Epitaph for George Dillon

As an 8 year old boy Carl Spiers witnessed his first football hooliganism at Stockport in 1969. It was a seminal moment in his life and sparked an obsession with violence. For the next 15 years he progressed from onlooker to teenage boot boy to gang leader and eventually became one of Oldham's top 'lads' in the late 70's/early 1980's. This roller-coaster ride took him up and down the country clashing with over sixty rival teams from all four divisions. Along the way Carl suffered many injuries including being stabbed in the chest and inner thigh, having his nose, cheekbones, arm, wrists, fingers and skull broken and his teeth knocked out. He eventually saw the futility of all this

mindless violence and by his early twenties he settled down. Nevertheless his experiences stood him in good stead as he went on to become widely recognised as an expert on football hooliganism and wider British youth culture.

Look Back in Anger is one of the few works of drama that are indisputably central to British culture in general, and its name is one of the most well-known in postwar cultural history. Its premiere in 1956 sparked off the first "new wave" of kitchen-sink drama and the cultural phenomenon of the angry young man. The play's anti-hero, Jimmy Porter, became the spokesman of a generation. Osborne's play is a key milestone in "new writing" for British theatre, and the Royal Court-which produced the play-has since become one of the most important new writing theatres in the UK.

A New York Times Notable Book of 2017 • Named a Best Book of the Year by Slate and NPR One of our most important public intellectuals reveals the hidden history of our current global crisis How can we explain the origins of the great wave of paranoid hatreds that seem inescapable in our close-knit world—from American shooters and ISIS to Donald Trump, from a rise in vengeful nationalism across the world to racism and misogyny on social media? In *Age of Anger*, Pankaj Mishra answers our bewilderment by casting his gaze back to the eighteenth century before leading us to the present. He shows that as the world became modern, those who were unable to enjoy its promises—of freedom, stability, and prosperity—were increasingly susceptible to demagogues. The many who came late to this new world—or were left, or pushed, behind—reacted in horrifyingly similar ways: with intense hatred of invented enemies, attempts to re-create an imaginary golden age, and self-empowerment through spectacular violence. It was from among the ranks of the disaffected that the militants of the nineteenth century arose—angry young men who became cultural nationalists in Germany, messianic revolutionaries in Russia, bellicose chauvinists in Italy, and anarchist terrorists internationally. Today, just as then, the wide embrace of mass politics and technology and the pursuit of wealth and individualism have cast many more billions adrift in a demoralized world, uprooted from tradition but still far from modernity—with the same terrible results.

The Tragedy of Jimmy Porter

Chris Hutton is to Oasis what Pete Best was to the Beatles - the one who was ousted from the band just before they achieved fame and glory. Chris Hutton and Richard Kurt now tell the whole story of Oasis from a unique perspective. It is one that the Oasis PR machine would like to forget, chronicling their years of growing up in Burnage, their early musical development, the eventual breakthrough, and the brutal expulsion of Hutton from the band. Now, from one of the biggest bands since the Beatles comes the true story of the talent and raw ambition which drove Oasis into the spotlight, leaving behind one of their earliest members.

Western Drama Through the Ages: Four great eras of western drama

From being the butt of jokes to domestic treble winners, Manchester City fans have endured more ups and downs than most football supporters over the past 30 years as they journeyed down the divisions before bouncing back in spectacular style under a new owner with unlimited wealth. Yet throughout this long rollercoaster journey City fans stayed loyal to their club -- averaging over 25,000 most seasons when other large clubs have seen attendances slump well below that in bleak times. Don Price follows up his naval memoirs and last year's 'We Never Win at Home' with a final collection of memories from his travels with City alongside fanzine editors Dave Wallace, Phill Gatenby and Sean Riley, a City fan who

point in the history of British theatre, a milestone introducing the era of the New British Drama. Osborne remembers: "On 8 May 1956 [] Look Back in Anger had its opening at the Royal Court Theatre. This [] particular date seems to have become fixed in the memories of theatrical historians" and Lacey emphasises: "The moment of John Osborne's Look Back in Anger [] was undoubtedly a symbolic one in the history of post-war British theatre and of post-war culture generally." However, Look Back in Anger was not perceived as a break-through right from the beginning. Rather, Osborne had to cope with shattering criticism and at first, his play was a crushing defeat. Osborne himself summarized the reactions towards Look Back in Anger in his autobiography about thirty years later: "There was a vehement, undisputed judgement: the play was a palpable miss." Nearly all reviews focused on the play's hero Jimmy Porter, whose nature they depicted as the reason for the "essential wrongness" of the play. Jimmy was seen as "a bitter young misfit," "a boor, self-pitying, self-dramatising rebel" and a "cynical, neurotic [young man] of working-class stock," whose "continuous tirade against life [] ha[d] a deadening effect upon the whole play." Cecil Wilson sharpened the criticism when she exclaimed that Jimmy Porter's bitterness and his savage and often vulgar talk "crie[d] out for a knife." However, the attitudes towards Osborne and his first play changed with the publication of Kenneth Tynan's testimony in the Sunday newspaper a week later stating that he could hardly "love anyone who did not wish to see Look Back in Anger. It is the best young play of its decade." This provocative review suddenly shed a

new light on the play. Overnight, Look Back in Anger had become a success, its (anti-)hero Jimmy Porter "the first young voice to cry out for a new generation that had forgotten the war, mistrusted the welfare state and mocked its established rulers with boredom, anger and disgust" and John Osborne had become a celebrated young writer. Owing to its literary key role in the history of British Drama I would like to give a brief overview of the critical opinions about Look Back in Anger before I move on to developing my own thesis.

