Magic Trees of the Mind

The Youth's Companion

Clean Sweep On the morning of December 30, 1978, in Littleton, Colorado, Robert Spangler lured his wife Nancy into the basement with the promise of a "surprise." He then shot her in the head with a .38 handgun. Going upstairs, he shot his teenage

children, Susan and David. David was slow in dying, so his father finished him off by smothering him with a pillow. Cover Up Spangler had cunningly framed the crime scene, making it appear that his wife had shot their children and then herself. Now he was free to marry his new love, Sharon Cooper. A former high school athlete, he hiked the Grand Canyon with Sharon, who chronicled the trip in a book dedicated to her "soul mate," Spangler. But their happiness was short-lived. The marriage ended in a costly, messy divorce. Confession In April, 1993, when Spangler's third marriage to 59-year-old aerobics instructor Donna Sundling went sour, he took her hiking in the Grand Canyon and pushed her off a 140-foot drop to her death. In 1994, when ex-wife Sharon committed suicide, Spangler became the focus of intense police scrutiny. Wracked with brain cancer, he told all to investigators in the fall of 2000, detailing his shocking serial saga--the story of a two-time widower. . .and a four-time killer.

The Magic in Your Mind

It's no secret that more than two-thirds of the shots a golfer makes are short ones: putts, chips, and pitches. Long drives may garner applause, but whether a golfer wants to win the Masters or just five pounds

from his mates on Saturday morning, it's the little shots that make the difference. In *The Unstoppable Golfer*, Dr. Rotella, who has worked with stars like Rory McIlroy, Darren Clarke and Graeme McDowell, will teach readers how to use their minds to master the short game, by achieving a calm state of mind in which the focus is only one thing--the hole. In addition to preparing players mentally, Rotella will also explain the science of memory, and how knowledge of the brain's workings--in particular how it masters physical tasks--can improve a golf game, particularly the short game. The path to greatness isn't an easy one, and a player needs inspiration, which will come from great stories about the golfers and other sports professionals that Rotella has worked with. Mastering chips, pitches, bunker shots, and putts provides one of the ultimate pleasures of the game--and this is a pleasure readers will come to know by training their minds to become unstoppable golfers.

A Haunted Mind

The *Magic Mala* (pronounced mah-lah) is the story of Robby Robertson, a down-on-his-luck writer who realizes that he doesn't know as much about life as he once believed. His desperate financial circumstances lead him to open his mind to new ways of living. After finding some mala beads (similar to a rosary but with 108 beads), Robby is taken on a magical journey that teaches him the secrets to personal manifestation. Every so often a book comes along that changes the lives of its readers. *The Magic Mala* is just such a book. This novel, written as a story that

inspires change, will teach you how to claim what you desire by being conscious about what you think, say, and do. More importantly, this story will help you recognize the power you've always had but didn't know was there—your inner ability to create the life of your dreams.

Magic of the Mind

The Magic in Your Mind teaches the magic by which men become free and begin to grow into the image they are meant to be. A man changes the state of his outer world by first changing the state of his inner world. Everything that comes to him from outside is the result of his own consciousness. By understanding the process and effect of mental imagery, he goes directly along the correct path to his goal. This book reveals a mental magic that guarantees increased achievement and assures success.

Understanding Your DNA and Mind

Cutting edge scientific research has shown that exposure to the right kind of environment during the first years of life actually affects the physical structure of a child's brain, vastly increasing the number of neuron branches—the "magic trees of the mind"—that help us to learn, think, and remember. At each stage of development, the brain's ability to gain new skills and process information is refined. As a leading researcher at the University of California at Berkeley, Marion Diamond has been a pioneer in this field of research. Now, Diamond and award-winning science

writer Janet Hopson present a comprehensive enrichment program designed to help parents prepare their children for a lifetime of learning.

Magic in the City

Arguably no American writer has had more of an impact on the modern horror scene than Howard Phillips Lovecraft, the man who created the Cthulhu Mythos, with its strange gods, eerie places, and forbidden books. But what sort of a man was Lovecraft, how did he create such a terrible universe, and where did his inspiration come from? Was it, as some have argued, based on esoteric knowledge forgotten or even denied to all sane people? In *A Haunted Mind*, Dr. Bob Curran explores what motivated Lovecraft—his personal life is just as strange as some of his creations—and drove him to create his terrible cosmos. Using both folklore and history, Dr. Curran investigates a wide variety of Lovecraftian mysteries. A word of warning: you may never look at Lovecraft—or the world—in exactly the same way again!

Married To Murder

Thoughts Are Things is a wonderful, motivational text

from two acclaimed public speakers and accomplished authors--Bob Proctor and Greg S. Reid. What mind-set determines whether or not a person will be successful? Do successful people think differently from those who never reach their potential? How can we change our thoughts so that the result of every thought--the offspring of thought--sets us up to win rather than lose? Bob Proctor and Greg S. Reid, authorized by the Napoleon Hill Foundation, delve deeply into the science and psychology of thought, and how thinking is vitally important to a meaningful, successful life. In their interviews with neuroscientists, cardiologists, spiritual teachers, and business leaders, the authors show in *Thoughts Are Things* how we can think to live!

Much like *Golf Is Not a Game of Perfect* and *Golf Is a Game of Confidence*, *Putting out of Your Mind* is a resonant and informative guide to achieving a better golf game.
