Illiana and Marym Porsia have been hunted all their lives. On the run from a malevolent cultic order known as the Arcani, the sisters stay hidden in a traveling merchant caravan never remaining in one place for very long. Hope of secrecy disappears, however, once Thessyls is invaded by creatures out of legend, led by invincible demons known as the Nightmare. Caught amidst warring armies, they must find a way to survive even as they are hunted by old enemies. As empires crumble and faith falters a glimmer of hope is sparked when Illiana inexplicably fights off and defeats one of the demon Nightmare. That hope comes with a cost, for the darkness that was the Nightmare clings to Illiana, threatening to consume her. Drawn into a world of enigmatic secret societies and powerful nations that seek to use Illiana as a weapon against Vaelceri, they must grapple not only with a world intent on exploiting them, but with their own mysterious past. In the end, it may be those they have placed their faith in who are the most

dangerous threat of all. This is the first book in the epic fantasy series, Sorrow's Rest.

Getting Saved in America

Is your spiritual path a road to hell paved with good? Most spiritual books offer advice. "The Anti-Wisdom Manual" takes a different approach by describing what behaviours block the spiritual path. With wry compassion, this is a spiritual handbook in reverse, alerting readers to the common traps many sincere seekers fall in to. Whatever their chosen way, Christian, Buddhist, Muslim, or Jewish, the manual highlights how sincere seekers: nip awareness in the bud; use emotions to stay stuck; use the mind to stay entertained; antagonise friends and family with spiritual savvy; become deaf through well-rehearsed spiritual rhetoric; undermine relationships with spiritual mentors; make enormous mountains out of insignificant molehills. The humour never overshadows the message, but like a true magnifying glass, clarifies confusion, false beliefs and pseudo-spiritual certainties; and deals a severe blow to spiritual righteousness and ideology.

101 Facts Steve Jobs: 101 Facts about Steve Jobs You Probably Never Knew

IN 1945, FORTUNE MAGAZINE named Betty Crocker the second most popular American woman, right behind Eleanor Roosevelt, and dubbed Betty America's First Lady of Food. Not bad for a gal who never actually existed. "Born" in 1921 in Minneapolis, Minnesota, to proud corporate parents, Betty Crocker has grown, over eight decades, into one of the most successful branding campaigns the world has ever known. Now, at long last, she has her own biography. Finding Betty Crocker draws on six years of research plus an unprecedented look into the General Mills archives to reveal how a fictitious spokesperson was enthusiastically welcomed into kitchens and shopping carts across the nation. The Washburn Crosby Company (one of the forerunners to General Mills) chose the cheery all-American "Betty" as a first name and paired it with Crocker, after William Crocker, a well-loved company director. Betty was to be the newest member of the Home Service Department, where she would be a "friend" to consumers in search of advice on baking -- and, in an unexpected twist, their personal lives. Soon Betty Crocker had her own national radio show, which, during the Great Depression and World War II, broadcast money-saving recipes, rationing tips, and messages of hope. Over 700,000 women joined Betty's wartime Home Legion program, while more than one million women -- and men -- registered for the Betty Crocker Cooking School of the Air during its twenty-seven-year run. At the height of Betty Crocker's popularity in the 1940s,

she received as many as four to five thousand letters daily, care of General Mills. When her first full-scale cookbook, Betty Crocker's Picture Cook Book, or "Big Red," as it is affectionately known, was released in 1950, first-year sales rivaled those of the Bible. Today, over two hundred products bear her name, along with thousands of recipe booklets and cookbooks, an interactive website, and a newspaper column. What is it about Betty? In answering the question of why everyone was buying what she was selling, author Susan Marks offers an entertaining, charming, and utterly unique look -- through words and images -- at an American icon situated between profound symbolism and classic kitchen kitsch.

One of the major challenges for modern organizations

is the management of individual and collective knowledge, which is at the root of specific practices designed to optimize knowledge acquisition, maintenance and application. There are, however, still a disproportionately low number of studies focused on the structure and nature of knowledge. This book tackles the subject of daily knowledge: the knowledge related to everyday tasks. How does this knowledge present itself in the mind? How do we acquire and preserve it? To answer these questions, the authors explore a number of techniques which help to keep track of information produced in collaborative activity and extract knowledge by aggregating these traces.

