Pocket Study Guide (Black Print): Surviving Chemistry Regents Exam

Advanced Bioelectronic Materials

Physical Setting - Chemistry Review is compliant with the Physical Setting/Chemistry Core Curriculum. The topics are written so that they can be used in any order a teacher may deem logical. Each unit has questions of the types contained in the Regents Examinations: Parts A, B, and C - Constructed Response. There are appendices containing, in addition to the reference tables, a section on the historical development of chemistry, a section on the use of the new chemistry reference tables, and a section on significant figures, exponential notation, graphing and functions, as well as percent error. There are also supplemental constructed response questions and the NYS practice Regents Exams are included. The book is in an enlarged format with a larger typeface than has been used in the past. All aspects are calculated to facilitate efficient review of the material contained.
