Critical Race Theory

The Decline and Fall of the United States of America

In 2001, Richard Delgado and Jean Stefancic published their definitive Critical Race Theory, a compact introduction to the field that explained, in straightforward language, the origins, principal themes, leading voices, and new directions of this important movement in legal thought. Since then, critical race theory has gone on to influence numerous other fields of scholarship, and the Delgado and Stefancic primer has remained an indispensable guide for students and teachers. Delgado and Stefancic have revised the book to include material on key issues such as colorblind jurisprudence, Latino-Critical scholarship, immigration, and the rollback of affirmative action. This second edition introduces readers to important new voices in fields outside of law, including education and psychology, and offers greatly expanded issues for discussion, updated reading lists, and an extensive glossary of terms.

Admission of German Refugee Children

To illustrate this humor factor, I've added a humor column to the end of each

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

chapter. Some of them are from my grandfathers book of kid puns and quips. I do hope they will bring a smile to your face. Enjoy! Welcome to my world! I hope you will enjoy reading about the people and events that helped shape my life. If you ask me what most influenced my very being, I would tell you it was my sense of humor. Ive always been able to see some humor in almost everything. I do believe that this ability has extended my business success and my life.

Japan and North America: First contacts to the Pacific War

A groundbreaking history of the rise and decline of the vast and imposing Native American empire. In the eighteenth and early nineteenth centuries, a Native American empire rose to dominate the fiercely contested lands of the American Southwest, the southern Great Plains, and northern Mexico. This powerful empire, built by the Comanche Indians, eclipsed its various European rivals in military prowess, political prestige, economic power, commercial reach, and cultural influence. Yet, until now, the Comanche empire has gone unrecognized in American history. This compelling and original book uncovers the lost story of the Comanches. It is a story that challenges the idea of indigenous peoples as victims of European expansion and offers a new model for the history of colonial expansion, colonial frontiers, and Native-European relations in North America and elsewhere. Pekka Hämäläinen shows in vivid detail how the Comanches built their unique empire and resisted European colonization, and why they fell to defeat in

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

1875. With extensive knowledge and deep insight, the author brings into clear relief the Comanches' remarkable impact on the trajectory of history. 2009 Winner of the Bancroft Prize in American History "Cutting-edge revisionist western history.... Immensely informative, particularly about activities in the eighteenth century."—Larry McMurtry, *The New York Review of Books* "Exhilarating...a pleasure to read.... It is a nuanced account of the complex social, cultural, and biological interactions that the acquisition of the horse unleashed in North America, and a brilliant analysis of a Comanche social formation that dominated the Southern Plains."—Richard White, author of *The Middle Ground: Indians, Empires, and Republics in the Great Lakes Region, 1650-1815*

Hollywood Italians

1. The Dialectic of the Sex-Motif in Literature Sex is a function of culture; in literature today it plays only a small though aggressively righteous part. Nature, long held in bondage, periodically breaks out in revolt, but its victory is never complete. In every society, primitive as well as modern, the sexual instinct is for good or evil always subject to some measure of regulation and restraint. In literature, where the battle between love and sex, spirit and flesh, is fought out in terms of symbolic action, the writers support their cause, for or against sexual freedom, with varying degrees of evangelical ardor and outspokenness. On this issue there is no unanimity for the simple reason that American culture is not

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

unified in its beliefs concerning the nature of man. The central conflict between instinctual needs and the claims of the ideal, between physical desire and the inner check, between Dionysus and Christ, goes on all the time. Sublimation is the cultural process whereby sexual energy is deflected from its biological source and diverted into spiritually "higher" and socially more useful channels. But sublimation is for most men hard to achieve. As civilization grows more complex, the individual is exposed to a series of increasingly severe moral strains. Pitted against Nature while subject to its laws, he must hence forth be governed in his behavior by inner as well as outer controls.