Return to Black Falls in the second thrilling novel of this classic romantic suspense series by New York Times bestselling author Carla Neggers. Hannah Shay has finally shown the town of Black Falls what she's worth. Her Three Sisters Cafe is a success, and she's soon to become a prosecutor. When the cafe becomes an epicenter for investigators trying to pierce a violent crime ring that's leaving bloody trails on nearby Cameron Mountain, Hannah suspects a man from her past is involved. Sean Cameron returns to the snowy cold of his Vermont hometown to unmask his father's killer. Sean has the skills and resources to mount his own search, but he must convince the resistant Hannah to cooperate—because the killer is ready to strike again...and closer than anyone ever imagined. What does becoming American have to do with becoming religious? Many immigrants become more religious after coming to the United States. Taiwanese are no different. Like many Asian immigrants to the United States, Taiwanese frequently convert to Christianity after immigrating. But Americanization is more than simply a process of Christianization. Most Taiwanese American Buddhists also say they converted only after arriving in the United States even though Buddhism is a part of Taiwan's dominant religion. By examining the experiences of Christian and Buddhist Taiwanese Americans, *Getting Saved in America* tells "a story of how people become religious by becoming American, and how people become American by becoming religious." Carolyn Chen argues that many Taiwanese immigrants deal with the challenges of becoming American by becoming religious. Based on in-depth interviews with Taiwanese American Christians and Buddhists, and extensive ethnographic fieldwork at a Taiwanese Buddhist temple and a Taiwanese Christian church in Southern California, *Getting Saved in America* is the first book to compare how two religions influence the experiences of one immigrant group. By showing how religion transforms many immigrants into Americans, it sheds new light on the question of how immigrants become American.

Sam Is Born

"I don't master the mountain, I master speed."

Coming from Bode Miller, this isn't boasting, it's just the way he lives: fast, honest, and wide open. In this candid book, the two-time Olympic medalist and champion skier shares his story, the secret of his success, and his philosophy of life. Born and raised "off the grid"—without electricity or indoor plumbing—in the cabin built by his father in the woods near Franconia, New Hampshire (pop. 850), Bode is unconventional to the core. The strong values of his simple upbringing, where he and his family had to "invent, grow, or carry in" all the essentials have made Bode unique among today's top sports stars. Bode's approach to life is straightforward: "Get a plan, stick to it, and trust your instincts . . . and almost anything is possible." And practically since birth, the iconoclastic Bode has been achieving the impossible and laying down tracks for others to follow. He revolutionized his sport by adopting new and crossover technologies, such as "shape" skis. He drives his tradition-bound European rivals to distraction, skiing and winning by instinct. His outsider status, killer smile, and outspoken yet laid-back persona have earned him a reputation as the Michael Jordan of skiing. Men's Journal named Bode the second greatest athlete in the world. And in the 2005 season, Bode may have moved up a notch by

becoming the first American to win the Overall World Cup Alpine championship in twenty-two years. In short, he is the kind of person everybody wants to know and hang out with. In a book loaded with insight, good humor, and eye-opening stories about the world of competitive skiing, Bode, as always, holds nothing back.

Death of a Paladin

What happened at 10 Rillington Place was so shocking and gruesome that even today everyone over a certain age still remembers the case with a shudder. In 1950, Timothy Evans was hanged for the violent murder of his baby daughter; he was also assumed to have murdered his wife. Then, less than three years later, another tenant, John Christie, was found to have killed at least six women, hiding their bodies in the garden, under floorboards and in a concealed kitchen alcove. Christie followed Evans to the gallows. It seemed unlikely that two murderers were living at 10 Rillington Place, and the evidence that emerged in the Christie case eventually led to Evans receiving a pardon. But there was also circumstantial evidence that Evans had indeed killed his wife and child. Crime student Edna Gammon firmly

believes that Evans was guilty. In *A House To Remember*, she explains why.

Keeping teachers up to date on recent developments in Latin scholarship. Catullus, Horace, Ovid, Cicero, and Vergil are the official Advanced Placement Program Latin authors as well as standard reading for college and advanced secondary students of Latin. This book provides accessible information about recent scholarship on these authors to show how an awareness of current academic debates can enhance the teaching of their work. This is the first book aimed specifically at keeping teachers up to date on recent developments in Latin scholarship. Edited by Ronnie Ancona, a classics scholar with expertise in pedagogy, it features contributions by established authorities on each of the five Latin authors. Each essay combines theoretical material with Latin passages so that instructors can see how practically to apply these methods to specific texts. These contributions reveal many and varied ways to approach the reading and study of Latin texts while conveying the excitement of recent scholarship. A practical sourcebook for busy teachers who wish to keep abreast of current critical thought, *A Concise Guide to Teaching Latin Literature* contributes to the ongoing conversation between pedagogy and scholarship as it shows ways to broaden students' appreciation of these timeless classics.

