Frontiers | Multisystem Inflammatory Syndrome in Children

1. Negation and opposition in natural language 1.1 Introduction. Negation is a sine qua non of every human language, yet is absent from otherwise complex systems of animal communication. [] While animal “languages” are essentially analog systems, it is the digital nature of the natural language negative operator, represented in Stoic and Fregean propositional logic as a one-place

Chiropractic Definition Chiropractic is from Greek words meaning done by hand. It is grounded in the principle that the body can heal itself when the skeletal system is correctly aligned and the nervous system is functioning properly. To achieve this, the practitioner uses his or her hands or an adjusting tool to perform specific manipulations of the

Le Roux and Others v Dey (CCT 45/10) [2011] ZACC 4; 2011

Strategic analysis for health care organizations: the

MIS-C is a newly defined post-viral myocarditis and inflammatory vasculopathy of children following COVID-19 infection. This review summarizes the literature on diagnosis, parameters of disease severity, and current treatment regimens. The clinical perspective was analyzed in light of potential immunopathogenesis and compared to other post-infectious and inflammatory illnesses of children

Negation (Stanford Encyclopedia of Philosophy)

Main Text. Vaccination is one of the most effective public health interventions to prevent and control infectious diseases. Since the first known clinical trial conducted with cowpox in 1796, 1 vaccines have resulted in the eradication of many infectious diseases, and today ~30 diseases worldwide can be prevented by vaccination.^{2, 3} Over the last two centuries, vaccinology has evolved from

Gordhan v PP - 7 December 2020 - Final 2020-12-07

The history of chiropractic began in 1895 when Daniel David Palmer of Iowa performed the first chiropractic adjustment on a partially deaf janitor, Harvey Lillard. While Lillard was working without his shirt on in Palmer's office, Lillard bent over to empty the trash can. Palmer noticed that Lillard had a vertebra out of position.

Chiropractic - Wikipedia

Chiropractic is a pseudoscientific complementary and alternative medicine (CAM) that is concerned with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. Chiropractors, especially those in the field's early history, have proposed that such disorders affect general health via the nervous system. The main chiropractic treatment technique

Sleep and the athlete: narrative review and 2021 expert

Elite athletes are particularly susceptible to sleep inadequacies, characterised by habitual short sleep (<7 hours/night) and poor sleep quality (eg, sleep fragmentation). Athletic performance is reduced by a night or more without sleep, but the influence on performance of partial sleep restriction over 1–3 nights, a more real-world scenario, remains unclear. Studies
