However he is about to face a choice which can cost him his future. Will he sacrifice himself in order to save a child in danger or he will prefer to keep his old identity in secret?

William Sydney Porter, better known as O. Henry, was an American writer who lived in the late 19th century. He gains wide popularity with his short stories which often take place either in New York or some small American towns. The plot twists and the surprise endings are a typical and integral part of O. Henry's short stories. Some of his best known works are "The Gift of the Magi", "The Cop and the Anthem", "A Retrieved Reformation". His stories often deal with ordinary people and the individual aspects of life. As a result of the outstanding literature legacy that O. Henry left behind, there is an American annual award after his name, given to exceptional short stories.

Amid present-day conflagrations, this illuminating book reminds us of the sources, and profound consequences, of Christian fundamentalism in the sixteenth century. Simpson focuses on the cultural transformation in early modern England that allowed common people to read the Bible for the first time.

Reformation

The Study of History in American Colleges and Universities

The close relationship between religion, medicine and natural philosophy in the post-Reformation period has been documented and explored in a body of research since the 1990s; however, the direct and continued impact of Melanchthonian natural philosophy within the individual Lutheran principalities of northern Europe in general and Scandinavia in particular still has to be fully investigated and understood. This volume provides insight into how and why medicine and natural philosophy in a 'liberal' and Melanchthonian form could continue to blossom in Scandinavia despite a growing Lutheran uniformity promoted by the State. Inspired by research emanating from the Cambridge Unit for the History of Medicine, here a number of young scholars such as Adam Mosley, Morten Fink-Jensen, Signe Nipper Nielsen and Martin Kjellgren are joined with more established scholars such as Andrew Cunningham, Jens Glebe-Møller, Terhi Kiiskinen and Ole Peter Grell to create a volume which deals with not only the major issues but also the leading personalities of the period.

Reformation Ideas Spread

This compelling question is central to a debate taking place among evangelicals today. Michael Horton, a preeminent voice for reformation in the church, has drawn together a group of leaders in the evangelical church to answer this question once and for all. - W. Robert Godfrey - Michael Horton - Alister McGrath - Kim Riddlebarger - Rick Ritchie - Rod Rosenblatt - Paul Schaefer - Robert Strimple These writers draw on Scripture, theology, and church history to address the Lordship salvation issue. They explain their positions clearly, taking care to avoid promulgating legalistic rules people need to follow to be considered Christian. But neither do they convey the feeling that rules no longer matter.

the same sermon, an equal or a longer time is spent on pardons than on this Word. 55. It must be the intention of the pope that if pardons, which are a very small thing, are celebrated with one bell, with single processions and ceremonies, then the Gospel, which is the very greatest thing, should be preached with a hundred bells, a hundred processions, a hundred ceremonies. 56. The "treasures of the Church," out of which the pope grants indulgences, are not sufficiently named or known among the people of Christ. 57. That they are not temporal treasures is certainly evident, for many of the vendors do not pour out such treasures so easily, but only gather them. 58. Nor are they the merits of Christ and the Saints, for even without the pope, these always work grace for the inner man, and the cross, death, and hell for the outward man. 59. St. Lawrence said that the treasures of the Church were the Church's poor, but he spoke according to the usage of the word in his own time.[.]".

Missionary Review of the World

In his *The Babylonian Captivity of the Church*, Martin Luther set forth a reconsideration of the sacramental Christian life that centered on the word. His thesis is that the papacy had distorted the sacraments with its own traditions and regulations, transforming them into a system of control and coercion. The evangelical liberty of the sacramental promises had been replaced by a papal absolutism which, like a feudal lordship, claimed its own jurisdictional liberties and privileges over the totality of Christian life through a sacramental system that spanned birth to death. Yet Luther does not replace one tyranny for another; his argument for a return to the biblical understanding of the sacraments is moderated by a consideration of traditions and external practices in relation to their effects on the individual conscience and faith. This volume is excerpted from *The Annotated Luther* series, Volume 3. Each volume in the series contains new introductions, annotations, illustrations, and notes to help shed light on Luther's context and interpret his writings for today. The translations of Luther's writings include updates of *Luther's Works, American Edition*, or entirely new translations of