The Puritans in America

White Americans have long been comfortable in the assumption that they are the cultural norm. Now that notion is being challenged, as white people wrestle with what it means to be part of a fast-changing, truly multicultural nation. Facing chronic economic insecurity, a popular culture that reflects the nation's diverse cultural reality, a future in which they will no longer constitute the majority of the population, and with a black president in the White House, whites are growing anxious. This anxiety has helped to create the Tea Party movement, with its call to "take our country back." By means of a racialized nostalgia for a mythological past, the Right is enlisting fearful whites into its campaign for reactionary social and economic policies. In urgent response, Tim Wise has penned his most pointed and

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

provocative work to date. Employing the form of direct personal address, he points a finger at whites' race-based self-delusion, explaining how such an agenda will only do harm to the nation's people, including most whites. In no uncertain terms, he argues that the hope for survival of American democracy lies in the embrace of our multicultural past, present and future. "Sparing neither family nor self...he considers how the deck has always been stacked in his and other white people's favor...His candor is invigorating."—Publishers Weekly "One of the most brilliant, articulate and courageous critics of white privilege in the nation."—Michael Eric Dyson "Tim Wise has written another blockbuster! His new book, *Dear White America: Letter to a New Minority*, is a cogent analysis of the problems of race and inequality as well as a plea for those who harbor views about race and racism to modify and indeed eliminate them. While the book's title addresses white people, this is really a book for anyone who is concerned about eliminating the issue of racial disparity in our society. This is must read and a good read."—Charles J. Ogletree, Jr., the Jesse Climenko Professor of Law at Harvard Law School and the Executive Director of the Charles Hamilton Houston Institute for Race and Justice. He is the author of a number of books, including *The Presumption of Guilt: The Arrest of Henry Louis Gates, Jr.* and *Race, Class and Crime in America* "Tim Wise is an American hero in the truest sense of the term—he tells the truth, no matter how inconvenient that truth might be. *Dear White America* is a desperately needed response to the insidious mythology that pretends whites are oppressed and people of color unduly privileged. In the process, it exposes how new forms of

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

racism have been deliberately embedded into our supposedly 'color blind' culture. Read this book—but rest assured, it's not for the faint of heart."—David Sirota, syndicated columnist, radio host, author of *Back to Our Future: How the 1980s Explain the World We Live In Now* "The foremost white analyst of racism in America never fails to provide fresh takes as he punctures myths and defenses."—World Wide Work Tim Wise is one of the most prominent antiracist essayists, educators, and activists in the United States. He is regularly interviewed by A-list media, including CNN, C-SPAN, The Tavis Smiley Show, The Tom Joyner Morning Show, Michael Eric Dyson's radio program, and many more. His most recent books include *Colorblind* and *Between Barack and a Hard Place*.

Healing the Soul of America

Specially written for the AS/A2 examinations, this book combines extended period cover with detailed focus on exam board-selected topics. The lively, accessible text is supplemented by Spotlights, providing detailed study of sources on key issues and topics, and Document Exercises, which offer opportunities for assessment and exam practice. Covering almost 150 years between unification and reunification, with a particular emphasis on the interwar years, the text encourages students to think for themselves around the issues that have affected German history during this period and to consider important historical debates and controversies.

The Sopranos

Chalfant's important book will produce bountiful blessings upon the Christian ministries of this troubled land. He has captured the essence of militant Christianity as it relates to love of country and devotion to democratic principles, which is every citizen's opportunity and obligation to uphold.

America on Film

Almost half a century ago, Jean-Luc Godard famously remarked, "I await the end of cinema with optimism." Lots of us have been waiting for and wondering about this prophecy ever since. The way films are made and exhibited has changed significantly. Films, some of which are not exactly "films" anymore, can now be projected in a wide variety of ways on screens in revamped high tech theaters, on big, high-resolution TVs, on little screens in minivans and laptops. But with all this new gear, all these new ways of viewing films, are we necessarily getting different, better movies? The thirty-four brief essays in *The End of Cinema as We Know It* attend a variety of topics, from film censorship and preservation to the changing structure and status of independent cinema from the continued importance of celebrity and stardom to the sudden importance of alternative video. While many of the contributors explore in detail the pictures that captured the attention of the

