The book is intended to provide a definitive view of the field of humor research for both beginning and established scholars in a variety of fields who are developing an interest in humor and need to familiarize themselves with the available body of knowledge. Each chapter of the book is devoted to an important aspect of humor research or to a disciplinary approach to the field, and each is written by the leading expert or emerging scholar in that area. There are two primary motivations for the book. The positive one is to collect and summarize the impressive body of knowledge accumulated in humor research in and around *Humor: The International Journal of Humor Research*. The negative motivation is to prevent the embarrassment to and from the "first-timers," often established experts in their own field, who venture into humor research without any notion that there already exists a body of knowledge they need to acquire before publishing anything on the subject—unless they are in the business of reinventing the wheel and have serious doubts about its being round! The organization of the book reflects the main groups of scholars participating in the increasingly popular and high-powered humor research movement throughout the world, an 800 to 1,000-strong contingent, and growing. The chapters are organized along the same lines: History, Research Issues, Main Directions, Current Situation, Possible Future, Bibliography—and use the authors' definitive credentials not to promote an individual view, but rather to give the reader a good comprehensive and condensed view of the area.

Screens have been with us since the eighteenth century, though we became accustomed to staring at them only after the appearance of film and television in the twentieth century. But there was nothing in film or TV that prepared us for the revolution wrought by the combination of screens and the internet. Society has been transformed and this book asks how and with what consequences? Screen Society's conclusions are based on an original research project conducted by scholars in the UK and Australia. The researchers designed their own research platform and elicited the thoughts and opinions of nearly 2000 participants, to draw together insights of today's society as seen by users of smartphones, tablets and computers - what the authors call Screenagers. The book issues challenges to accepted wisdom on many of the so-called problems associated with our persistent use of screen devices, including screen addiction, trolling, gaming and gambling.

On Michael Haneke

Winner of the 2008 Katherine Singer Kovacs Book Award Prior to the civil rights movement, comedians performed for audiences that were clearly delineated by race. Black comedians performed for black audiences and white comedians performed for whites. Yet during the past forty-five years, black comics have become progressively more central to mainstream culture. In *Laughing Mad*, Bambi Haggins looks at how this transition occurred in a variety of media and shows how this integration has paved the way for black comedians and their audiences to affect each other. Historically, African American performers have been able to use comedy as a pedagogic tool, interjecting astute observations about race relations while the audience is laughing. And yet, Haggins makes the convincing argument that the potential of African American comedy remains fundamentally unfulfilled as the performance of blackness continues to be made culturally digestible for mass consumption. Rather than presenting biographies of individual performers, Haggins focuses on the ways in which the comic persona is constructed and changes across media, from stand-up, to the small screen, to film. She examines the comic televisual and cinematic personae of Dick Gregory, Bill Cosby, Flip Wilson, and Richard Pryor and considers how these figures set the

stage for black comedy in the next four decades. She reads Eddie Murphy and Chris Rock as emblematic of the first and second waves of post-civil rights era African American comedy, and she looks at the socio-cultural politics of Whoopi Goldberg's comic persona through the lens of gender and crossover. *Laughing Mad* also explores how the comedy of Dave Chappelle speaks to and for the post-soul generation. A rigorous analytic analysis, this book interrogates notions of identity, within both the African American community and mainstream popular culture. Written in engaging and accessible prose, it is also a book that will travel from the seminar room, to the barbershop, to the kitchen table, allowing readers to experience the sketches, stand-up, and film comedies with all the laughter they deserve.

A companion to contemporary German crime fiction for English-speaking audiences is overdue. Starting with the earlier Swiss "classics" Glauser and Dürrenmatt and including a number of important Austrian authors, such as Wolf Haas and Heinrich Steinfest, this volume will cover the essential writers, genres, and themes of crime fiction written in German. Where necessary and appropriate, crime fiction in media other than writing (TV-series, movies) will be included. Contemporary social and political developments, such as gender issues, life in a multicultural society, and the afterlife of German fascism today, play a crucial role in much of recent German crime fiction. A number of contributions to this volume will comment on the literary reflection of these issues in the texts. The goal of the volume is to make available to English-speaking audiences, to students, teachers and to a wider circle of interested readers, a series of articles on genres, topics, authors, and texts that will help them understand the scope and depth of German crime fiction, its ties to international traditions and also the specificity of the German context, its historical development and contemporary situation.
