Housed in the former 16th-century convent of Santo Domingo church, now the Regional Museum of Oaxaca, Mexico, is an important collection of textiles representing the area's indigenous cultures. The collection includes a wealth of exquisitely made traditional weavings, many that are now considered rare. The *Unbroken Thread: Conserving the Textile Traditions of Oaxaca* details a joint project of the Getty Conservation Institute and the National Institute of Anthropology and History (INAH) of Mexico to conserve the collection and to document current use of textile traditions in daily life and ceremony. The book contains 145 color photographs of the valuable textiles in the collection, as well as images of local weavers and project participants at work. Subjects include anthropological research, ancient and present-day weaving techniques, analyses of natural dyestuffs, and discussions of the ethical and practical considerations involved in working in Latin America to conserve the materials and practices of living cultures.

Image, Knife, and Gluepot: Early Assemblage in Manuscript and Print

In this ingenious study, Kathryn Rudy takes the reader on a journey to trace the birth, life and afterlife of a Netherlandish book of hours made in 1500. *Image, Knife, and Gluepot* painstakingly reconstructs the process by which this manuscript was created and discusses its significance as a text at the forefront of fifteenth-century book production, when the invention of mechanically-produced images led

to the creation of new multimedia objects. Rudy then travels to the nineteenth century to examine the phenomenon of manuscript books being pillaged for their prints and drawings: she has diligently tracked down the dismembered parts of this book of hours for the first time. *Image, Knife, and Gluepot* also documents Rudy's twenty-first-century research process, as she hunts through archives while grappling with the logistics and occasionally the limits of academic research. This is a timely volume, focusing on questions of materiality at the forefront of medieval and literary studies. Beautifully illustrated throughout, its use of original material and its striking interdisciplinary approach, combining book and art history, make it a significant academic achievement. *Image, Knife, and Gluepot* is a valuable text for any scholar in the fields of medieval studies, the history of early books and publishing, cultural history or material culture. Written in Rudy's inimitable style, it will also be rewarding for any student enrolled in a course on manuscript production, as well as non-specialists interested in the afterlives of manuscripts and prints. The Royal Society of Edinburgh has generously contributed to this Open Access publication. Due to the number and quality of the images in this book, we have provided the option of a more expensive hardback edition, printed on the best quality paper available, in order to present the images as clearly and beautifully as possible. We hope this range of options — the freely available PDF, HTML and XML editions; the economically priced EPUB, MOBI and paperback editions; and the more expensively printed hardback — will satisfy everyone. Furthermore the HTML edition allows readers to magnify the images of the manuscripts displayed in the book.

The Unbroken Thread

Part of the popular BERA/SAGE Research Methods in Education series, this is the first book to specifically focus on the ethics of Education research. Drawn from the authors' experiences in the UK, Australia and mainland Europe and with contributions from across the globe, this clear and accessible book includes a wide range of examples. The authors show how to: identify ethical issues which may arise with any research project; gain informed consent; provide information in the right way to participants; present and disseminate findings in line with ethical guidelines. All researchers, irrespective of whether they are postgraduate students, practising teachers or seasoned academics, will find this book extremely valuable for its rigorous and critical discussion of theory and its strong practical focus. Rachel Brooks is Professor of Sociology and Head of the Sociology Department at the University of Surrey, UK. Kitty te Riele is Principal Research Fellow in the Victoria Institute for Education, Diversity and Lifelong Learning, at Victoria University in Australia. Meg Maguire is Professor of Sociology of Education at King's College London.

Monstrosity, Disability, and the Posthuman in the Medieval and Early Modern World

"Spanning more than two hundred years, *An African American and Latinx History of the United States* is a revolutionary, politically charged narrative history, arguing that the "Global South" was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations such as "manifest destiny" and "Jacksonian democracy," and shows how placing African American, Latinx, and Indigenous

voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century, to May 1, 2006, known as International Workers' Day, when migrant laborers--Chicana/os, Afrocubanos, and immigrants from every continent on earth--united in resistance on the first "Day Without Immigrants." As African American civil rights activists fought against Jim Crow laws and Mexican labor organizers warred against the suffocating grip of capitalism, Black and Spanish-language newspapers, abolitionists, and Latin American revolutionaries coalesced around movements built between people from the United States and people from Central America and the Caribbean. And in stark contrast to the resurgence of "America first" rhetoric, Black and Latinx intellectuals and organizers today have urged the United States to build bridges of solidarity with the nations of the America. Incisive and timely, this bottom-up history, told from the interconnected vantage points of Latinx and African Americas, reveals the radically different ways that people of the diaspora have addressed issues still plaguing the United States today, and it offers a way forward in the continued struggle for universal civil rights."--Dust jacket.

