Business Analysis with Microsoft Excel

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

"Managing suppliers can contribute enormous savings to a company's bottom line, and few companies have done it better than Nokia. In " Profit-Focused Supplier Management," Pirkko Ostring details for the first time the supplier management program that has helped make Nokia the world leader in mobile communications. Drawing from her experience at Nokia, Ostring reveals how to understand and maximize relationships with suppliers to help any company minimize risk and improve profitability in any industry. "Profit-Focused Supplier Management" will motivate top management to uncover more information about their suppliers, enable purchasing managers to select better suppliers, and give business controllers a tool for limiting risks and improving their companies' financial standing. "Profit-Focused Supplier Management" is the first book written to address suppliers as ongoing business management opportunities. The book uses factual examples from companies including Intel and Marconi that provide an easy and interesting way to adopt the theoretical frameworks into practical formats. Additionally, fictional cases, based on the author's findings, illustrate the importance of in-depth analyses."
