The #1 bestselling pioneer of "fratire" and a leading evolutionary psychologist team up to create the dating book for guys. Whether they conducted their research in life or in the lab, experts Tucker Max and Dr. Geoffrey Miller have spent the last 20+ years learning what women really want from their men, why they want it, and how men can deliver those qualities. The short answer: become the best version of yourself possible, then show it off. It sounds simple, but it's not. If it were, Tinder would just be the stuff you use to start a fire. Becoming your best self requires honesty, self-awareness, hard work and a little help. Through their website and podcasts, Max and Miller have already helped over one million guys take their first steps toward Ms. Right. They have collected all of their findings in *Mate*, an evidence-driven, seriously funny playbook that will teach you to become a more sexually attractive and romantically successful man, the right way: No "seduction techniques," No moralizing, No bullshit. Just honest, straightforward talk about the most ethical, effective way to pursue the win-win relationships you want with the women who are best for you. Much of what they've discovered will surprise you, some of it will not, but all of it is important and often misunderstood. So listen up, and stop being stupid!

This book discusses organizational values and their implications for perceived attractiveness and effectiveness of the workplace through cross-cultural research in India and Sweden. The authors provide information on how organizational values are conceptualized, presented and perceived by manager-level employees through cases from manufacturing, information technology (IT), healthcare, and education sectors in a developing and fast-growing economy like India versus a developed and stabilized economy like Sweden. Comparative results from these two very different countries provide knowledge that can be applied to make the workplace attractive in the context of globalized business processes. The authors present corporate social responsibility (CSR) and equal opportunities for men and women in the organization (EO) as important values in making the workplace attractive, where attractiveness is conceived in terms of organizational commitment and employees' intention to leave. The two selected values are particularly important as India is the first country in the world to come up with a mandatory CSR law, whereas Sweden has a long history of CSR and EO. The book demonstrates how work organizations in both countries are promoting these values to meet the challenges of attraction and retention of employees. The findings in this book are based on data gathered from various sources and sample groups in India and Sweden. The book generates insight and valuable information for researchers of organizational psychology, human resource management, cross-cultural management, as well as for work managers and HR professionals.

Are you in a relationship that doesn't allow you to be who you really are? Do you find yourself justifying why you should stay in a relationship - in spite of your inner truth telling you the situation isn't in your best interest, or, that it's perhaps toxic? Are you still trying to define what a healthy relationship looks like for you, so you continue to boomerang back to the "same relationship with a different face"? Then you may be in THE ATTRACTIVE TRAP(tm).

Seduction Simplified: Uncomplicates the complicated Seduction Simplified: Full Version was read and recommended by Tai Lopez, the second largest reading club in the world, on the 3 of October 2017. If your typical Saturday night are those where you stand around in the bar with the glass at chest height watching others having fun while you feel miserable then this is the right book for you. Most books or seduction guides will try to give you advice on what to do or say to women. They will tell you which techniques are best for you to get not only her, but any woman and almost instantaneously. This book is not about what to say to women, but focuses on creating a more attractive personality. It will not be instantaneous, it will take time, you'll never be able to conquer them all and many will reject you. But I can assure you one thing, it will work! The reason most books do not work is because they do not address the underlying problem, instead they promote techniques that attempt to compensate for personality deficits. They seek to cover up the problem but not solve it so your fears and insecurities are still there. It's like trying to cover the crack in the Titanic with a bandaid. No matter how many you use, it will never be enough. Those for whom these techniques will be necessary subconsciously feel they are not good enough to conquer them. Men who are most successful are those who do not see the woman above themselves. Thus the game becomes simple and natural. That is why I faithfully believe that success with women is based on the development of our personality. Self-development and being an attractive man are inseparable. If you are failing with women, you are doing something wrong. This book explores how to build an attractive personality through personal development. It offers a new perspective that puts individual growth as the key to enjoying a full social life and being successful with women. It also helps open the door to unknown depths of ourselves. It is an invitation to discover our own assets and be honest with ourselves in order to meet and relate with women. This work describes in detail introspective mechanisms that will allow us to explore and look into our own attractiveness in a new light. Seduction Simplified is not another pick up artist or dating book to meet girls. Seduction Simplified will help you to build an attractive personality through personal development to attract women. This book is easily accessible and uncomplicates the complicated. The book will help you to: - Assume a different attitude towards women- Develop your identity- Discover what attracts women- Improve your self-esteem- Be confident- Learn the difference between generating attraction in women and seeking their approval- Improve your emotional and social intelligence- Overcome shyness- Develop an attractive personality based on your interests- Deepen your relationships and network effectively- Understand the meaning of happiness and how it can affect our attractiveness This book Also take you into five different romantic stories from my travel around the world. If you want to learn how to be attractive, and the secret to attractiveness, then this book is for you! We are taught not to judge a book by its cover. Try as we might to live by those words, however, the fact is that we can't help but do just that - judge others by how they look, that is. Personal experience has taught us that others judge us by how we look, after all. And while some of us are born with model-good looks, the sad fact is that not all of us are so genetically gifted. Fortunately, science, as well as anecdotal evidence, shows that there is far more to attractiveness than mere looks - which is great news for all of us. This book will cover in detail what science has to say about physical attractiveness to better understand how the human mind and physiology work. Also in this book I'll divulge some fool-proof tips and tricks that have been proven to tip the scales in someone's favor - someone who's not a cover model, that is.

## **Models**

The authors in this book ask us to consider whether the perception of beauty has been defined by our genetics and culture over the years - has it grown and changed? Do certain neural connections define our emotional reactions to beauty? Does beauty follow any rules or laws? Can the aspiration toward beauty be detrimental? Can we divorce ourselves from dictates and sink into a mindful connection with our internal beauty? Can we move from the superficial where "beauty is only skin deep" to an intense appreciation of beauty in all of its variations. The Perception of Beauty will lead to a deeper understanding and contemplation of nature, art, and the world around us.

As Tsh Oxenreider, author of *Notes From a Blue Bike*, chronicles her family's adventure around the world—seeing, smelling, and tasting the widely varying cultures along the way—she discovers what it truly means to be at home. The wide world is

calling. Americans Tsh and Kyle met and married in Kosovo. They lived as expats for most of a decade. They've been back in the States—now with three kids under ten—for four years, and while home is nice, they are filled with wanderlust and long to answer the call. Why not? The kids are all old enough to carry their own backpacks but still young enough to be uprooted, so a trip—a nine-months-long trip—is planned. *At Home in the World* follows their journey from China to New Zealand, Ethiopia to England, and more. They traverse bumpy roads, stand in awe before a waterfall that feels like the edge of the earth, and chase each other through three-foot-wide passageways in Venice. And all the while Tsh grapples with the concept of home, as she learns what it means to be lost—yet at home—in the world. “In this candid, funny, thought-provoking account, Tsh shows that it’s possible to combine a love for adventure with a love for home.” —Gretchen Rubin, New York Times bestselling author of *The Happiness Project* and *Better Than Before*