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

nineties film audience, such as Jurassic Park, Eyes Wide Shut, South Park: Bigger, Longer and Uncut, The Wedding Banquet, The Matrix, Independence Day, Gods and Monsters, The Nutty Professor, and Kids, several essays consider works that fall outside the category of film as it is conventionally defined the home "movie" of Pamela Anderson and Tommy Lee's honeymoon and the amateur video of the LAPD beating of Rodney King. Examining key films and filmmakers, the corporate players and industry trends, film styles and audio-visual technologies, the contributors to this volume spell out the end of cinema in terms of irony, cynicism and exhaustion, religious fundamentalism and fanaticism, and the decline of what we once used to call film culture. Contributors include: Paul Arthur, Wheeler Winston Dixon, Thomas Doherty, Thomas Elsaesser, Krin Gabbard, Henry Giroux, Heather Hendershot, Jan-Christopher Hook, Alexandra Juhasz, Charles Keil, Chuck Klienmans, Jon Lewis, Eric S. Mallin, Laura U. Marks, Kathleen McHugh, Pat Mellencamp, Jerry Mosher, Hamid Naficy, Chon Noriega, Dana Polan, Murray Pomerance, Hillary Radner, Ralph E. Rodriguez, R.L. Rutsky, James Schamus, Christopher Sharrett, David Shumway, Robert Sklar, Murray Smith, Marita Sturken, Imre Szeman, Frank P. Tomasulo, Maureen Turim, Justin Wyatt, and Elizabeth Young.

Millennialism and Violence

A compelling look at the movements and developments that propelled America to

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

world dominance In this landmark work, acclaimed historian Joshua Freeman has created an epic portrait of a nation both galvanized by change and driven by conflict. Beginning in 1945, the economic juggernaut awakened by World War II transformed a country once defined by its regional character into a uniform and cohesive power and set the stage for the United States' rise to global dominance. Meanwhile, Freeman locates the profound tragedy that has shaped the path of American civic life, unfolding how the civil rights and labor movements worked for decades to enlarge the rights of millions of Americans, only to watch power ultimately slip from individual citizens to private corporations. Moving through McCarthyism and Vietnam, from the Great Society to Morning in America, Joshua Freeman's sweeping story of a nation's rise reveals forces at play that will continue to affect the future role of American influence and might in the greater world.

The Men Who Lost America

It was Thomas Jefferson who envisioned the United States as a great 'empire of liberty.' In the first new one-volume history in two decades, David Reynolds takes Jefferson's phrase as a key to the saga of America - helping unlock both its grandeur and its paradoxes. He examines how the anti-empire of 1776 became the greatest superpower the world has seen, how the country that offered liberty and opportunity on a scale unmatched in Europe nevertheless founded its prosperity on the labour of black slaves and the dispossession of the Native Americans. He

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

explains how these tensions between empire and liberty have often been resolved by faith - both the evangelical Protestantism that has energized U.S. politics since the foundation of the nation and the larger faith in American righteousness that has impelled the country's expansion. Reynolds' account is driven by a compelling argument which illuminates our contemporary world.

American Empire

In this absorbing history, Jon C. Teaford traces the dramatic evolution of American metropolitan life. At the end of World War II, the cities of the Northeast and the Midwest were bustling, racially and economically integrated areas frequented by suburban and urban dwellers alike. Yet since 1945, these cities have become peripheral to the lives of most Americans. "Edge cities" are now the dominant centers of production and consumption in post-suburban America. Characterized by sprawling freeways, corporate parks, and homogeneous malls and shopping centers, edge cities have transformed the urban landscape of the United States. Teaford surveys metropolitan areas from the Rust Belt to the Sun Belt and the way in which postwar social, racial, and cultural shifts contributed to the decline of the central city as a hub of work, shopping, transportation, and entertainment. He analyzes the effects of urban flight in the 1950s and 1960s, the subsequent growth of the suburbs, and the impact of financial crises and racial tensions. He then brings the discussion into the present by showing how the recent wave of

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

immigration from Latin America and Asia has further altered metropolitan life and complicated the black-white divide. Engaging in original research and interpretation, Teaford tells the story of this fascinating metamorphosis.

