When the Michigan Wolverines arrived in Minneapolis to battle the Minnesota Gophers in 1903, a simple 30¢, five-gallon Red Wing stoneware water jug began football's first rivalry trophy game. The "Little Brown Jug" has been the subject of conspiracy theories, theft, national championships, and most of all pride, with each game's victor prominently displaying the jug on its campus—until it is fought for again.

This first volume in the New American West Series explores Alaska's vast national-park system and the evolution of wilderness concepts in the 20th century. After World War II, the continued presence of human habitation forced a complex debate over "inhabited wilderness", which culminated in the Alaska National Interest Lands Conservation Act in 1980. The author focuses on three principal national parks: Glacier Bay, Denali, and Gates of the Arctic. 24 halftones. 2 maps.

As parents of adult children, we often wonder: Will my children make good choices when they're on their own? How can I let them go when I've held them for so long? Parent and author Jodie Berndt understands what it's like to release children into the world and still care deeply about them and everything they will face in life from relationships to career decisions and everything in between. In *Praying the Scriptures for Your Adult Children*, Jodie continues her *Praying the Scriptures* series with biblical prayers for your adult children, whether they are just leaving the nest, flying well on their own, or struggling to take off at all. Each section focuses on a different aspect of adulthood, with encouraging stories from experienced parents who are praying their children through rocky marriages, health concerns, financial challenges and other real-life issues. At the end of each chapter, you'll find personalized prayers for your children taken straight from Scripture. Each chapter also includes verses for you to pray for yourself as you take the challenging step of trusting God to care for your children in ways that you can't. With grace and wisdom, Jodie addresses cultural trends such as couples living together before marriage and young adults leaving the church, as well as the painful realities of loneliness, addiction, and mental health issues. With hope-filled words for the parents of the prodigal, she is particularly sensitive to the long-term prayers we offer, even as we doubt ourselves and grieve over our children's choices. Whatever you are praying for, you will find confidence and peace in these powerful prayers

Acclaimed by critics who likened it to *Coming Into the Country* by John McPhee and Rachel Carson's *Silent Spring*, *Mountain in the Clouds* has become a classic of natural history. As the struggle to protect Northwest salmon runs and the urgency of the fight against environmental deterioration escalates, *Mountain in the Clouds* remains an important and illuminating story, as timely now as when it was first written.

Leon Panetta has had two of the most consequential careers of any American public servant in the past fifty years. His first, beginning as an army intelligence officer and including a run as one of Congress's most powerful and respected members, lasted 35 years and culminated in his role as Clinton's budget czar and White House chief of staff. He then 'retired' to establish the Panetta Institute, to serve on the Iraq Study Group; and to protect the California coast. During the Twenties, the Great White Way roared with nearly 300 book musicals. Luminaries who wrote for Broadway during this decade included Irving Berlin, George M. Cohan, Rudolf Friml, George Gershwin, Oscar Hammerstein II, Lorenz Hart, Jerome Kern, Cole Porter, Richard Rodgers, Sigmund Romberg, and Vincent Youmans, and the era's stars included Eddie Cantor, Al Jolson, Ruby Keeler, and Marilyn Miller. Light-hearted Cinderella musicals dominated these years with such hits as Kern's long-running *Sally*, along with romantic operettas that dealt with princes and princesses in disguise. Plots about bootleggers and Prohibition abounded, but there were also serious musicals, including Kern and Hammerstein's masterpiece *Show Boat*. In *The Complete Book of 1920s Broadway Musicals*, Dan Dietz examines in detail every book musical that opened on Broadway during the years 1920-1929. The book discusses the era's major successes as well as its forgotten failures. The hits include *A Connecticut Yankee*; *Hit the Deck!*; *No, No, Nanette*; *Rose-Marie*; *Show Boat*; *The Student Prince*; *The Vagabond King*; and *Whoopie*, as well as ambitious failures, including *Deep River*; *Rainbow*; and Rodgers' daring *Chee-Chee*. songs Production data, including information about tryouts Source material Details about London productions Besides separate entries for each production, the book offers numerous appendixes, including ones which cover other shows produced during the decade (revues, plays with music, miscellaneous musical presentations, and a selected list of pre-Broadway closings). Other appendixes include a discography, filmography, a list of published scripts, and a list of black-themed musicals. This book contains a wealth of information and provides a comprehensive view of each show. The Complete Book of 1920s Broadway Musicals will be of use to scholars, historians, and casual fans of one of the greatest decades in the history of musical theatre.

