Thirty years' close association with the Oil Industry has been a fascinating and stimulating experience; fascinating because the Oil Industry itself is so full of interest and stimulating because of the challenges which changes in technology have brought about. No longer is oil easily obtainable and no longer can oil be found in exotic regions of the globe. On the contrary, if oil is required it is more likely to be found in the bitter Alaskan ice-fields or in the cold depths of the North Sea, where environments are hostile to man and a challenge to technology. Man's own activities in such hostile environments have created new problems and new hazards. The saga of oil exploration and production in the North Sea has been and continues to be written, but little has been recorded of the hazards inflicted on the men who are faced with the task of implementing this new technology. This book is almost a medical history of the North Sea activities and provides information gained by hard won experience to those involved not only in the North Sea but in any offshore oil operation, wherever it may be.

First Aid to the Injured. St. John Ambulance Association. A Pocket Aide-memoire Compiled for the Instruction of the Troops in Zululand by the Late Surgeon-major P. Shepherd, M.B., Shortly Before His Death at Isandula, January 22, 1879. Revised for the Use of the St. J.A.A. Pupils. Copies Can be Obtained from the Association, St. John's Gate, Clerkenwell, London, E.C.

'A striking feature of Clinical Sports Medicine has always been the authors' relentless commitment to "clinical". This is a unique book.' Dr Emma K Stokes, President, World Confederation for Physical Therapy This world-leading title in sport and exercise medicine is an authoritative and practical guide to physiotherapy and musculoskeletal medicine for clinicians and students. To accommodate the rapid advances in the professions, this fifth edition has been expanded into two volumes. This first volume, Clinical Sports Medicine: Injuries, is the essential guide to all aspects of preventing, diagnosing and treating sports-related injuries. It serves physiotherapists, team clinicians, athletic trainers, sports therapists, sports rehabilitators and trainers, as well as students in the health professions and in Human Movement Studies. All chapters have been updated and rewritten by an international team of sports physiotherapists and sports physicians at the top of their fields. More than 550 new figures have been added to bring the total number of illustrations to 1300. There are 15 new chapters, including: • Shoulder pain • Acute knee injuries • Posterior thigh pain • Low back pain • Return to play • Sport-specific biomechanics This ebook is enhanced with 40 video masterclasses showing procedures such as foot examination, hip injections and basic biomechanical assessment. Note: The second volume, Clinical Sports Medicine: Exercise Medicine, is scheduled for release in 2018 and will focus on the health benefits of exercise and the medical issues in sport. It will serve general practitioners and other clinicians who prescribe exercise to promote health and to treat medical conditions such as heart disease and diabetes. ABOUT THE AUTHORS PETER BRUKNER OAM, MBBS, FACSEP, FACSM, FFSEM Peter Brukner is a Sport and Exercise Physician and currently the Australian cricket team doctor. He was previously Head of Sports Medicine and Sports Science at the Liverpool Football Club in the UK. Peter is the founding partner of the Olympic Park Sports Medicine Centre, a past president of the Australasian College of Sport and Exercise Physicians, and Professor of Sports Medicine at La Trobe University. Peter has been an Olympic team physician and was the Socceroos team doctor at the 2010 World Cup. In 2005 he was awarded the Order of Australia medal (OAM) for services to sports medicine. KARIM KHAN MD, PhD, MBA, FACSEP, FACSM, FFSEM Karim Khan is a Sport and Exercise Physician and Professor of Sports Medicine at the Department of Family Practice at the University of British Columbia, Vancouver, Canada. He is Editor in Chief of the British Journal of Sports Medicine (BJSM) and has published more than 300 peer-reviewed research articles. In 2001, he was

awarded the Australian Prime Minister's Medal for service to sports medicine. Karim was profiled in The Lancet in its 2012 Olympic Games issue.

Comprehensive insight into the offshore oil and gas industry for those intending to choose it as a career Full syllabus coverage for OPITO BOSIET, FOET, MIST and IMIST courses Produced in full colour with over 180 images Basic Offshore Safety covers everything that newcomers to the offshore oil and gas industry need to know prior to travelling offshore or when attending OPITO's Basic Offshore Safety Induction and Emergency Training (BOSIET), Minimum Industry Safety Training (MIST), Further Offshore Emergency Training (FOET) and International MIST courses. Primarily focused on the oil industry, this book introduces readers to the key safety topics in the offshore support vessel industry and common to the renewable industry. Written in easy to follow steps and including references to both the legislation and guidance where relevant, Abdul Khalique walks the reader through the hazards they are likely to encounter when travelling to, from or working offshore, showing how to minimise risks and deal with any issues that may arise at any stage of the work.

Basic Offshore Safety

This first-aid book has been authorized by St John's Ambulance, the St Andrew's Ambulance Association and the British Red Cross and offers an up-to-date guide to treating casualties of all ages in any emergency. The chapters have been reorganized by injury type and severity and are colour-coded for swift and easy access to information. The contents give due emphasis to really serious problems such as head injury, without neglecting common, but still worrying ailments like

nosebleed or prickly heat. The two new sections include a 16-page quick-reference chapter which spells out emergency life-saving procedures and there is advice for first-aiders which gives real facts about the risks of cross-infection. The book complies with the latest 1992 guidelines laid down by the European Resuscitation Council.

Homeopathy has a two-hundred year track record in helping people and animals to come through emergencies and common ailments. Christopher Day has condensed 43 years of veterinary practice experience into this ebook, to enable home treatment of the family pet, whether dog, cat, rabbit, budgerigar or tortoise, without danger of side effects and without risk of interfering with any concurrent veterinary drug medication. Fifty useful homeopathic medicines are briefly described and a treatment guide is given for scores of ailments and health problems. This is a handy ebook for anyone interested in self-help medication of their pets. Enhance pet health and well-being, while reducing veterinary bills. This ebook will save its price many times over, the first time it is used.

This highly practical aid to management of major incidents is the refined and improved new edition of Prehospital Emergency Management Master. Concentrating on the essential elements in treatment and transport of the wounded in a major incident this new system provides easily assimilable information on: symbols and terminology; first actions; METHANE report; command; safety; communications; triage; treatment; transport the system is produced on waterproof pages, and includes 12 separate action cards for use by auxiliary helpers, and a log for recording the facts. The complete package comes in a handy sized ring binder, allowing users to add their own local notes. The use of colour and easily recognisable icons makes this a valuable aid even in the most difficult conditions.

Alphabetical List of Additions Made to the War Department Library

This is much more than just a 'first-aid' book. It details many common diseases and problems that a horse is likely to encounter, with suggested homeopathic treatments, gleaned from Christopher Day's 43 years of experience in equine homeopathy and holistic medicine. There are no fewer than 75 homeopathic medicines described. Almost 300 pages of practical help and guidance.

Offshore Medicine

The physical and mental health of an employee influences attendance and quality of work. Indifferent health, lack of a sense of well-being, affects both the individual and the efficiency of the organisation. This book is intended to give general and specific guidance to the non-medical person involved with the health of people working in offices and similar surroundings, on the common cause of ill-health of staff and factors at work which influence health.