The Metropolitan Revolution

In a novel inspired by actual research into the causes of Gulf War Syndrome, Dr. Linda Franklin, NASA's senior crash site investigator, discovers a secret biochemical weapon developed by the U.S. government to destroy the industrial capacity of rising third-world competitors. Reprint.

The Sexual Revolution in Modern American Literature

National Geographic Almanac of World History

Shows how the US's expansive attempt at cultural globalization helped transform Japan into one of Hollywood's key markets. He also demonstrates the prominent role American cinema played in the political reeducation and reorientation of the Japanese.

The American Irish

Wolfgang Peter May is no stranger to war. As a young child, he fled from his home in Breslau, Germany now Wroclaw, Poland during World War II and witnessed the destruction of Dresden. He immigrated to the United States and eventually joined the US Army. While in the army, he became an intelligence operations officer of the Fourth Armored Division in Germany, and he served in the Vietnam War. These life events profoundly impacted Mays view of war. In *The War Around Us*, he explores and debates the many past and present faces of war. Juxtaposing his personal experiences with world events, May delivers a thought-provoking view of warfare. May discusses World War I, the development of the atomic bomb, war criminals, and the ineffectiveness of political leaders. He even comes to grips with his own war guilt from the Vietnam War and shares his familys experience in Germany during World War II. Mays observations offer a sobering statement of how armed conflict can leave a legacy that will resonate for generations to come. Part memoir and part commentary, *The War Around Us* delivers a hard-hitting, first-person look at the true face of war.

The War Around Us

Uses writings by Puritan authors, testimony from witchcraft trials, and selections

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

from diaries to document Puritan attitudes toward religion, politics and culture

Giap: The General Who Defeated America in Vietnam

America-A Call to Greatness

Healing That Reaches Beyond the Self In this landmark work, Marianne Williamson reminds us that there is a point in everyone's spiritual journey where the search for self-awareness can turn into self-preoccupation. All of us are better off when contemplation of holy principles is at the center of our lives. But it is in applying those principles in our lives that we forge the true marriage between heaven and earth. In the compassionate but clear-eyed prose that has won her so many avid readers, Williamson shows us that the principles which apply to our personal healing also apply to the healing of the larger world. Calling on Americans to turn the compassion in our hearts into a powerful force for social good, Williamson shows us how to transform spiritual activism into a social activism that will in turn transform America into a nation seriously invested in the hope of every child and in the potential of every adult.

The Comanche Empire

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

"This book is a celebration of nearly a century of images of Italians in American motion pictures and their contribution to popular culture." "Hollywood Italians covers the careers of dozens of stars including Rudolph Valentino, Frank Sinatra, Dean Martin, Al Pacino, Robert De Niro, John Travolta, Sylvester Stallone, Marisa Tomei, James Gandolfini, and many others. In addition, the book reviews the work of such Italian American directors as Francis Ford Coppola and Martin Scorsese." "In all, Hollywood Italians discusses scores of films with a concentration on the most important, including their literary and European-cinematic roots. The book is capped by a comprehensive examination of The Godfather and its two sequels, as well as the international television phenomenon The Sopranos."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Opening the Floodgates

Why Prediction Markets Are Good for Business From selecting the lead actress in a Broadway musical, to predicting a crucial delay in the delivery of Boeing's 787 Dreamliner months before the CEO knew about it, to accurately forecasting US presidential elections—prediction markets have realized some amazing successes by aggregating the wisdom of crowds. Until now, the potential for this unique approach has remained merely an interesting curiosity. But a handful of innovative organizations—GE, Google, Motorola, Microsoft, Eli Lilly, even the CIA—has

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

successfully tapped employee insights to change how business gets done. In Oracles, Don Thompson explains how these and other firms use prediction markets to make better decisions, describing what could be the origins of a social revolution. Thompson shows how prediction markets can: • draw on the hidden knowledge of every employee • tap the “intellectual bandwidth” of retired employees • replace surveys • substitute for endless meetings By showing successes and failures of real organizations, and identifying the common roadblocks they’ve overcome, Oracles offers a guide to begin testing expertise against the collective wisdom of employees and the market—all to the benefit of their bottom line.