In this challenging book, first published in 1987, Michelene Wandor looks at the best-known plays in the thirty years prior to publication, from *Look Back in Anger* onwards. Wandor investigates the representation of the family and different forms of sexuality in these plays and re-reviews them from a perspective that throws into sharp relief the function of gender as an important determinant of plot, setting and the portrayal of character. Juxtaposing the period before 1968, when statutory censorship was still in force, with the years following its abolition, Wandor scrutinises the key plays of, among others, Osborne, Pinter, Wesker, Arden, and Delaney. Each one is analysed in terms of its social context: the influence of World War II, the testing of gender roles, the development of the Welfare State and changes in family patterns, and the impact of feminist, Left-wing and gay politics. Throughout the period, two generations of playwrights and theatregoers transformed the theatre into a forum in which they could articulate and explore the interaction of their interpersonal relationships with the wider political sphere. These changes are explored in this title, which will allow readers to re-evaluate their view of post-war British drama.

The hidden brain is the voice in our ear when we make the most important decisions in our lives—but we're never aware of it. The hidden brain decides whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. Filled with fascinating characters, dramatic storytelling, and cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed.

When John Osborne died at Christmas 1994, his obituaries cited his autobiographical writings as perfect examples of undiluted talent and acerbic wit. Now, Osborne's superb autobiographies, *A Better Class of Person: 1929-1956* and *Almost a Gentleman: 1955-1966* (winner of the J. R. Ackerley Prize), are available for the first time in one volume, *Looking Back*. 'A brilliant, funny, melancholy and acrimonious book of memoirs . . . Almost every page confirms that

The nineties was the decade when British culture reclaimed its position at the artistic centre of the world. Not since the 'Swinging Sixties' had art, comedy, fashion, film, football, literature and music interwoven into a blooming of national self-confidence. It was the decade of Lad Culture and Girl Power; of Blur vs Oasis. When fashion runways shone with British talent, Young British Artists became household names, football was 'coming home' and British film went worldwide. From Old Labour's defeat in 1992 through to New Labour's historic landslide in 1997, Don't Look Back In Anger chronicles the Cool Britannia age when the country united through a resurgence of patriotism and a celebration of all things British. But it was also an era of false promises and misplaced trust, when the weight of substance was based on the airlessness of branding, spin and the first stirrings of celebrity culture. A decade that started with hope then ended with the death of the 'people's princess' and 9/11 - an event that redefined a new world order. Through sixty-eight voices that

epitomise the decade - including Tony Blair, John Major, Noel Gallagher, Damon Albarn, Tracey Emin, Keith Allen, Meera Syal, David Baddiel, Irvine Welsh and Steve Coogan - we re-live the epic highs and crashing lows of one of the most eventful periods in British history. Today, in an age where identity dominates the national agenda, Don't Look Back In Anger is a necessary and compelling historical document.

Don't Look Back in Anger- Synopsis Preserved in it's original diary form, Don't Look Back in Anger is one woman's true account of her experience as a human shield in Saddam Hussein's desperate attempt's to avoid a military response to his invasion of Kuwait in 1990. After a number of agonisingly tense days waiting in the hotel where Chris worked, first Chris and then Caroline were seized by the Iraqi forces and brought at gunpoint to Iraq, where they would spend the next few months being shuffled between military and chemical installations. Conditions were appalling, and all the hostages, who were from many different Western countries, suffered not just physically but also mentally as they were exposed to filth, disease, uncertainty and the daily fear of imminent execution. Years later, when hostilities returned to the Arab Gulf, where Caroline has made her home, the fear, and painful memories of that dreadful time returned to

Look Back in Anger

One of a series of titles first published by Faber between 1930 and 1990, and in a style and format planned with a view to the appearance of the volumes on the bookshelf. Osborne's play changed the course of British theatre in the 1950s, and features the prototype angry young man, Jimmy Porter.

Don't Look Back in Anger

The essays collected in *Posting the Male* examine representations of masculinity in post-war and contemporary British literature, focussing on the works of writers as diverse as John Osborne, Joe Orton, James Kelman, Ian Rankin, Carol Ann Duffy, Alan Hollinghurst, Ian McEwan, Graham Swift and Jackie Kay. The collection seeks to capture the current historical moment of 'crisis', at which masculinity loses its universal transparency and becomes visible as a performative gender construct. Rather than denoting just one fixed, polarised point on a hierarchised axis of strictly segregated gender binaries, masculinity is revealed to oscillate within a virtually limitless spectrum of gender identities, characterised not by purity and self-containment but by difference and alterity. As the contributors demonstrate, rather than a gender 'in crisis' millennial manhood is a gender 'in transition'. Patriarchal

strategies of man-making are gradually being replaced by less exclusionary patterns of self-identification inspired by feminism. Men have begun to recognise themselves as gendered beings and, as a result, masculinity has been set in motion.

Autobiographical Elements In John Osborne: A Study Of Look Back In Anger

It is said that British Drama was shockingly lifted out of the doldrums by the 'revolutionary' appearance of John Osborne's *Look Back in Anger* at the Royal Court in May 1956. But had the theatre been as ephemeral and effeminate as the Angry Young Men claimed? Was the era of Terence Rattigan and 'Binkie' Beaumont as repressed and closeted as it seems? In this bold and fascinating challenge to the received wisdom of the last forty years of theatrical history, Dan Rebellato uncovers a different story altogether. It is one where Britain's declining Empire and increasing panic over the 'problem' of homosexuality played a crucial role in the construction of an enduring myth of the theatre. By going back to primary sources and rigorously questioning all assumptions, Rebellato has rewritten the history of the Making of Modern British Drama.