An authoritative and superbly illustrated celebration of the great gardens of the United States and Canada from the author of the highly acclaimed *The New English Garden*. The gardens chosen for this book range from eighteenth-century landscape gardens such as Thomas Jefferson's Monticello in Virginia, through twentieth-century creations such as the lakeside garden at Innisfree in New York State and dramatic Naumkeag in Massachusetts to the work of exciting new designers such as Topher Delaney in San Francisco and Martha Schwartz in New Mexico. Many of the gardens are open to the public, so readers can actually visit them. The others, newer domestic gardens, offer instead glimpses into a glamorous world of luxurious outdoor living.

United States History - Part A

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass*

The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

Rudnick Book Prize presented by the New England American Studies Association 2012 Runner-Up, John Hope Franklin Publication Prize presented by the American Studies Association 2012 Honorable Mention, Distinguished Book Award presented by the Society for the Study of American Women Writers Part of the American Literatures Initiative Series Beginning in the mid nineteenth century in America, childhood became synonymous with innocence—a reversal of the previously-dominant Calvinist belief that children were depraved, sinful creatures. As the idea of childhood innocence took hold, it became racialized: popular culture constructed white children as innocent and vulnerable while excluding black youth from these qualities. Actors, writers, and visual artists then began pairing white children with African American adults and children, thus transferring the quality of innocence to a variety of racial-political projects—a dynamic that Robin Bernstein calls “racial innocence.” This phenomenon informed racial formation from the mid nineteenth century through the early twentieth. *Racial Innocence* takes up a rich archive including books, toys, theatrical props, and domestic knickknacks which Bernstein analyzes as “scriptive things” that invite or prompt historically-located practices while allowing for resistance and social improvisation. Integrating performance studies with literary and visual analysis, Bernstein offers singular readings of theatrical productions from blackface minstrelsy to *Uncle Tom’s Cabin* to *The Wonderful Wizard of Oz*; literary works by Joel Chandler Harris, Harriet Wilson, and Frances Hodgson Burnett; material culture including Topsy pincushions, *Uncle Tom and Little Eva* handkerchiefs, and Raggedy Ann dolls; and visual texts ranging from fine portraiture to advertisements for lard substitute. Throughout, Bernstein shows how “innocence” gradually became the exclusive province of white children—until the Civil Rights Movement succeeded not only in legally desegregating public spaces, but in culturally desegregating the concept of childhood itself. Guided by the belief that forces from the global market and globalization affect all social workers in their practice, the book addresses a wide range of relevant topics, including immigration by refugees, the impact of new technologies, war trauma, and restorative justice. A sustainability policy analysis model and an ecosystems framework for trauma-informed care are also presented in this timely text.

An Introduction to Applied Cognitive Psychology

Winner of the 2011 Man Booker Prize By an acclaimed writer at the height of his powers, *The Sense of an Ending* extends a streak of extraordinary books that began with the best-selling *Arthur & George* and continued with *Nothing to Be Frightened Of* and, most recently, *Pulse*. This intense new novel follows a middle-aged man as he contends with a past he has never much thought about—until his closest childhood friends return with a vengeance, one of them from the grave, another maddeningly present. Tony Webster thought he'd left all this behind as he built a life for himself, and by now his marriage and family and career have fallen into an amicable divorce and retirement. But he is then presented with a mysterious legacy that obliges him to reconsider a variety of things he thought he'd understood all along, and to revise his estimation of his own nature and place in the world. A novel so compelling that it begs to be read in a single sitting, with stunning psychological and emotional depth and sophistication, *The Sense of an Ending* is a brilliant new chapter in Julian Barnes's oeuvre.