An American Leprechaun

America on Film, first published in 2002, examines how the notion of 'American' has changed from American cinema up to the 1950s.

The End of the Charter Revolution

The American Irish: A History, is the first concise, general history of its subject in a generation. It provides a long-overdue synthesis of Irish-American history from the beginnings of emigration in the early eighteenth century to the present day. While

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

most previous accounts of the subject have concentrated on the nineteenth century, and especially the period from the famine (1840s) to Irish independence (1920s), *The American Irish: A History* incorporates the Ulster Protestant emigration of the eighteenth century and is the first book to include extensive coverage of the twentieth century. Drawing on the most innovative scholarship from both sides of the Atlantic in the last generation, the book offers an extended analysis of the conditions in Ireland that led to mass migration and examines the Irish immigrant experience in the United States in terms of arrival and settlement, social mobility and assimilation, labor, race, gender, politics, and nationalism. It is ideal for courses on Irish history, Irish-American history, and the history of American immigration more generally.

American Baseball

Often hailed as one of the greatest television series of all time, *The Sopranos* is a product of its time, firmly embedded in the problems of post-industrial, post-ethnic America. In *The Sopranos: Born under a Bad Sign*, Franco Ricci examines the groundbreaking HBO series and its impact as a cultural phenomenon. Ricci demonstrates an encyclopedic knowledge of the series, the genre, and their social context in his analysis of the show's complex themes and characters. He explores *The Sopranos'* deep engagement with problems of race, class, gender, and identity, specifically in its portrayal of the Italian-American experience, consumer

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

and media-driven society, and contemporary psychosocial issues. The series' protagonist, Mafia boss and patriarch Tony Soprano, in many ways embodies the anxieties of our age. Focusing on Tony's internal struggles and interactions with his therapist, family, and associates, Ricci traces this archetypal character's existential conflicts and sheds light on his search for self, connection, and meaning. Comprehensive in scope and sophisticated in approach, *The Sopranos: Born under a Bad Sign* is richly rewarding reading for anyone with an interest in the popular television drama, both as entertainment and social commentary.

Dear White America

This collection makes available key articles on the Japan-North American relationship from the Meiji era to the present. Volume one focuses on the necessity of Japanese modernization post-1868 and examines the build-up to the Japanese bombing of Pearl Harbour. Volume two looks at the post-war period, in which US forces occupied Japan and were instrumental in its rebuilding as an economic superpower. In the years following this Japan and North America enjoyed a close yet occasionally fraught relationship, as competitors and allies. Volume two also examines the cultural ramifications of the influence of North America on Japan, and vice versa. Titles also available in this series include, *Japan and South East Asia: International Relations* (2001, 2 volumes, 295) and the forthcoming title *Japanese Linguistics* (2005, 3 volumes, c.425).

The Complete Idiot's Guide to American Literature

The Great American Biotic Interchange

A page-turning narrative of privacy and the evolution of communication, from broken sealing wax to high-tech wiretapping

World Order

General Vo Nguyen Giap was the commander in chief of the communist armed forces during two of his country's most difficult conflicts—the first against Vietnam's colonial masters, the French, and the second against the most powerful nation on earth, the United States. After long and bloody conflicts, he defeated both Western powers and their Vietnamese allies, forever changing modern warfare. In *Giap*, military historian James A. Warren dives deep into the conflict to bring to life a revolutionary general and reveal the groundbreaking strategies that defeated world powers against incredible odds. Synthesizing ideas and tactics from an extraordinary range of sources, *Giap* was one of the first to realize that war is more than a series of battles between two armies and that victory can be won through the strength of a society's social fabric. As America's wars in the Middle

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

East rage on, this is an important and timely look at a man who was a master at defeating his enemies even as they thought they were winning.

