Ohio Elder Law Handbook -- A Companion Book to Ohio Family Law

In every major city in the world there is a housing crisis. How did this happen and what can we do about it? Everyone needs and deserves housing. But today our homes are being transformed into commodities, making the inequalities of the city ever more acute. Pro fit has become more important than social need. The poor are forced to pay more for worse housing. Communities are faced with the violence of displacement and gentri fication. And the bene fits of decent housing are only available for those who can a fford it. In Defense of Housing is the de finitive statement on this crisis from leading urban planner Peter Marcuse and sociologist

David Madden. They look at the causes and consequences of the housing problem and detail the need for progressive alternatives. The housing crisis cannot be solved by minor policy shifts, they argue. Rather, the housing crisis has deep political and economic roots—and therefore requires a radical response. From the Trade Paperback edition.

Fundamentals of Ohio Real Estate Law

Fundamentals of Ohio Real Estate Law is written in the author's engaging conversational style. Abstract concepts are supported by clear examples and supplemental materials to help students gain a thorough understanding. Focusing on Ohio real estate principles, the author has designed the text to anticipate students' questions as they arise and answer them along the way. Ohio real estate law is filled with idiosyncrasies. As one of the key states in the westward expansion, Ohio became a testing ground for many different real estate surveying systems, which are still used today. Fundamentals of Ohio Real Estate Law is organized in a logical manner, introducing basic concepts in early chapters and building to more complex topics, while focusing on real-world issues. This text covers the new real estate closing requirements effective in 2015. In addition to the content for an undergraduate real estate law course, this book contains three chapters for the required law prelicensing course for Ohio real estate agents.

Employment Practices Update

This book on legal ethics is the premier text that examines the ABA Model Rules of Professional Conduct, the ABA Code of Judicial Conduct, the American Law Institute's new Restatement of the Law Governing Lawyers, and the case law. The book is analytical, concise, and thorough. Empirical studies show that many lawyers are unaware of even basic information about legal ethics, the law governing lawyers. Older lawyers, who draw a disproportionate number of malpractice suits, often have neither formally studied ethics nor kept up with developments in the law. Many malpractice suits arise out of ethics violations, such as disqualification of lawyers for conflicts of interest, multi-disciplinary practice, and the attorney-client evidentiary and ethical privilege. The Ethics Rules are law typically adopted by court rule in the same way that the Rules of Civil Procedure are law. These Ethics Rules are just as complex as the Civil Practice Rules or the Evidence Rules. Many of the Ethics Rules cannot be known through some sort of innate or hereditary awareness automatically infused in ordinary human beings once they are admitted to the bar. Unless a student wants to emulate those lawyers who draw a disproportionate number of malpractice suits, he or she will need to understand the law of Legal Ethics. And to do that, one needs this book.

WINNER OF THE 2017 PULITZER PRIZE GENERAL NON-FICTION From Harvard sociologist and MacArthur "Genius" Matthew Desmond, a landmark work of scholarship and reportage that will forever change the way we look at poverty in America In this brilliant, heartbreaking book, Matthew Desmond takes us into the poorest neighborhoods of Milwaukee to tell the story of eight families on the edge. Arleen is a single mother trying to raise her two sons on the \$20 a month she has left after paying for their rundown apartment. Scott is a gentle nurse consumed by a heroin addiction. Lamar, a man with no legs and a neighborhood full of boys to look after, tries to work his way out of debt. Vanetta participates in a botched stickup after her hours are cut. All are spending almost everything they have on rent, and all have fallen behind. The fates of these families are in the hands of two landlords: Sherrena Tarver, a former schoolteacher turned inner-city entrepreneur, and Tobin Charney, who runs one of the worst trailer parks in Milwaukee. They loathe some of their tenants and are fond of others, but as Sherrena puts it, "Love don't pay the bills." She moves to evict Arleen and her boys a few days before Christmas. Even in the most desolate areas of American cities, evictions used to be rare. But today, most poor renting families are spending more than half of their income on housing, and eviction has become ordinary, especially for single mothers. In vivid, intimate prose, Desmond provides a ground-level view of one of the most urgent issues facing America today. As we see families forced into shelters, squalid apartments, or more dangerous neighborhoods, we bear witness to the human cost of America's vast inequality—and to people's determination and intelligence in the face of hardship. Based on years of embedded fieldwork and painstakingly gathered data, this masterful book transforms our understanding of extreme poverty and economic exploitation while providing fresh ideas for solving a devastating, uniquely American problem. Its unforgettable scenes of hope and loss remind us of the centrality of home, without which nothing else is possible.