The Unquenchable Worshipper issues a passionate call for a return to an unadulterated, first-love lifestyle of worship. In his first book release, respected worship leader and songwriter Matt Redman writes: "The revelation of God is the fuel for the fire of our worship. And there is always more fuel for the fire. When we open the eyes of our heart, God's revelation comes flying at us from so many different angles." Open the eyes of your heart and let the gut-level message of The Unquenchable Worshipper cause you, like martyred missionary Jim Elliot, to say, "Saturate me with the oil of Thy Spirit, that I may be aflame. Make me Thy fuel O flame of God." It's time to dive into the heart of worship—will you take the plunge?

Do statewide assessments really do what they are supposed to do? Through interviews with over three hundred teachers and administrators, Hillocks examines whether state writing tests in Illinois, Kentucky, Oregon, New York, and Texas actually improve students' ability to express their thinking in writing. Ultimately, Hillocks argues that the majority of existing tests actually have a harmful effect on the way students are taught to write. In addition to providing analyses of assessments that do not encourage good writing, *The Testing Trap* contrasts them to those that do. Concluding with practical

procedures for examining and evaluating writing assessments, this book is a provocative and essential read for administrators, teachers, policymakers, parents, and all who care about the education of our children.

The Unquenchable Worshipper

The possibilities are staggering: Had you invested \$10,000 in Cisco Systems in early 1990, your investment would not be worth \$1,285,000. Similarly, a \$10,000 investment made in Microsoft in 1986 would be valued at more than \$1,800,000 today. How do you get in on those deals -- especially if you're not a Silicon Valley insider? How do you buy the high-tech winners and avoid the losers? How do you find the Microsofts and Ciscos of tomorrow? The answers are here, in *The Gorilla Game*. All you have to do is learn the rules. *The Gorilla Game* reveals the dynamics driving the market for high-tech stocks and outlines the forces that catapult a select number of companies to "gorilla" status -- dominating the markets they serve in the way that Microsoft dominates software operating systems and Cisco dominates hardware for data networks. Follow the rules of *The Gorilla Game* and you will learn how to identify and invest in the "gorilla candidates" early on -- while they are fighting for dominance in their markets and while their stock is still cheap. When the dust clears and one company clearly attains leadership in its product category, you'll reap the enormous returns that foresighted investors in high-tech companies deserve. *The Gorilla Game* is the latest from bestselling author Geoffrey

A. Moore, one of the world's leading consultants in high-tech marketing strategy. Here you'll find the ground-breaking ideas about technology markets that made his previous books bestsellers, combined with the work of Paul Johnson, a top Wall Street technology analyst, and Tom Kippola, a high-tech consultant and highly successful private investor. Together they have discovered and played the gorilla game and now give their readers the real rules for winning in the world of high-tech investing. Step by step you'll learn how to spot a high-tech market that is about to undergo rapid growth and development; how to identify and spread investments across the potential gorillas within the market; and how to narrow your investments to the single, emerging leader -- the gorilla -- as the market matures.

This book presents documentation, reflection and critical analysis of two award-winning projects Monash Steps and Stawell Steps. These linked projects were designed and built by Monash Architecture students under the leadership of Hiroshi Nakao and Nigel Bertram. The works were developed in close collaboration with the town of Stawell, through partnership with local brick maker Krause bricks and civil engineers at the Northern Grampians Shire council. Monash Steps and the associated exhibition were installed at the Monash University Museum of Art in 2012, making a temporary occupiable space using dry-stacked bricks. Stawell Steps is a

permanent installation on the banks of Cato Lake in the centre of Stawell. It acts as permanent flood-relief infrastructure for the town, and provides a new type of community space within the park. The book includes specially commissioned photographic material of the works, significant historic buildings and landscapes in Stawell, and the Krause brickworks. Original drawings and conceptual material are combined with post-occupancy images and texts from a range of different viewpoints. About the authors: Nigel Bertram is a Director of NMBW Architecture Studio in Melbourne and Practice Professor of Architecture at Monash University, where his current research projects address urban housing and infrastructure for water-sensitive cities. NMBW's architectural work has been published and awarded across categories including urban design, housing, small public works, adaptive re-use of existing buildings and peripheral urban design strategies. Hiroshi Nakao is Professor of Multidisciplinary Design Science at the Shonan Institute of Technology. He studied architecture at the Kyoto Institute of Technology and art at the Tsukuba University, and works across the border between art and architecture, with solo exhibitions in Tokyo, Oslo, London and Hamburg to his credit.