America'S Irresistible Attraction

You're no idiot, of course. You know that Samuel Clemens had a better-known pen name, Moby Dick is a famous whale, and the Raven only said, "Nevermore." But when it comes to understanding the great works of Mark Twain, Herman Melville, and Edgar Allan Poe, you'd rather rent the videos than head to your local library. Don't tear up your library card yet! The Complete Idiot's Guide® to American Literature teaches you all about the rich tradition of American prose and poetry, so you can fully appreciate its magnificent diversity.

The Billboard Book of Number One Hits

Growing American Rubber explores America's quest during tense decades of the twentieth century to identify a viable source of domestic rubber. Straddling international revolutions and world wars, this unique and well-researched history chronicles efforts of leaders in business, science, and government to sever American dependence on foreign suppliers. Mark Finlay plots out intersecting networks of actors including Thomas Edison, Henry Ford, prominent botanists,

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

interned Japanese Americans, Haitian peasants, and ordinary citizens—all of whom contributed to this search for economic self-sufficiency. Challenging once-familiar boundaries between agriculture and industry and field and laboratory, Finlay also identifies an era in which perceived boundaries between natural and synthetic came under review. Although synthetic rubber emerged from World War II as one solution, the issue of ever-diminishing natural resources and the question of how to meet twenty-first-century consumer, military, and business demands lingers today.

Germany, 1858-1990

As the world approaches the year 2000, many societies are experiencing an unprecedented growth in millenarian movements that anticipate an imminent and total transformation of the world. Many of these movements have been associated with violence, either as a means for producing change or as a response to confrontations with state authority. This book draws together research on this topic from political science, psychology, sociology and history in an attempt to understand the relationship between millenarian movements and episodes of violence.

The Canadian Charter of Rights and Freedoms became an entrenched part of the Canadian Constitution on April 17, 1982. The Charter represented a significant change in Canadian constitutional order and carried the courts, and the Supreme Court in particular, decisively into some of the biggest controversies in Canadian politics. Although the impact of the Charter on Canadian law and society was profound, a new status quo has been established. Even though there will be future Charter surprises and decisions that will claim news headlines, Peter J. McCormick argues that these cases will be occasional rather than frequent, and that the Charter "revolution" is over. Or, as he puts it in his introduction, "I will tell a story about the Charter, about the big ripples that have gradually but steadily died away such that the surface of the pond is now almost smooth." The End of the Charter Revolution explores the Canadian Charter of Rights and Freedoms, beginning with a general historical background, followed by a survey of the significant changes

File Type PDF Opening The Floodgates Why America Needs To Rethink Its Borders And Immigration Laws Critical America

brought about as Charter decisions were made. The book addresses a series of specific cases made before the Dickson, Lamer, and McLachlin Courts, and then provides empirical data to support the argument that the Charter revolution has ended. The Supreme Court has without question become "a national institution of the first order," but even though the Charter is a large part of why this has happened, it is not Charter decisions that will showcase the exercise of this power in the future.

The American Journal of Psychology

Updated with fresh examples throughout, the extensively illustrated third edition of Paul Siegel's *Communication Law in America* is a comprehensive, easy-to-follow overview of the complicated ways in which U.S. law determines who may say what to (and about) whom. Beginning with a clear explanation of the structure and history of the U.S. legal system, Siegel looks at how and why this country has come to place value on the freedom of speech, perhaps above other, sometimes competing freedoms. He covers the key legal concerns affecting media today, including First Amendment principles, common laws, constitutional considerations, libel laws, invasion of privacy, copyright and trademark, access to government information, covering the judiciary, protecting news sources, advertising, sexual messages and obscenity laws, broadcast regulations, the Internet, and more.

