the tech squad: Kramer started a nonprofit organization using the Internet to tap into a small army of engineers who built the first plug-in Prius hybrids.
- R. James Woolsey, former CIA director and national security hawk: seeing the end of oil supplies looming, Woolsey is demanding plug-in hybrids to wean us from petroleum. Cautioning that the oil and auto companies know how to undermine the success of plug-in car programs to protect their interests, the book gives readers tools to ensure that plug-in hybrids get to market—and stay here.

Designing Regulatory Policy with Limited Information

Looks at renewable energy policy and resources and argues that a reduction in greenhouse gases will increase economic growth and provide energy independence.

Plug-in Hybrids

Anza Borrego Desert State Park is the largest desert park in the United States, drawing approximately 650,000 visitors per year. Combining detailed narrative with GPS-based trail maps, Day and Overnight Hikes: Anza-Borrego Desert State Park

breaks down the best of the best hikes, both day and overnight. Whether it's the best view over Culp Valley, a walk through Hellhole Canyon, or a flat walk through hills and dales near the Salton Sea, Day and Overnight Hikes is the definitive go-to guide to enjoy the largest desert park in the United States, just an hour's drive from San Diego.

Day and Overnight Hikes: Anza-Borrego Desert State Park

Examines policy design when the policy maker is imperfectly informed, focusing on cases where the regulated firm possesses better information about its technology than the regulator.

The Paths We Choose

Godsmack's founder and front man Sully Erna has been immersed in the world of rock ever since he got his first drum set. Given his achievements, that early start might suggest that his career was a straight shot to the top. The truth is, Erna took so many detours during the years between his first instrument and Godsmack's first contract that, more than once, he nearly forgot his destination. In *The Paths We Choose*, he relates the turbulent story of his life before the platinum albums and packed arenas. Sully's story shows us that whatever hardship we may face, ultimately, our choices determine our destiny. He's made the most of every advantage and obstacle he has faced, and reminds us that we can, too. For Sully, success is not an ultimate destination. Every day brings a new fork in the road, another path to choose.

Bessie's Fortune

In this resource, the authors uncover the benefits and limitations of North America's fuel ethanol industry.