The Sense of an Ending

No one predicted success for Henry Ward Beecher at his birth in 1813. The blithe, boisterous son of the last great Puritan minister, he seemed destined to be overshadowed by his brilliant siblings—especially his sister, Harriet Beecher Stowe, who penned the century's bestselling book *Uncle Tom's Cabin*. But when pushed into the ministry, the charismatic Beecher found international fame by shedding his father Lyman's Old Testament-style fire-and-brimstone theology and instead preaching a New Testament-based gospel of unconditional love and healing, becoming one of the founding fathers of modern American Christianity. By the 1850s, his spectacular sermons at Plymouth Church in Brooklyn Heights had made him New York's number one tourist attraction, so wildly popular that the ferries from Manhattan to Brooklyn were dubbed "Beecher Boats." Beecher inserted himself into nearly every important drama of the era—among them the antislavery and women's suffrage movements, the rise of the entertainment industry and tabloid press, and controversies ranging from Darwinian evolution to presidential politics. He was notorious for his irreverent humor and melodramatic gestures, such as auctioning slaves to freedom in his pulpit and shipping rifles—nicknamed "Beecher's Bibles"—to the antislavery resistance fighters in Kansas. Thinkers such as Emerson, Thoreau, Whitman, and Twain befriended—and sometimes parodied—him. And then it all fell apart. In 1872 Beecher was accused by feminist firebrand Victoria Woodhull of adultery with one of his most pious parishioners. Suddenly the "Gospel of Love" seemed to rationalize a life of lust. The cuckolded husband brought charges of "criminal conversation" in a salacious trial that became the most widely covered event of the century, garnering more newspaper headlines than the entire Civil War. Beecher survived, but his reputation and his

causes—from women’s rights to progressive evangelicalism—suffered devastating setbacks that echo to this day. Featuring the page-turning suspense of a novel and dramatic new historical evidence, Debby Applegate has written the definitive biography of this captivating, mercurial, and sometimes infuriating figure. In our own time, when religion and politics are again colliding and adultery in high places still commands headlines, Beecher’s story sheds new light on the culture and conflicts of contemporary America. In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney’s films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

We live today in a culture of full disclosure, where tell-all memoirs top the best-seller lists, transparency is lauded, and privacy seems imperiled. But how did we get here? Exploring scores of previously sealed records, *Family Secrets* offers a sweeping account of how shame--and the relationship between secrecy and openness--has changed over the last two centuries in Britain. Deborah Cohen uses detailed sketches of individual families as the basis for comparing different sorts of social stigma. She takes readers inside an Edinburgh town house, where a genteel maiden frets with her brother over their niece's downy upper lip, a darkening shadow that might betray the girl's Eurasian heritage; to a Liverpool railway platform, where a heartbroken mother hands over her eight-year old illegitimate son for adoption; to a town in the Cotswolds, where a queer vicar brings to his bank vault a diary--sewed up in calico, wrapped in parchment--that chronicles his sexual longings. Cohen explores what families in the past chose to keep secret and why. She excavates the tangled history of privacy and secrecy to explain why privacy is now viewed as a hallowed right while secrets are condemned as destructive. In delving into the dynamics of shame and guilt, *Family Secrets* explores the part that families, so often regarded as the agents of repression, have played in the transformation of social mores from the Victorian era to the present day. Written with compassion and keen insight, this is a bold new argument about the sea-changes that took place behind closed doors.

more effectively, and actively apply those strategies to all aspects of their lives.

Family Secrets

A historical survey of American art includes works from different art forms, profiles of the notable and less-well-known artists behind them, and discussions about the social themes and meanings used in them.

The Psychosocial Implications of Disney Movies

In this provocative, newly revised, and expanded survey, David Bjelajac punctures the idea of a uniquely American way of seeing or representation. Instead, he sifts painting, sculpture, architecture, photography, and contemporary new media within a broader material culture, documenting a visual history characterized by conflict and diversity from European colonial settlement to the themed environments of Disney and art exhibitions in the aftermath of the September 11, 2001, terrorist attacks in America. Though broadly chronological, the book is structured around various themes, such as the animating power of religious imagery in the seventeenth century, the cultivation of republican virtue in the eighteenth century, and a split national identity in the Civil War era. Later chapters document the rise of a conflicted Avant-Garde, the populism and public art of the Depression years, and Modernist art and Postmodernist pluralism during the Cold War. The book concludes with a new chapter on globalization and the culture wars from the 1980s to 2003. Famous works by established names such as John Singleton Copley, Benjamin Henry Latrobe, Mathew Brady, James Abbott McNeill Whistler, Georgia O'Keeffe, Jackson Pollock, Judy Chicago, and Robert Gober are freshly interpreted next to vernacular imagery a Masonic apron, an earthenware mug, a Quaker sampler, a satirical cartoon, or a labor union poster. Dismissing the idea of art as a stately evolution of styles or "-isms," the author sees America's visual culture as an arena in which conflicting notions of class, gender, race, and regional allegiance are fought. Stepping outside traditional art-historical discourse, he launches boldly into the realms of politics, religion, science, literature, and popular culture in order to analyze individual art works within their specific historical contexts. Throughout, using generous quotations from primary sources, Bjelajac pays close attention to how contemporary artists, audiences, and beholders from different backgrounds have talked about specific works, the nature of art, and the artist's role in American society. "

