### The Daily Stoic

WALL STREET JOURNAL BESTSELLER Every year upon arriving in Plobien, the small Breton town where he spends his summers, American writer Mark Greenside picks back up where he left off with his faux-pas-filled Francophile life. Mellowed and humbled, but not daunted (OK, slightly daunted), he faces imminent concerns: What does he cook for a French person? Who has the right-of-way when entering or exiting a roundabout? Where does he pay for a parking ticket? And most dauntingly of all, when can he touch the tomatoes? Despite the two decades that have passed since Greenside's snap decision to buy a house in Brittany and begin a bi-continental life, the quirks of French living still manage to confound him. Continuing the journey begun in his 2009 memoir about beginning life in France, (Not Quite) Mastering the Art of French Living details Greenside's daily adventures in his adopted French home, where the simplest tasks are never straightforward but always end in a great story. Through some hits and lots of misses, he learns the rules of engagement, how he gets what he needs—which is not necessarily what he thinks he wants—and how to be grateful and thankful when (especially when) he fails, which is more often than he can believe. Introducing the English-speaking world to the region of Brittany in the tradition of Peter Mayle's homage to Provence, Mark Greenside's first book, I'll Never Be French, continues to be among the bestselling books about the region today. Experienced Francophiles and armchair travelers alike will delight in this new chapter exploring the practical and philosophical questions of French life, vividly brought to life by Greenside's humor and affection for his community.

## **Go Forward**

Across centuries, the Islamic Middle East hosted large populations of Christians and Jews in addition to Muslims. Today, this diversity is mostly absent. In this book, Heather J. Sharkey examines the history that Muslims, Christians, and Jews once shared against the shifting backdrop of state policies. Focusing on the Ottoman Middle East before World War I, Sharkey offers a vivid and lively analysis of everyday social contacts, dress, music, food, bathing, and more, as they brought people together or pushed them apart. Historically, Islamic traditions of statecraft and law, which the Ottoman Empire maintained and adapted, treated Christians and Jews as protected subordinates to Muslims while prescribing limits to social mixing. Sharkey shows how, amid the pivotal changes of the modern era, efforts to simultaneously preserve and dismantle these hierarchies heightened tensions along religious lines and set the stage for the twentieth-century Middle East.

### **Language and Community in Early England**

The Malankara Mar Thoma Syrian Church exists as a hybrid church by blending the Eastern liturgical elements of the Oriental Orthodox Church and the evangelical ideas of the Protestant Reformation of the sixteenth century. This Church is a bridging church, connecting Protestantism and Oriental Orthodoxy. The reformation in the Malankara Church (1836) instigated a new impetus for this church in constructing an ecclesial identity and pattern of mission. A major missiological imperative employed by CMS missionaries in India was solely centered on the scripture. Against this popular understanding, the Mar Thoma Church, through its reformation process showed that liturgy can also be an imperative for mission. The translation and revision of the Eucharistic liturgy is the basic visible expression of reformation in the Malankara Church. Hence, this book explicitly places how the Eucharistic liturgy of the Mar Thoma Church is observed as the foundation for mission in its course of growth. In order to accomplish this objective, the writer has examined the historical evolution and

the developmental process of the Eucharistic liturgy of the church, which is a revised version of the liturgy of St. James. In a nutshell, this study is an appraisal of various missiological themes reflected in the Eucharistic liturgy of the church. This study throws ample light on how the Mar Thoma Church integrated liturgy and evangelism in its course of development. The writer systematically illustrates how the church made a serious effort to bring missional themes employed in the liturgy into the practical realm by its ancillary organizations, convention gatherings, and sociocharitable works. This volume asserts that an emphasis on Eucharist-centred ecclesiology guides and motivates the church to enliven a mission-oriented life, which is crucial for accomplishing a relevant mission.

### **Conversational Italian Dialogues: Over 100 Italian Conversations and Short Stories**

A witty, heartfelt novel that brilliantly evokes the confusions of adolescence and marks the arrival of an extraordinary young talent. Isidore Mazal is eleven years old, the youngest of six siblings living in a small French town. He doesn't quite fit in. Berenice, Aurore, and Leonard are on track to have doctorates by age twenty-four. Jeremie performs with a symphony, and Simone, older than Isidore by eighteen months, expects a great career as a novelist--she's already put Isidore to work on her biography. The only time they leave their rooms is to gather on the old, stained couch and dissect prime-time television dramas in light of Aristotle's Poetics. Isidore has never skipped a grade or written a dissertation. But he notices things the others don't, and asks questions they fear to ask. So when tragedy strikes the Mazal family, Isidore is the only one to recognize how everyone is struggling with their grief, and perhaps the only one who can help them—if he doesn't run away from home first. Isidore's unstinting empathy, combined with his simmering anger, makes for a complex character study, in which the elegiac and comedic build toward a heartbreaking conclusion. With *How to Behave in a Crowd*, Camille Bordas immerses readers in the interior life of a boy puzzled by adulthood and beginning to realize that the adults around him are just as lost.