Growing American Rubber

Two rather different elements combine to explain the origin of this volume: one scientific and one personal. The broader of the two is the scientific basis—the time for such a volume had arrived. Geology had made remarkable progress toward an understanding of the physical history of the Caribbean Basin for the last 100 million years or so. On the biological side, many new discoveries had elucidated the distributional history of terrestrial organisms in and between the two Americas. Geological and biological data had been combined to yield the timing of important events with unprecedented resolution. Clearly, when each of two broad disciplines is making notable advances and when each provides new insights for the other, the rewards of cross-disciplinary contacts increase exponentially. The present volume represents an attempt to bring together a group of geologists, paleontologists and biologists capable of exploiting this opportunity through presentation of an interdisciplinary synthesis of evidence and hypothesis concerning interamerican connections during the Cretaceous and Cenozoic. Advances in plate tectonics form the basis for a modern synthesis and, in the broadest terms, dictate the framework within which the past and present distributions of organisms must be interpreted. Any scientific discipline must seek tests of its conclusions from data outside of its own confines.

Screening Enlightenment

Questioning popular belief, a historian and re-examines what exactly led to the British Empire's loss of the American Revolution. The loss of America was an unexpected defeat for the powerful British Empire. Common wisdom has held that incompetent military commanders and political leaders in Britain must have been to blame, but were they? This intriguing book makes a different argument. Weaving together the personal stories of ten prominent men who directed the British dimension of the war, historian Andrew O'Shaughnessy dispels the incompetence myth and uncovers the real reasons that rebellious colonials were able to achieve their surprising victory. In interlinked biographical chapters, the author follows the course of the war from the perspectives of King George III, Prime Minister Lord North, military leaders including General Burgoyne, the Earl of Sandwich, and others who, for the most part, led ably and even brilliantly. Victories were frequent, and in fact the British conquered every American city at some stage of the Revolutionary War. Yet roiling political complexities at home, combined with the fervency of the fighting Americans, proved fatal to the British war effort. The book concludes with a penetrating assessment of the years after Yorktown, when the British achieved victories against the French and Spanish, thereby keeping intact what remained of the British Empire. "A remarkable book about an important but curiously underappreciated subject: the British side of the American Revolution. With meticulous scholarship and an eloquent writing style,

and foreign, societal and cultural issues grouped together chronologically. The readings afford students compelling and sometimes startling insights into the nation's postwar adaptation to its new position of global power and responsibility, wealth, and rapid social change; on through years of energy and ambition, conflict and tragedy, to the post-Vietnam malaise and the rise of Ronald Reagan, the frenzied nineties, and the arrival of the new millennium. Each chapter includes an introduction that sets the documents in historical context, a biographical sketch of a significant person of the time, study questions, and suggestions for further reading.

The American State Reports

Part travelogue and part memoir, John S. Dingas newest book is a sequel to *Navigating the Contradictions of America* and explores disparities between America's past and present, from the perspective of an immigrant. Featuring characters both real and fictional, Dingas shares his observations about the realities of making a new life in a new country, with an occasional flashback to the former home. The desire to immigrate to America is one shared by people all over the world, people who are often unaware of what it takes to thrive in a competitive, capitalist world where nothing is the same as before. Settling down in a new environment and navigating the politics and stresses of finding a job are just two of the aspects of culture shock a new immigrant will face. Expectations and

responsibilities from those back home also add to the new immigrants challenges, and Dinga offers his suggestions on how to thrive under those stresses as well. He speaks not only to the potential immigrant but to those officials in power on either side of the process as well. Learning to make the right choices when presented with so many options is another life lesson addressed. The American society, freedoms, choices, and government are envied in many corners of the world, and Dinga explores how that perception influences the decision to start the journey. People need to know that living in America has its challengeschallenges not often imagined when the desire to immigrate pushes them to cross deserts, oceans, and unfriendly skies.
