Rhinoceros Success

There are certain occupations which each individual is more efficient at than any other. Psychologists tell us that we are all entitled to earn our bread at labor that is pleasing to us, and furthermore that we cannot be contented at any other kind. Economists tell us that the man who is happy at his work produces far more than his discontented neighbor, and does so with less effort and less fatigue. Everyone should, work at a job, occupation, or profession that he likes. Yet, inconsistent as it seems, eighty percent of the people of the world are dissatisfied with their jobs. The reader of these lines may be among the number. In brief, the work at which you are most efficient is the kind of work that you like to do and at which you can accomplish the most. It is likewise the work in which you can find the most happiness, make the most money, achieve the greatest measure of success, and do the most good for your fellow man.

Is the millionaire next door still out there today? The latest research from Dr. Thomas J. Stanley and his daughter, Dr. Sarah Stanley Fallaw, confirms that, yes, the millionaire next door is alive and well. And he's achieving his financial objectives much the same way he always has: by living below his means, being a contrarian in a maelstrom of hyper-consumption, and being disciplined in reaching his financial goals. The book examines wealth in America 20 years after Dr. Stanley's groundbreaking work on self-made affluence. While a new generation of household financial managers are being inundated with the proliferation financial advice, *The Next Millionaire Next Door* provides readers with an analysis of what it takes to achieve wealth with data-based conclusions and evidence from those who have built wealth on their own over the last two decades. In this current work, the authors detail how specific decisions, behaviors, and characteristics align with the discipline of wealth building, covering areas such as consumption, budgeting, careers, investing, and financial management in general. Through case studies, survey research, and a careful examination of quantitative studies of wealth, the authors illustrate what it takes to achieve financial success today, regardless of market conditions or rising costs.

MONEY Master the Game

In the world of leadership and professional development, it seems discussions surrounding this idea of 'executive presence' (what is it, how to get it, why you need it, etc.), is the 'new black'. *Boss Presence* is NOT an addition to that conversation. Instead, *Boss Presence* starts from the premise that we already have 'it' (i.e., all the 'presence' we need to win). Indeed, *Boss Presence* dares to boldly declare that we have already won -- that we were created to REIGN -- that we are in fact, royalty. Thus, in *Boss Presence*, the author Dawn R. Rosemond, Esq., endeavors to convince readers (whom she calls 'bad chicks'), to take up their rightful positioning and own their royalty. Through humor and the transparent sharing of her life experiences "peeped out" she says from 20+ years of being a woman of color practicing in 'big law,' you'll gain some

effective tips on how to REIGN at work, and beyond.

Building Wealth One House at a Time: Making it Big on Little Deals

J. Earl Shoaff, Jim Rohn's personal mentor, gives the presentation that changed Jim's life! Anyone who ever heard Jim Rohn speak, knows the impact that Earl Shoaff had on his life. Here is a transcription of the recording of the presentation by Earl Shoaff that changed Jim's life and provides the secrets to his success. By the time Jim Rohn reached the age of 25, he was married, had a family and worked as a stock clerk at Sears earning \$57 a week take home pay. Finding himself falling behind on his bills, and with nothing in the bank to fall back on, he knew he wanted more out of life but had no idea on how to make it happen. Then something happened to him that changed his life forever and gave him the answers he was looking for. The same good fortune that happened to Jim all those years ago is about to happen to you! One of Jim's friends told him about a man he had gone to work for. This man was very rich and wise. He had an incredible philosophy about life and he was easy to talk to. His friend talked about this man so much that Jim's curiosity got the better of him and he went to hear what this man had to say. Jim walked into the room and took a seat. He really didn't know what to expect, but he kept an open mind and listened intently as the speaker opened his eyes to a world he never knew existed. A world where you could truly be anything you wanted to be and you could have anything you wanted to have! Jim said of the experience, "To this day, I can't tell you exactly what he said, I just knew that I would have given anything to be like him." Then, standing at the back of the room, he got an idea. He thought that, somehow, if he could just get around this man, maybe he could learn the secrets of wealth and happiness.

I Will Teach You to Be Rich, Second Edition

Written more than a century ago-The Richest Man In Babylon-is one of the greatest financial books of all time. In language as simple as that of the Bible, this book provides many timeless lessons about spending, saving, and investing to build wealth that are as applicable today as when it was first written. The book is set in ancient Babylon, and follows the story of Arkad, the richest man in all of Babylon, imparting his wisdom to a younger man, Bansir, who wishes to become wealthy. It lays out the basics of personal finance - spend less than you earn, save 10% of your income, and invest wisely - in an engaging parable format (stories told to teach a lesson). The book teaches that if you follows these basic lessons, work hard, and continue improving your skills, you can build future wealth through passive streams of income.

The Legacy Journey

What does the Bible really say about money? About wealth? How much does God expect you to give to others? How does wealth affect your friendships, marriage, and children? How much is “enough”? There’s a lot of bad information in our culture today about wealth—and the wealthy. Worse, there’s a growing backlash in America against our most successful citizens, but why? To many, wealth is seen as the natural result of hard work and wise money management. To others, wealth is viewed as the ultimate, inexcusable sin. This has left many godly men and women confused about what to do with the resources God’s put in their care. They were able to build wealth using God’s ways of handling money, but then they are left feeling guilty about it. Is this what God had in mind?