After glamorous American singer Claire Phillips opened her own night club in Manila, using the proceeds to secretly feed starving American POWs, she also began working as a spy, chatting up Japanese military men and passing their secrets along to local guerilla resistance fighters. Australian Army nurse Vivian Bullwinkel, stationed in Singapore then shipwrecked in the Dutch East Indies, became the sole survivor of a horrible massacre by Japanese soldiers. She hid for days, tending to a seriously wounded British soldier while wounded herself. Humanitarian Elizabeth Choy lived the rest of her life hating only war, not her tormentors, after enduring six months of starvation and torture by the Japanese

military police. In these pages, readers will meet these and other courageous women and girls who risked their lives through their involvement in the Pacific Theater of Operations during World War II. Fifteen suspense-filled stories unfold across China, Japan, Malaya, Singapore, the Dutch East Indies, and the Philippines, providing an inspiring reminder of women and girls' refusal to sit on the sidelines around the world and throughout history. These women—whose stories span from 1932 through 1945, the last year of the war, when U.S. Marines landed on Iwo Jima—served in dangerous roles as spies, medics, journalists, resisters, and saboteurs. Nine of the women were American; seven were captured and imprisoned by the Japanese, enduring brutal conditions. Author Kathryn J. Atwood provides appropriate context and framing for teens 14 and up to grapple with these harsh realities of war. Discussion questions and a guide for further study assist readers and educators in learning about this important and often neglected period of history.

Translating Theory into Practice Globalizing Intercultural Communication: A Reader introduces students to intercultural communication within the global context, and equips them with the knowledge and understanding to grapple with the dynamic, interconnected and complex nature of intercultural relations in the world today. This reader is organized around foundational and contemporary themes of intercultural communication. Each of the 14 chapters pairs an original research article explicating key topics, theories, or concepts with a first-person narrative that brings the chapter content alive and invites students to develop and apply their knowledge of intercultural communication. Each chapter's pair of readings is framed by an introduction highlighting important issues presented in the readings that are relevant to the study and practice of intercultural communication and end-of-chapter pedagogical features including key terms and discussion questions. In addition to illuminating concepts, theories, and issues, authors/editors Kathryn Sorrells and Sachi Sekimoto focus particular attention on grounding theory in everyday experience and translating theory into practice and actions that can be taken to promote social responsibility and social justice.

Why have so many central and inner cities in Europe, North America and Australia been so radically revamped in the last three decades, converting urban decay into new chic? Will the process continue in the twenty-first century or has it ended? What does this mean for the people who live there? Can they do anything about it? This book challenges conventional wisdom, which holds gentrification to be the simple outcome of new middle-class tastes and a demand for urban living. It reveals gentrification as part of a much larger shift in the political economy and culture of the late twentieth century. Documenting in gritty detail the conflicts that gentrification brings to the new urban 'frontiers', the author explores the interconnections of urban policy, patterns of investment, eviction, and homelessness. The failure of liberal urban policy and the end of the 1980s financial boom have made the end-of-the-century city a darker and more dangerous place. Public policy and the private market are conspiring against minorities, working people, the poor, and the homeless as never before. In the emerging revanchist

city, gentrification has become part of this policy of revenge.

This collection examines the intersection of the discourses of “disability” and “monstrosity” in a timely and necessary intervention in the scholarly fields of Disability Studies and Monster Studies. Analyzing Medieval and Early Modern art and literature replete with images of non-normative bodies, these essays consider the pernicious history of defining people with distinctly non-normative bodies or non-normative cognition as monsters. In many cases throughout Western history, a figure marked by what Rosemarie Garland-Thomson has termed “the extraordinary body” is labeled a “monster.” This volume explores the origins of this conflation, examines the problems and possibilities inherent in it, and casts both disability and monstrosity in light of emergent, empowering discourses of posthumanism.
