Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, Feminism and the Politics of Travel After the Enlightenment explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert George Sand, Robyn Davidson, and Sara Wheeler.

As an acoustic engineer, Trevor Cox has spent his career eradicating unwanted noises - echoes in concert halls, clamour in classrooms. Until the day he heard something so astonishing that he had an epiphany: rather than quashing rare or bizarre sounds, we should be celebrating these sonic treasures. This is the story of his investigation into the mysteries of these Sonic Wonders of the World. In the Mojave Desert he finds sand dunes that sing. In France he discovers an echo that tells jokes. In California he drives down a musical road that plays the William Tell Overture. In Cathedrals across the world he learns how acoustics changed the history of the Church. Touching on physics, music, archaeology, neuroscience, biology, and design, Cox explains how sound is made and altered by the environment and how our body reacts to peculiar noises - from the exotic sonic wonders he encounters on his journey, or the equally unique and surprising sounds of our everyday environment. In a world dominated by the visual, Sonic Wonderland encourages us to become better listeners and to open our ears to the glorious cacophony around us. Listen to a selection of astonishing sounds here: https://soundcloud.com/sonicwonderland

Woven through with all the elements of life-- family relationships, friendships, rivalries, romance, politics, religion and more--the plot twists and turns like the trail of a snake. It's a ride through Hell, as friends appear to be enemies, and enemies appear to be friends, making it tough to do what needs doing, or even to figure out what it is that needs doing.The Trail of the Snake is a work of fiction. Plot lines and characters were developed by the author and should not be construed as real or confused with any actual incidents or individuals, living or dead. All locations cited and products named are based on historical records, but are used in a fictional manner and may have been altered to better serve the storyline.This four-part series, published in two volumes, is set in the 1880s, when people made their own music, often singing as they rode, worked or relaxed. All songs used in the text were sung in this period, during which traveling evangelists held lively camp meetings, and the production and distribution of gospel songs supported prolific songwriters and publishing houses. Scripture quotations are from the King James Version, used most commonly at that time. The horses described are inspired by horses the author has known, with names and details altered.Scenic photographs are from the Norris A. McKeeth collection. Cover art incorporates a historical map from 1882, archived in the Idaho State Historical Library in Boise, Idaho.

Feminism and the Politics of Travel After the Enlightenment

After ten years living abroad, Tarquin Hall wanted to return to his native London. Lured by his nostalgia for a leafy suburban childhood spent in south-west London, he returned with his Indian-born, American fiance in tow. But, priced out of the housing market, they found themselves living not in a townhouse, oozing Victorian charm, but in a squalid attic above a Bangladeshi sweatshop on London's Brick Lane. A grimy skylight provided the only window on their new world: a filthy, noisy street where drug dealers and prostitutes peddled their wares and tramps urinated on the pavements. At night, traffic lights lit up the ceiling and police sirens wailed into the early hours. Yet, as Hall got to know Brick Lane, he discovered beneath its unlovely surface an inner world where immigrants and asylum seekers struggle to better themselves and dream of escape. Salaam Brick Lane is a journey of discovery by an outsider in his own native city. It offers an explicit glimpse of the underbelly of London's most infamous quarter, the real-life world of Monica Ali's bestselling novel.

"We are created in rhythm, kept alive in rhythm, evolve through rhythm. Tides, breath, and blood flow in rhythm. We are born into a universe of currents, and our heart is the great conductor of the body, orchestrating our flow." The mystical foundations of all the world's spiritual paths meet in a single, sacred place: the heart of the seeker. We have reached a time when scientific understanding mirrors the teachings of the great wisdom traditions in revealing our energetic heart as the light of consciousness, the fire of love, a field of intelligence. Tending the Heart Fire, the first book by pioneering yogini Shiva Rea, is an invitation to embody our extraordinary potential at this turning point in time, to reconnect your life to the rhythms of your body and the natural world—to live in flow with the pulse of life. Weaving together wisdom from the great world traditions—including yoga, Ayurveda, Tantra, and modern science—Shiva presents an essential resource for becoming a firekeeper of the sacred heart. This diverse treasury is filled with mediations, life guidance, seasonal rituals, and daily practices, including: Insights for harmonizing with the sacred junctures of time—the daily, weekly, lunar, and solar cycles of manifestation and renewal Aligning with the seasons—how to adapt your diet, exercise, and yoga rhythms throughout the annual cycle Ways to honor the great sacred holidays, rites, and festivals Awakening of sahaja—the natural flow at the origins and source of yoga asana and sacred embodiment at the heart of yoga and Tantra Skills for tending your inner fire in every aspect of life and healing imbalances that can support a renewable energy lifestyle A visual teaching with over a hundred full-color images, including reference charts, diagrams, illustrations, and ancient poetry for inspiration The legacy of the Heart Fire is more than eight hundred thousand years old—and in our modern world, we need more than ever to consciously reconnect to the radiant field that transcends time, space, and culture. "The direct awakening of the heart often happens when we are at a crisis point, when the armor of our heart has to crack," writes Shiva Rea. "Let us return to the power and magnificence of our hearts—as living fire, as intelligent energy and electromagnetic radiance, and as our illuminating guide toward love, creativity, and deep knowing of our true sacred nature."

Since the abolishment of slavery in 1865, every time African Americans have made advances towards full democratic participation, white reaction has fuelled a rollback of any gains. Carefully linking historical flashpoints – from the post-Civil War Black Codes and Jim Crow to expressions of white rage after the election of America's first black president – Carol Anderson renders visible the long lineage of white rage and the different names under which it hides.
