### **Wildey's Here**

The purpose of this book is to give Christ-centered believers an objective look at how a community of believers has the ability to not just survive in the rough-and-tumble times that a post-financial-collapse world will inevitably lapse into, but actually thrive. Christ-centered leadership is the key. Honoring God the Father and His Son Yeshua in all aspects is something that the author strove to hear God's leading on, from start to finish. Over the last twenty years, many books, articles, and movies have been written and filmed about the postapocalyptic world, both fiction and nonfiction how-to, centering on what to do and how to do it. Most, if not nearly all, have focused on a few major topics, with perhaps another one or two side issues. In this book, the author has endeavored to cover as many facets as possible that will come into play as given to him by God's Spirit. Financial collapse, firearms, self-defense, breakdown of law and order, cannibalism, barter, invasion by the UN, the setting up of a retreat, basic survival skills, and medical care by amateurs have all been covered in other works, and usually quite well. But, as they say on TV, wait, there's moremuch, much more. Also woven into this work are torture, suicide, homosexuality and the subsequent deliverance from it, along with the very real probability of Islamic terrorism. Then we get to, for the most part, the forgotten wild cards: a command structure for the leadership, unparalleled cataclysmic geological upheaval, pandemic outbreak, the setting up of a city of refuge for God's people, and without question, the most neglected yet, far and away, most important deciding factor in all this: the last days' move of God. Mix all these factors together, and there we will find ourselves in uncharted waters.

## **Between the Rivers**

The M14 may have only been the primary US service rifle for a little over a decade before being replaced by the M16, but it is still considered by many experts to be the best rifle to ever see US service. Primarily designed for a war in Europe, where it would take its place alongside the other battle rifles like the FN FAL, the M14 saw most of its combat use in the early days of the Vietnam War. Maintained until 1970 for compatibility with NATO forces the M14 had a renaissance as a semi-automatic sniping weapon and since 2001 the M14 has been employed as a Designated Marksman Rifle, being employed by all branches of the US military, especially in Afghanistan where the open terrain makes longer-range engagements common. Featuring specially commissioned full-color artwork and archive and close-up photographs, this engaging study tells the story of the M14, the long-lived battle rifle that remains in front-line service with US forces more than 50 years after its first adoption.

## **Uncharted Waters**

Of all the infantry small arms developed during World War II, one that generated the most interest was the German 'assault rifle', the StG 44 Sturmgewehr. This innovative weapon inspired the Soviet AK-47 in 7.62x39mm calibre. In the West, the NATO countries looked hard at new weapons to upgrade their own infantry arsenals and counter the AK-47, resulting in the design of the Fusil Automatique Léger or FAL. It proved to be a successful battle rifle and was soon adopted by the military and police forces of no fewer than 93 nations. The FAL dominated the militaries of the West to such a degree that its nickname became the Right Arm of the Free World. The FAL fulfilled every role it was asked to perform and remains a viable and well-respected weapon to this day.

"Wildey's Here" is the true story of Wildey Moore's seven decades on the gun business. It charts how, without a college education, Moore became a great innovator, designing not only the first gas-operated pistol, the Survivor, but also the JAWS, Justice Pistol for the King of Jordan. The book further recounts, how, while, recovering from a stroke, international players including former CIA members attempted to seize Moore's then multi-national business, but his faith in God gave him the strength to hold on to fight and win back the company he had built over forty years. While "Wildey's Here" is a story of survival, it's also the story of how a man came to trust in the Lord during the most trying time of his life, and charts the changes Wildey witnessed in the United States as the country forsook morality and embraced immorality, starting down the road to decline. Make America great again, no, MAKE AMERICA GOOD AGAIN.

### **The M1 Garand**

The M1 Garand gave the US infantryman a marked edge during World War II. It shot faster and further than enemy infantry rifles and hit harder. No less an authority on killing the enemy than General George S. Patton called the Garand, "The greatest battle implement ever devised." At a time when opposing forces were armed with bolt-action rifles, US troops had a highly reliable self-loader. The eight-round clips which were used to load the M1 Garand were, however, viewed with mixed emotions by the troops on the ground. Some Army and Marine Corps troops allegedly felt that the distinctive "twang" as the Garand's clip was ejected when empty alerted the enemy that the soldiers were reloading and resulted in an attack. But the Garand became the defining mankiller of the war, despite its weight and magazine problems, and many US combat veterans consider it one of the key reasons they survived the war.