The Magic Story

“THE MOST NOTABLE PERSONAL FINANCE WRITING OF 2013 . . . WAS A HANDWRITTEN 4 × 6 INDEX CARD.” —MINNEAPOLIS STAR TRIBUNE TV analysts and money managers would have you believe your finances are enormously complicated, and if you don’t follow their guidance, you’ll end up in the poorhouse. They’re wrong. When University of Chicago professor Harold Pollack interviewed Helaine Olen, an award-winning financial journalist and the author of the bestselling Pound Foolish, he made an offhand suggestion: everything you need to know about managing your money could fit on an index card. To prove his point, he grabbed a 4" x 6" card, scribbled down a list of rules, and posted a picture of the card online. The post went viral. Now, Pollack teams up with Olen to explain why the ten simple rules of the index card outperform more complicated financial strategies. Inside is an easy-to-follow action plan that works in good times and bad, giving you the

tools, knowledge, and confidence to seize control of your financial life.

In this clear and engaging basic guide to managing your finances, you will learn: - How to trick your dumb brain into saving more, without giving up fun - How to make a bona fide grown-up budget - Why you need to forget what you've learned about credit - How to negotiate a raise - Why buying a house (probably) won't make you rich - The one super-simple investment you need With helpful exercises, informative illustrations (also: kittens) and straightforward advice, this book doesn't shy away from the psychology of money, and is empowering, humorous and helpful. NEW YORK TIMES BESTSELLER - NATIONAL BOOK AWARD FINALIST "Disturbing and riveting! It will sear your soul." —Dave Eggers, *New York Times Book Review* SHELF AWARENESS'S BEST BOOK OF 2017 Named a best book of the year by Wall

Street Journal, The Boston Globe, San Francisco Chronicle, GQ, Time, Newsday, Entertainment Weekly, Time Magazine, NPR's Maureen Corrigan, NPR's "On Point," Vogue, Smithsonian, Cosmopolitan, Seattle Times, Bloomberg, Lit Hub's "Ultimate Best Books," Library Journal, Paste, Kirkus, Slate.com and Book Browse From New Yorker staff writer David Grann, #1 New York Times best-selling author of *The Lost City of Z*, a twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history. In the 1920s, the richest people per capita in the world were members of the Osage Indian nation in Oklahoma. After oil was discovered beneath their land, they rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. Her relatives were shot and poisoned. And it was just the beginning, as more and more members of the tribe began to die under mysterious circumstances. In this last remnant of the Wild West—where oilmen like J. P. Getty made their fortunes and where desperadoes like Al Spencer, the “Phantom Terror,” roamed—many of those who dared to investigate the killings were themselves murdered. As the death toll climbed to more than twenty-four, the FBI took up the case. It was one of the organization’s first major homicide investigations and the bureau badly bungled the case. In desperation, the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to unravel the mystery. White put together an undercover team, including one of the only American Indian agents in the bureau. The agents infiltrated the region, struggling to adopt the latest techniques of detection. Together with the Osage they began to expose one of the most chilling conspiracies in American history. In *Killers of the Flower Moon*, David Grann revisits a shocking series of crimes in which dozens of people were murdered in cold blood. Based on years of research and startling new evidence, the book is a masterpiece of narrative nonfiction, as each step in the investigation reveals a series of sinister secrets and reversals. But more than that, it is a searing indictment of the callousness and prejudice toward American Indians that allowed the murderers to operate with impunity for so long. *Killers of the Flower Moon* is utterly compelling, but also emotionally devastating.

Angel in the Outhouse

"Take one look at him, listen to him speak, watch him act, and you'll follow him. Why? Because throughout his life and military career, Sergeant Major Al McMichael has proven himself to be a visionary who develops and nurtures ideas to fruition. Anyone who is charged with leading, teaching, mentoring, managing or caring for people should read the inspiring story of Al McMichael in *Leadership*." -- Dean Mark Pizzo, National Defense University in Washington, D.C. There is only one sergeant major of the Marine Corps at any one time. It is the highest rank an enlisted Marine can achieve. From 1999 to 2003 the USMC's 14th sergeant major, and the first African American to attain the position, was Alford L. McMichael. Now, Sergeant Major McMichael shares how the values taught to him around the dinner table and in the hard times of his dirt-poor Southern childhood took him to the top of his field and made him one of the most respected and valued leaders of our

time. This is not a guide that speaks only to military personnel. This is not a guide that only CEOs will cherish. The magic of McMichael's life lessons is that anyone can relate to and build success from them, because McMichael himself learned them in the most modest of beginnings: growing up in the 1950s with nine siblings in a single-parent, one-story home in Hot Springs, Arkansas. It was the best training he could have received for the Marines, and with down-to-earth practicality and an engaging anecdotal style, McMichael demonstrates how the morals, work ethic and self-discipline he learned from his mother and grandmother gave him the life skills for groundbreaking success. Practice dinner table values
Find your compass
Rely on intelligence over emotion
Prepare so you can prosper
Impress yourself first
Give power to your people
Lead from the heart
These are among the pragmatic and distinctive nuggets of truth McMichael imparts in Leadership, and whatever your walk in life, they are the foundation for making great things happen. Are you ready to experience the phenomenal results when you ask the best of yourself and those around you?