### **Mastering the Art of French Eating**

First published in 1955, *They Thought They Were Free* is an eloquent and provocative examination of the development of fascism in Germany. Mayer's book is a study of ten Germans and their lives from 1933-45, based on interviews he conducted after the war when he lived in Germany. Mayer had a position as a research professor at the University of Frankfurt and lived in a nearby small Hessian town which he disguised with the name "Kronenberg." "These ten men were not men of distinction," Mayer noted, but they had been members of the Nazi Party; Mayer wanted to discover what had made them Nazis. "What happened here was the gradual habituation of the people, little by little, to being governed by surprise; to receiving decisions deliberated in secret; to believing that the situation was so complicated that the government had to act on information which the people could not understand, or so dangerous that, even if the people

could not understand it, it could not be released because of national security. And their sense of identification with Hitler, their trust in him, made it easier to widen this gap and reassured those who would otherwise have worried about it.”--from Chapter 13, “But Then It Was Too Late”

Now a New York Times Bestseller Paris was practically perfect Craig Carlson was the last person anyone would expect to open an American diner in Paris. He came from humble beginnings in a working-class town in Connecticut, had never worked in a restaurant, and didn't know anything about starting a brand-new business. But from his first visit to Paris, Craig knew he had found the city of his dreams, although one thing was still missing-the good ol' American breakfast he loved so much. Pancakes in Paris is the story of Craig tackling the impossible-from raising the money to fund his dream to tracking down international suppliers for "exotic" American ingredients and even finding love along the way. His diner, Breakfast In America, is now a renowned tourist destination, and the story of how it came to be is just as delicious and satisfying as the classic breakfast that tops its menu.

## **The Athenaeum**

The astonishing novel and "tour de force" about a love affair in postwar France from the iconic author of All That Is (The New York Times Book Review). Twenty-year-old Yale dropout Phillip Dean is traveling Europe aimlessly in a borrowed car with little money. When he stops for a few days in a church-quiet town near Dijon, he meets Anne-Marie Costallat, a young shop assistant. The two begin an affair both carnal and innocent, and she quickly becomes to him the real France, its beating heart and an object of pure longing. James Salter, author of Light Years and the memoir Burning the Days, was an essential voice in the evolution of late twentieth-century prose, a stylist on par with Updike and Roth who won the PEN/Faulkner Award for his collection Dusk and Other Stories. One of the first great American novels to speak frankly of human desire free of guilt and shame, A Sport and a Pastime inspired Reynolds Price to call it "as nearly perfect as any American fiction I know." This ebook edition features an illustrated biography of James Salter including rare photos from the author's personal collection.

## **What They Didn't Teach You in French Class**

This book examines the development of English as a written vernacular and identifies that development as a process of community building that occurred in a multilingual context. Moving through the eighth century to the thirteenth century, and finally to the sixteenth-century antiquarians who collected medieval manuscripts, it suggests that this important period in the history of English can only be understood if we loosen our insistence on a sharp divide between Old and Middle English and place the textuality of this period in the framework of a multilingual matrix. The book examines a wide range of materials, including the works of Bede, the Alfredian circle, and Wulfstan, as well as the mid-eleventh-century Encomium Emmae Reginae, the Tremulous Hand of Worcester, the Ancrene Wisse, and Matthew Parker's study of Old English manuscripts. Engaging foundational theories of textual community and intellectual community, this book provides a crucial link with linguistic distance. Perceptions of distance, whether between English and other languages or between different

forms of English, are fundamental to the formation of textual community, since the awareness of shared language that can shape or reinforce a sense of communal identity only has meaning by contrast with other languages or varieties. The book argues that the precocious rise of English as a written vernacular has its basis in precisely these communal negotiations of linguistic distance, the effects of which were still playing out in the religious and political upheavals of the sixteenth century. Ultimately, the book argues that the tension of linguistic distance provides the necessary energy for the community-building activities of annotation and glossing, translation, compilation, and other uses of texts and manuscripts. This will be an important volume for literary scholars of the medieval period, and those working on the early modern period, both on literary topics and on historical studies of English nationalism. It will also appeal to those with interests in sociolinguistics, history of the English language, and medieval religious history.

## **Mindshift**

In an age when we are constantly being asked to retrain and reinvent ourselves, to adapt to new technologies and changing industries, this book assuages our fears and inspires us with a sense of possibility. Our passions and talents may actually surprise us. In *Mindshift*, Barbara Oakley tells the stories of people who have overcome learning "handicaps" of all kinds—such as Imposter's Syndrome and advancing age—and shows how we can turn perceived weaknesses into strengths. For example, people may feel like they're at a disadvantage if they pursue a new field later in life; yet those who change careers can be fertile cross-pollinators—they bring valuable insights from one discipline to another. The power of simple persistence in building talent is also often underestimated. Dr. Oakley reveals the latest neuroscientific insights into how our brains change when we learn something new. She shares strategies for learning that are backed by brain science, including practical exercises to apply in our own lives. Praise for *A Mind for Numbers*
