affairs. It seeks to move beyond the simplistic narratives and overly impassioned polemics which swamp the discourse on the subject in the media, on the internet, and in popular nonfiction, by acting as a vessel for scholarly research on religion. The book presents a balanced analysis of the multifaceted roles taken on by religions, and religious actors, in global politics. Contributors: Stephen Dawson, Jodok Troy, Gertjan Dijkink, John A. ### **The Legend of Polaris**

Of all law enforcement officers, game wardens inspire the most awe in the mind of the public. Working day and night, often in challenging terrain and bad weather, game wardens typically operate alone in remote areas and must understand the natural rhythms and cycles of the creatures and ecosystems they protect, all while encountering and sometimes interacting with people who are usually armed. Outdoors writer Jerald Horst spent one year riding on patrol with game wardens in the Louisiana Department of Wildlife and Fisheries. In riveting episodes, he chronicles their adventures, providing an up-close view of this demanding job and the band of men who take it on. From the piney woods of the northwestern part of the state to the soggy Mississippi River delta and beyond to the deep waters of the Gulf of Mexico, Horst accompanied dozens of wildlife agents, observing them, asking questions, sometimes sitting for hours with no action, and occasionally fearing for his life, as in the case of one speedboat chase. His candid observations show that the work of agents is often mentally and physically challenging, sometimes tedious, and -- more often than would be expected -- humorous, but

never dull. Whether wardens are conducting routine checks of law-abiding sportsmen or in pursuit of suspected poachers, the unanticipated is the norm. A seemingly ordinary stop can turn deadly in an instant. As one officer told Horst "complacency can get you killed." More than a job, serving as a game warden is a way of life, and Horst relates how the agents he met came to their calling. An objective look at a heroic career, Game Warden offers an enthralling portrait of both the profession and the men behind the badge.

Every year around the globe, people cross paths with avalanches-some massive, some no deeper than a pizza box-often with deadly results. Avalanche expert Jill Fredston stalks these so-called freaks of nature, forecasting where and when they will strike, deliberately triggering them with explosives, teaching potential victims how to stay alive, and leading rescue efforts when tragedy strikes. Having spent decades trying to keep avalanches and people apart, Fredston brings them together unforgettably in Snowstruck. From a rare store of personal experience, she conveys a panorama of perspectives: a skier making what may prove his final decision, a victim buried so tightly that he can't move a finger, rescuers racing both time and weather, forecasters treading the line between reasonable risk and danger. Seamlessly interweaving these accounts, Fredston brings to life the awesome forces of nature that can turn the mountains deadly-and the equally

Preserving New York is the largely unknown inspiring story of the origins of New York City's nationally acclaimed landmarks law. The decades of struggle behind the law, its intellectual origins, the men and women who fought for it, the forces that shaped it, and the buildings lost and saved on the way to its ultimate passage, span from 1913 to 1965. Intended for the interested public as well as students of New York City history, architecture, and preservation itself, over 100 illustrations help reveal a history richer and more complex than the accepted myth that the landmarks law sprang from the wreckage of the great Pennsylvania Station. Images include those by noted historic photographers as well as those from newspaper accounts of the time. Forgotten civic leaders such as Albert S. Bard and lost buildings including the Brokaw Mansions, are unveiled in an extensively researched narrative bringing this essential episode in New York's history to future generations tasked with protecting the city's landmarks. For the first time, the story of how New York won the right to protect its treasured buildings, neighborhoods and special places is brought together to enjoy, inform, and inspire all who love New York.

balance. But even the wild child must grow up, and when everything Beryl knows and trusts dissolves, she is catapulted into a string of disastrous relationships. Beryl forges her own path as a horse trainer, and her uncommon style attracts the eye of the Happy Valley set, a decadent, bohemian community of European expats who also live and love by their own set of rules. But it's the ruggedly charismatic Denys Finch Hatton who ultimately helps Beryl navigate the uncharted territory of her own heart. The intensity of their love reveals Beryl's truest self and her fate: to fly. Set against the majestic landscape of early-twentieth-century Africa, McLain's powerful tale reveals the extraordinary adventures of a woman before her time, the exhilaration of freedom and its cost, and the tenacity of the human spirit.
