The East European Revolution

The essays selected here for translation derive largely from Thomasius's work on Staatskirchenrecht, or the political jurisprudence of church law. These works, originating as disputations, theses, and pamphlets, were direct interventions in the unresolved issue of the political role of religion in Brandenburg-Prussia, a state in which a Calvinist dynasty ruled over a largely Lutheran population and nobility as well as a significant Catholic minority. In mandating limited religious toleration within the German states, the provisions of the Peace of Westphalia (1648) also provided the rulers of Brandenburg-Prussia with a way of keeping the powerful Lutheran church in check by guaranteeing a degree of religious freedom to non-Lutherans and thereby detaching the state from the most powerful territorial church. Thomasius's writings on church-state relations, many of them critical of the civil claims made by Lutheran theologians, are a direct response to this state of affairs. At the same time, owing to the depth of intellectual resources at his disposal, these works constitute a major contribution to the broader discussion of the relation between the religious and political spheres.

A haunting and powerful portrait of a young French girl, and her desire to escape the world in which she is born, without losing her identity In the marshy, misty countryside of southwestern France, fourteen-year-old Galla rides her battered bicycle from the private Catholic high school she attends on scholarship to the rocky, barren farm where her family lives. It's a journey she makes every two weeks, forty miles round trip, traveling between opposite poles of ambition and guilt, school and home. Galla's loving, overwhelmed, incompetent mother doesn't want her to go to school; she wants her to stay at home, where Galla can look after her neglected little sisters, defuse her father's brutal rages, and help with the chores. What does this dutiful daughter owe her family, and what does she owe herself? In Inès Cagnati's haunting, emotionally and visually powerful novel *Free Day*, which won France's Prix Roger Nimier in 1973, Galla makes an extra journey on a frigid winter Saturday to surprise her mother. As she anticipates their reunion, stopping often to pry caked, gelid mud off her bicycle wheels, she mentally retraces the crooked path of her family's past and the more recent map of her school life as a poor but proud student. Galla's rich, dense interior monologue blends with the landscape around her, building a powerful portrait of a girl who yearns to liberate herself from the circumstances that confine her, without losing

their ties to her heart.

In *Drawing and Painting in the Italian Renaissance Workshop*, Carmen Bambach reassesses the role of artists and their assistants in the creation of monumental painting. Analyzing representative wall paintings and the many drawings related to the various stages of their production, Bambach convincingly reconstructs the development of workshop practice and design theory in the early modern period. Her exhaustive analysis of archaeological and textual evidence provides a timely and much-needed reassessment of the working methods of artists in one of the most vital periods in the history of art.

The controversial New York City police commissioner and New York Times bestselling author of *The Lost Son* shares the story of his fall from grace and the

effects of his incarceration on his views of the American justice system. Bernard Kerik was New York City's police commissioner during the 9/11 attacks, and became an American hero as he led the NYPD through rescue and recovery efforts of the World Trade Center. His résumé as a public servant is long and storied, and includes receiving a Medal of Honor. In 2004, Kerik was nominated by George W. Bush to head the Department of Homeland Security. Now, he is a former Federal Prison Inmate known as #84888-054. Convicted of tax fraud and false statements in 2007, Kerik was sentenced to four years in federal prison. Now, for the first time, he talks candidly about what it was like on the inside: the torture of solitary confinement, the abuse of power, the mental and physical torment of being locked up in a cage, the powerlessness. With newfound perspective, Kerik makes a plea for change and illuminates why our punishment system doesn't always fit the crime. In this extraordinary memoir, Kerik reveals his unprecedented view of the American penal system from both sides: as the jailer and the jailed. With astonishing candor, bravery, and insider's intelligence, Bernard Kerik shares his fall from grace to incarceration, and turns it into a genuine and uniquely insightful argument for criminal justice reform.

By arrangement with the Oxford University Press, Gorgias Press is pleased to announce the publication of a deluxe limited edition of J. B. Segal's monumental

work, Edessa 'The Blessed City'. The book is printed on long-lasting, acid-neutral paper, specially milled for our press. Forty- four plates, some of which are mosaics in color, are reproduced using state-of-the-art digital imaging technology. The volume is bound in a prestigious verona cloth that combines luxurious feel and deep, rich colors with unparalleled quality and consistency. The end sheets are 80# colored sheets, embossed with handsome designs. All the material used is environmentally sound and conforms to international standards. The hard cover is embossed in gold with a design derived from mosaics found at Edessa, and produced in color in this deluxe limited edition. Edessa (the modern Urfa in south-east Turkey) was celebrated throughout Christendom for the legend of the exchange of letters between its pagan king and Jesus at Jerusalem. It was venerated as the first kingdom to accept Christianity; it was the center of the Syrian Church, the intended destination of innumerable pilgrims from East and West, and the birthplace of classical Syriac literature. The story of its Christian community, administered in turn by Rome, Byzantium, Arabs, and Turks, reflects the vicissitudes of Mesopotamian history and culminates in the occupation of the city by Crusader counts and its devastation in 1146. This study describes events at Edessa largely through contemporary accounts, and incorporates much new material, notably six mosaics found by the writer between 1952 and 1959.

Modern Japanese Novels and the West

One of literature's greatest satirists, Martial earned his livelihood by excoriating

the follies and vices of Roman society and its emperors, and set a pattern that satirists have admired across the ages. For the first time, readers can enjoy an English translation of these rhymes that does not sacrifice the cleverly constructed effects of Martial's short and shapely thrusts. Martial's Epigrams "bespeaks a great scholar at play" (The New York Times Book Review), makes for addictive reading, and is a perfect, if naughty, gift.

The Magic of Michael Jackson

Long recognized as a classic, Venturi's authoritative work captures the early and intriguing period of the Russian Revolution. Starting with the 1848 rebellion and ending with the 1888 assassination of Alexander II, it examines Russia's internal and external problems, the ideals and beliefs of her subjects, and, most importantly, the conspiracies and struggles through which populism expressed itself. With a revised author's introduction. "The most thorough survey of the Russian revolutionary movement before 1881 penetrating and readable, with an admirable balance between biography, theory and action."--TLS. "profound and wide-ranging"--C.V. Wedgwood.

Brunetto Latini, La Rettorica

This new edition features the Greek text reconstructed from Photius' Epitome and Suidas' Lexicon with critical apparatus, English translation, commentary, and a full historical introduction; there are three appendices, a bibliography, indices, and tables of concordance between the present edition and Zintzen's (*Vitae Isidori Reliquiae*.) Written in the early sixth century by the head of the Platonic Academy in Athens, this work tells the story of the pagan community from the late fourth century AD. The critical landmarks of this 'anti-ecclesiastical' history are the destruction of the Serapeion in 391 and the persecution of the pagan intelligentsia of Alexandria in 488/9. (*The Philisophical History*) also establishes a sacred geography of paganism, comprising not merely intellectual centres like Athens, Alexandria and Aphrodisias but sacred sites in the countryside of the Greater Eastern Mediterranean as well. Offering a panorama of the spiritual life of late antiquity from a pagan perspective, the book puts on stage orthodox and heretical exegetes of Hellenism - rhetors, philosophers, iatrosophists, poets, politicians and holy men and women. The linguistic, historical and philisophical commentary on the reconstructed text allows the solution of several prospographical enigmas, while providing at the same time fresh comparative evidence for the study of the period's historiographical methodology. Greek text, critical apparatus, English translation, commentary, historical introduction, appendices, bibliography, indices, and tables of concordance between the present edition and Zinten's
