Food Matters

The Indian Decisions

Son of the Soil, Maharaja Ganga Singh

NEET 2019 Biology Guide - 6th Edition

Motoring Guide of India

The Lands of Cazembe

The Official Railway Guide

In this award-winning novel, Tharoor has masterfully recast the two-thousand-year-old epic, The Mahabharata, with fictional but highly recognizable events and characters from twentieth-century Indian politics. Nothing is sacred in this deliciously irreverent, witty, and deeply intelligent retelling of modern Indian history and the ancient Indian epic The Mahabharata. Alternately outrageous and instructive, hilarious and moving, it is a dazzling tapestry of prose and verse that satirically, but also poignantly, chronicles the struggle for Indian freedom and independence.

Incredible India

The Pearson Guide To The Scra Examination, 2/E

This guide to the literature of Asian history represents a first attempt to present in an integrated fashion all the major source materials, without distinction as to place or language of publication. Of the approximately 950 books and periodicals referred to, about two-thirds are in English, and about 140 are in Japanese. In addition to books and articles on historical and political subjects, the Bibliography also lists appropriate encyclopedias, yearbooks, biographical dictionaries, atlases, gazetteers, and sources of census and statistical information. The selection of references was made after an examination of contents or on the advice of specialists. The criteria for selection included the comprehensiveness of the work, the avoidance of overlap with other works cited, and the quality of the work itself. There is an obviously modern bias to this guide with its concentration on problems of concern to modern Asia rather than traditional Asia, but materials have not been limited to those of a strictly contemporary interest, and books with an early modern emphasis have also been included. The work encompasses materials published up to the end of 1968; extended editions of this guide will appear at regular intervals in the future, and to facilitate this, the text has been transcribed on computer tape. The countries and regions covered are: Asia generally; Southern Asia generally. Ceylon; India; Nepal; Pakistan. Southeast Asia generally; Burma; Thailand; Malaysia; the Philippines; Indochina generally; Vietnam; Laos; Cambodia. East Asia generally; China; Mongolia; Korea; Japan.

Books in Print Supplement

From the award-winning champion of culinary simplicity who gave us the bestselling *How to Cook Everything* and *How to Cook Everything Vegetarian* comes *Food Matters*, a plan for responsible eating that's as good for the planet as it is for your weight and your health. We are finally starting to acknowledge the threat carbon emissions pose to our ozone layer, but few people have focused on the extent to which our consumption of meat contributes to global warming. Think about it this way: In terms of energy consumption, serving a typical family-of-four steak dinner is the rough equivalent of driving around in an SUV for three hours while leaving all the lights on at home. Bittman offers a no-nonsense rundown on how government policy, big business marketing, and global economics influence what we choose to put on the table each evening. He demystifies buzzwords like "organic," "sustainable," and "local" and offers straightforward, budget-conscious advice that will help you make small changes that will shrink your carbon footprint -- and your waistline. Flexible, simple, and non-doctrinaire, the plan is based on hard science but gives you plenty of leeway to tailor your food choices to your lifestyle, schedule, and level of commitment. Bittman, a food writer who loves to eat and eats out frequently, lost thirty-five pounds and saw marked improvement in his blood levels by simply cutting meat and processed foods out of two of his three daily meals. But the simple truth, as he points out, is that as long as you eat more vegetables and whole grains, the result will be better health for you and for the world in which we live. Unlike most things that are virtuous and healthful, Bittman's plan doesn't involve sacrifice. From Spinach and Sweet Potato Salad with Warm Bacon Dressing to Breakfast Bread Pudding, the recipes in *Food Matters* are flavorful and sophisticated. A month's worth of meal plans shows you how Bittman chooses to eat and offers proof of how satisfying a mindful and responsible diet can be. Cheaper, healthier, and socially sound, *Food Matters* represents the future of American eating.

The Jungle Book
