Color Theory for the Make-up Artist: Understanding Color and Light for Beauty and Special Effects analyzes and explains traditional color theory for fine artists and applies it to the make-up artist. This book is suitable for both professionals and beginners who wish to train their eye further to understand and recognize distinctions in color. It explains why we see color, how to categorize and identify color, relationships between colors, and it relates these concepts to beauty and special effects make-up. The book teaches the reader how to mix flesh tones by using only primary colors, and explains how these colors in paints and make-up are sourced and created. It also discusses the reason for variations in skin colors and undertones, and how to identify and match these using make-up, while choosing flattering colors for the eyes, lips, and cheeks. Colors found inside the body are explained for special effects make-up, like why we bruise, bleed, or appear sick. Ideas and techniques are also described for painting prosthetics, in addition to using color as inspiration in make-up designs. The book also discusses how lighting affects color on film, television, theater, and photography sets, and how to properly light a workspace for successful applications.

Celebrity make-up artist Gary Cockerill is best known for his glamorous, sultry make-up style. Much in demand for his ability to make women look and feel fabulous, he regularly travels the world to get clients ready for red-carpet events, photoshoots and television appearances. In *Simply Glamorous*, Gary proves that with a little knowledge and practice, everyone can use make-up to enhance or disguise so they feel confident in their appearance. He begins by demonstrating what he loves most about make-up: its ability to transform. By applying four different looks to one face, he shows how the same 'blank canvas' can be natural, sophisticated, glamorous or dramatic. He then presents 15 breathtaking makeovers on women of all ages, explaining step by step how to re-create the looks. Divided into 'Face', 'Eyes' and 'Lips', the transformations range from nude and natural - 'Barely There', 'Sun-kissed Goddess' and 'Girl Next Door' - to high octane glamour - 'Showgirl', 'Bombshell' and 'Glamour Puss'. They illustrate every aspect of make-up, from contouring, to false eyelashes, to wearing colour, and include the iconic looks that Gary is always asked to create - the smoky eye, the fifties flick and the red lip. 'Tutorials' address key topics in greater detail, such as skincare, foundation, contouring and application techniques for eyes and lips. As a self-taught make-up artist, Gary works instinctively with amazing results. His approach is creative and painterly, and his teaching style is friendly and down-to-earth as he shows how glamorous make-up can be accessible to everyone. He may

The Surprising Story of Hedy Lamarr, "The Most Beautiful Girl in the World" As a teenage actress in 1920s Austria, performing on the stage and in film in light comedies and musicals, Hedy Kiesler, with her exotic beauty, was heralded across Europe by her mentor, Max Reinhardt. However, it was her nude scene, and surprising dramatic ability, in *Ecstasy* that made her a star. *Ecstasy's* notoriety followed her for the rest of her life. She married one of Austria's most successful and wealthy munitions barons, giving up her career for what seemed at first a fairy-tale existence. Instead, as war clouds loomed in the mid-1930s, Hedy discovered that she was trapped in a loveless marriage to a controlling, ruthless man who befriended Mussolini, sold armaments to Hitler, yet hid his own Jewish heritage to become an "honorary Aryan." She fled her husband and escaped to Hollywood, where M-G-M changed her name to Hedy Lamarr and she became one of film's most glamorous stars. She worked with such renowned directors as King Vidor, Victor Fleming, and Cecil B. DeMille, and appeared opposite such respected actors as Clark Gable, Spencer Tracy, John Garfield, and James Stewart. But as her career waned, her personal problems and legal wranglings cast lingering shadows over her former image. It wasn't until decades later that the world was stunned to learn

of her unexpected role as the inventor of a technology that has become an essential part of everything from military weaponry to cell phones—proof that Hedy Lamarr was far more than merely Delilah to Victor Mature's Samson. She demonstrated a creativity and an intelligence she had always possessed. Stephen Michael Shearer's in-depth and meticulously researched biography, written with the cooperation of Hedy's children, intimate friends, and colleagues, separates the truths from the rumors, the facts from the fables, about Hedy Lamarr, to reveal the life and character of one of classic Hollywood's most beautiful and remarkable women.

Dr. Perricone's 7 Secrets to Beauty, Health, and Longevity

This book explores the use and development of man's symbolizing capacities—those qualities that make him distinctly human. Dr. Whitmont describes the symbolic approach to a dream, which takes into account a symptom's meaning in reference to an unfolding wholeness of personality. He then presents the view that the instinctual urge for meaning is served by the symbolizing capacities, and that this urge has been repressed in our time. In the field of psychology, this symbolic approach is most fully exemplified by the theories of C. G. Jung. The author's contribution includes many differentiations and speculations, especially concerning the problems of relatedness.
