## Cases in Finance

The long-awaited reissue of the autobiography of  
Peter Rice, one of the main structural engineers  
behind the Sydney Opera House, the Pompidou  
Centre, the Menil Collection and Lloyd's of London. 'I  
am an engineer. Often people will call me an

'architect engineer' as a compliment. It is meant to signify a quality of engineer who is more imaginative and design-orientated than a normal engineer. To call an engineer an 'architect engineer' because he comes up with unusual or original solutions is essentially to misunderstand the role of the engineer in society.' An Engineer Imagines is a rare look into the professional creativity and philosophy of Peter Rice, who was widely acclaimed as the greatest structural engineer of his generation. He was a man who, in Renzo Piano's words, could design structures 'like a pianist who can play with his eyes shut'. Working with many of the world's greatest architects on buildings that became icons of contemporary architecture, he brought a uniquely poetic feeling to his work. Joining Ove Arup & Partners in 1956, Rice had heard that 'it was a place where an oddball could fit in.' Taking on Arup's theory of Total Design to heart, Rice writes about the role of the engineer in society, and how he himself applied his creativity to various projects. He admits he became an engineer by accident, tentatively feeling his way through a career without a natural instinct. But as he takes you through each of his projects, one-by-one, you can trace his development from graduate to veteran. Written in clear and poetic language, Rice's autobiography is perfect for those who want to better understand postwar buildings, our concrete environment, or are budding students of engineering and architecture.

Project President is a hilarious romp through American electoral history. From short, fat, bald John Adams' wig-throwing tantrums during the 1800 election to Abraham Lincoln's decision to grow a beard in 1860; from John F. Kennedy's choice to forgo the fedora at his inauguration to John Kerry's decision to get Botoxed for the 2004 race; from the Golden Age of Facial Hair (1860-1912) to the Age of the Banker (1912-1960); from Washington's false teeth to George W. Bush's workout regimen, Project President tells the story of America's love affair with presidential looks and appearance, why that often matters more than a politico's positions on the issues, and what might well be coming next. "I'm constantly citing the power of dress. It's semiology: our clothes send a message about how we want to be perceived, and where is this more powerful and evident than in elected offices. In Project President, Ben Shapiro captures presidential semiotics with a potent narrative and deft analysis. It's simultaneously fascinating and hilarious!" -Tim Gunn Project Runway, Liz Claiborne, Inc. "Ben Shapiro takes a romp through American history and shows how personality--and even haircuts--have elected or defeated presidential candidates. It's a tour through history that fans of both parties will enjoy--and can learn from." -Michael Barone Resident scholar, American Enterprise Institute Senior Writer, U.S. News & World Report Co-author, The Almanac of American Politics "Presidential politics has always been more superficial than we'd like to admit. A fun, informative read." -Glenn Beck Nationally syndicated talk show host Host of CNN's The Glenn Beck Show "A hilarious and illuminating journey through America's centuries-long fascination with presidential image-making. Whether you're left, right, moderate or apathetic, this lively book will get you ready for the packaging of the '08 races." -Jim Hightower "This is a perceptive, witty-sometimes hilarious-look at the realities behind the faces and the facades, the slogans and the character assassinations, of each presidential campaign from George Washington to today - with much for us to ponder for tomorrow." -Sir Martin Gilbert Official biographer of Winston Churchill "An entertaining and illuminating romp through the politics of symbolism and personality in our presidential politics. If you're thinking of running for president, read this book before you spend a dime on a political consultant." -Rich Lowry National Review COLMES: Who do you want [for the Supreme Court]?