Linear Algebra and Differential Equations has been written for a one-semester combined linear algebra and differential equations course, yet it contains enough material for a two-term sequence in linear algebra and differential equations. By introducing matrices, determinants, and vector spaces early in the course, the authors are able to fully develop the connections between linear algebra and differential equations. The book is flexible enough to be easily adapted to fit most syllabi, including separate courses that cover linear algebra in the first followed by differential equations in the second. Technology is fully integrated where appropriate, and the text offers fresh and relevant applications to motivate student interest.

acclaimed PBS series *Eyes on the Prize*, and Steve Fayer, series writer, draw upon nearly one thousand interviews with civil rights activists, politicians, reporters, Justice Department officials, and hundreds of ordinary people who took part in the struggle, weaving a fascinating narrative of the civil rights movement told by the people who lived it. Join brave and terrified youngsters walking through a jeering mob and up the steps of Central High School in Little Rock. Listen to the vivid voices of the ordinary people who manned the barricades, the laborers, the students, the housewives without whom there would have been no civil rights movements at all. This remarkable oral history brings to life country's great struggle for civil rights as no conventional narrative can. You will hear the voices of those who defied the blackjacks, who went to jail, who witnessed and policed the movement; of those who stood for and against it—voices from the heart of America.

July 15, 1997, Gianni Versace was shot and killed on the steps of his Miami Beach mansion by serial killer Andrew Cunanan. But months before Versace's murder, award-winning journalist Maureen Orth was already investigating a major story on Cunanan for Vanity Fair. Culled from interviews with more than four hundred people and insights gleaned from thousands of pages of police reports, *Vulgar Favors* tells the complete story of Andrew Cunanan, his unwitting victims, and the moneyed world in which they lived . . . and died. Orth reveals how Cunanan met Versace, and why police and the FBI repeatedly failed to catch him. Here is a gripping odyssey that races across America—from California's wealthy gay underworld to modest Midwestern homes of families mourning the loss of their sons to South Beach and its unapologetic decadence. *Vulgar Favors* is at once a masterwork of investigative journalism and a riveting account of a sociopath, his crimes, and the mysteries he left along the way. Connecting the study of cognition to everyday life in an unprecedented way, E. Bruce Goldstein's *COGNITIVE PSYCHOLOGY: CONNECTING MIND, RESEARCH, AND EVERYDAY EXPERIENCE* gives equal treatment to both the landmark studies and the cutting-edge research that define this fascinating field. The text employs a wealth of concrete examples and illustrations that help students understand the theories of cognition--driving home both the scientific importance of the theories and their relevance to students' daily lives. Goldstein's accessible narrative style blends with an art program that makes difficult concepts understandable. Students gain a true understanding of the behind the scenes activity that happens in the mind when humans do such seemingly simple activities as perceive, remember, or think. Goldstein's also focuses on the behavioral and physiological approaches to cognition by including physiological materials in every chapter. As is typical of his work, this is a major revision that reflects the most current aspects of the field. Important Notice: Media content referenced within the product description or the

The buying, selling, and writing of books is a colossal industry in which marketing looms large, yet there are very few books which deal with book marketing (how-to texts excepted) and fewer still on book consumption. This innovative text not only rectifies this, but also argues that far from being detached, the book business in fact epitomises today's Entertainment Economy (fast moving, hit driven, intense competition, rapid technological change, etc.). Written by an impressive roster of renowned marketing authorities, many with experience of the book trade and all gifted writers in their own right, Consuming Books steps back from the practicalities of book marketing and takes a look at the industry from a broader consumer research perspective. Consisting of sixteen chapters, divided into four loose sections, this key text covers: * a historical overview * the often acrimonious marketing/literature interface * the consumers of books (from book groups to

bookcrossing) * a consideration of the tensions that both literary types and marketers feel. With something for everyone, Consuming Books not only complements the 'how-to' genre but provides the depth that previous studies of book consumption conspicuously lack.

"Clarifies why understanding Mark Twain's writing is essential to understanding enduring patterns and problems in American culture. Conversely, it compellingly illustrates why one does not fully understand Mark Twain's work unless one has some understanding of America's preoccupation with performance, conspicuous display, and the mental sciences."--Howard Horwitz, author of "By the Law of Nature: Form and Value in Nineteenth-Century America" "In place of the strictly literary frame of reference that has previously organized the Twain canon, Knoper productively focuses on the spectrum of theatrical attitudes whereby Twain reconfigured his culture's race and gender hierarchies into the power to construct social realities differently. This work is sure to play a significant role in the reinvention of Mark Twain for the New American Studies."--Donald E. Pease, editor of "Revisionary Interventions into the Americanist Canon" "Knoper takes up quintessential aspects of Twain's writings, mind, and career. . . . [He] is brilliant in enunciating clearly and coherently ideas and attitudes that Twain either held confusedly or intimated almost unintentionally."--Louis J. Budd, author of "Our Mark
