Survey of a Route for the Southern Pacific R. R., on the 32nd Parallel

The Southern Pacific Railroad is California's railroad. As the Central Pacific, it bored and blasted its way east from Sacramento, across the towering High Sierra, meeting with the Union Pacific at Promontory, Utah, completing the Transcontinental Railroad in 1869, and profoundly changing the growing United States. By the early 20th century, the Southern Pacific was a rail colossus, stretching from San Francisco Bay to the Gulf of Mexico. Yet the Southern Pacific remained essentially Californian. Its rail lines gave muscle to the lovely California coast, the fertile San Joaquin and Imperial Valleys, and the timber industry of the north coast. Yet for all its might and majesty, for many Californians the Southern Pacific was a smaller, more intimate part of the fabric of their daily lives.

Whether it's the legends about breadfruit trees or ghosts inhabiting inland Tahiti, the endangered delicacies to avoid or the gift-giving protocol when invited to a local's home, how to tour a vanilla plantation on Raiatea or when to find the Nouméa flame trees "catch fire" in hues of red and orange, South Pacific Handbook covers everything about this region of boundless ocean and scarce land. Drawing on two decades of editions and incorporating the comments of countless previous readers, this user-friendly guide extends beyond the hot spots and steers readers off the beaten path throughout Polynesia and Melanesia.

The Pacific Crest National Scenic Trail (PCT) traces a 2,650-mile route from the California-Mexico border north to the border of Washington and Canada. While many hikers attempt a “thru-hike” every year, beginning in Campo, California and connecting their footsteps all the way to Manning Park, B.C., even more people enjoy “section hiking” – tackling the trail in bits and pieces. This guidebook serves as a road map to section hiking the Southern California portion of the PCT, beginning at its southern terminus in Campo and ending 942.5 miles north at Tuolumne Meadows in Yosemite National Park. From the magical cactus gardens of the Mojave Desert to the snowy peaks of the High Sierra, this book covers one of the most biologically and geologically diverse portions of the PCT. Author Shawnté Salabert serves as your personal trail guide along the way, offering informative route descriptions, interesting sidebars, and colorful stories that will deepen your experience on this iconic trail, whether you’re headed out for a weekend, a week, or a month. Each volume of this new series focuses on section-by-section pieces of the PCT and includes the following features: •

- Inspirational full-color guides with over 150 color photographs in each
- Trail sections of 4- to 10-night trips
- Detailed camp-to-camp route descriptions
- Easy-to-understand route maps and elevation profiles
- Details on specific campsites and most-reliable water sources
- Road access to and from various trail sections
- Info on permits, hazards, restrictions, and more
- Alternate routes and connecting trails
- Clear references to the PCT’s established system of section letters, designating trail segments from Mexico to Canada—so you can easily cross-reference the guides

Biennial report of the Bureau of Labor Statistics of the State of California. v. 14, 1909/10

Once there was an endless redwood wilderness, populated by only the hardiest of people. Then, the sudden blast of a steam whistle echoed across the canyons and the valleys-the iron horse had arrived in the Santa Cruz Mountains. Driven by the need to transport materials like lumber and lime to the rest of the world, the railroad brought people seeking out new ways of living, from the remote outposts along Bean and Zayante Creeks to the bustling towns of Los Gatos and Santa Cruz. Bridges and tunnels marked the landscape, and each new station, siding and spur signaled activity: businesses, settlements, and vacation spots. Summer resorts in the mountains evolved into sprawling residential communities which formed the backbone of the towns of the San Lorenzo Valley today. Much of the history of the locations along the route has since been forgotten. This is their story. Chapters on the History of the Southern Pacific

A Missionary Voyage to the Southern Pacific Ocean, Performed in the Years 1796, 1797, 1798, in the Ship Duff, Commanded by Captain James Wilson

Historian Harry Gailey offers a fresh one-volume treatment of the vast Pacific theater in World War II, examining in detail the performance of Japanese and Allied naval, air, and land forces in every major military operation. The War in the Pacific begins with an examination of events leading up to World War II and compares the Japanese and American economies and societies, as well as the chief combatants' military doctrine, training, war plans, and equipment. The book then chronicles all significant actions - from the early Allied defeats in the Philippines, the East Indies, and New Guinea; through the gradual improvement of the Allied position in the Central and Southwest Pacific regions; to the final agonies of the Japanese people, whose leaders refused to admit defeat until the very end. Gailey gives detailed treatment to much that has been neglected or given only cursory mention in previous surveys. The reader thus gains an unparalleled overview of operations, as well as many fresh insights into the behind-the-scenes bickering between the Allies and the interservice squabbles that dogged MacArthur and Nimitz throughout the war. NOTE: This edition does not include a photo insert.

The Official Railway Guide

Shedding daylight on rail travel through the great American Southwest Well into the 1950s, the Southern Pacific operated an extensive fleet of colorful (a color scheme nicknamed daylight) and highly-regarded passenger trains that became the preferred mode of travel for the West Coast's nouveau riche film stars and businesspeople. This authoritative illustrated history covers the various forms of motive power used, the rolling stock and the SP's services. Archival photographs depict the trains on their routes from Portland to the Bay Area, Los Angeles and on through the desert Southwest to Texas and New Orleans. Also depicted are SP uniforms, dinnerware, stations and terminals, and interior views of cars. Also featured are period advertisements, timetables, and route maps, and coverage of the SP's cooperative efforts with Chicago & North Western, Union Pacific, and Rock Island in forwarding trains overland to Utah, Chicago and St. Louis.
