This book offers a glimpse of new perspectives on how philosophy performs in the gaps between thinking and acting. Bringing together perspectives from world-renowned contemporary philosophers and theorists – including Judith Butler, Alphonso Lingis, Catherine Malabou, Jon McKenzie, Martin Puchner, and Avital Ronell – this book engages with the emerging field of performance philosophy, exploring the fruitful encounters being opened across disciplines by this constantly evolving approach. Intersecting dramatic techniques with theoretical reflections, scholars from diverse geographical and institutional locations come together to trace the transfers between French theory and contemporary Anglo-American philosophical and performance practices in order to challenge conventional approaches to knowledge. Through the crossings of different voices and views, the reader will be led to explore the in-between territories where performance meets traditionally philosophical tools and mediums, such as writing, discipline, plasticity, politics, or care.

The peoples of Sri Lanka have participated in far-flung trading networks, religious formations, and Asian and European empires for millennia. This interdisciplinary volume sets out to draw Sri Lanka into the field of Asian and Global History by showing how the latest wave of scholarship has explored the island as a 'crossroads', a place defined by its openness to movement across the Indian Ocean. Experts in the history, archaeology, literature and art of the island from c.500 BCE to c.1850 CE use Lankan material to explore a number of pressing scholarly debates. They address these matters from their varied disciplinary perspectives and diverse array of sources, critically assessing concepts such as ethnicity, cosmopolitanism and localisation, and elucidating the subtle ways in which the foreign may be resisted and embraced at the same time. The individual chapters, and the volume as a whole, are a welcome addition to the history and historiography of Sri Lanka, as well as studies of the Indian Ocean region, kingship, colonialism, imperialism, and early modernity.

The sad truth is that most women end up faking an orgasm to avoid the awkward tension when her male knows he hasn't got her there. But not anymore. You now finally understand that the female orgasm is about more than just the physical act and you now know pretty much all you're going to need to get to that wonderful place." "I want you to remember exactly that. The orgasm isn't purely physical; the emotional and psychological elements are still so, so important. It's possible for a person to orgasm without even being touched. It's hard, sure, but it is certainly possible. I just need to demonstrate to you the significance of the mind here. It's a key part of getting a female to her ultimate climax. Think about tantric sex. Now, you might not know a lot about tantric sex, but the idea is that sex is considered virtually spiritual in nature - it's linked to a higher state of being. So clearly sex is more than the mere physical act of stimulating the nerves." "If you're successful here, then the chances are that she won't have anything to say - she will quite literally become speechless! When a female experiences such a hard orgasm she physically won't be able to say anything! She will be so overwhelmed by the sensation that there is no need for words. If you accomplish this then well done, you've done what very few guys ever manage to accomplish because they simply don't know or understand how to. But you do." Want to know more and learn 101 exciting sex positions? You know what to do.

## Playing It My Way

The Kama Sutra, is an ancient Indian Hindu text written by Vatsyayana. It is widely considered to be the standard work on human sexual behavior in Sanskrit

literature. A portion of the work consists of practical advice on sexual intercourse. It is largely in prose, with many inserted anustubh poetry verses. "Kama" which is one of the four goals of Hindu life, means desire including sexual desire the latter being the subject of the textbook, and "sutra" literally means a thread or line that holds things together, and more metaphorically refers to an aphorism (or line, rule, formula), or a collection of such aphorisms in the form of a manual.

This book is a ground-breaking intervention on Dalit politics in India. Challenging received ideas, it uses a comparative framework to understand Dalit mobilisations for political power, social equality and justice. The monograph traces the emergence of Dalit consciousness and its different strands in north and south India — from colonial to contemporary times — and interrogates key notions and events. These include: the debate regarding core themes such as the Hindu-Muslim cleavage in the north and caste in the south; the extent to which Dalits and other backward castes (OBC) base their anti-Brahminism on similar ideologies; and why Dalits in Uttar Pradesh (north India) succeeded in gaining power while they did not do so in the region of erstwhile Andhra Pradesh (south India), where Dalit consciousness is more evolved. Drawing on archival material, fieldwork and case studies, this volume puts forward an insightful and incisive analysis. It will be of great interest to researchers and scholars of Dalit studies and social exclusion, Indian politics and sociology.

With the recent release of spectacular blockbuster films from *Gladiator* to *The Lord of the Rings* trilogy, the epic has once again become a major form in contemporary cinema. This new volume in the AFI Film Readers series explores the rebirth of the epic film genre in the contemporary period, a period marked by heightened and conflicting appeals to national, ethnic, and religious belonging. The original essays in this volume explore the tension between the evolving global context of film production and reception and the particular provenance of the epic as an expression of national mythology and aspirations, challenging our understanding of epics produced in the present as well as our perception of epic films from the past. The contributors will explore new critical approaches to contemporary as well as older epic films, drawing on ideas from cultural studies, historiography, classics, and film studies.

This book considers the remarkable transformations that have taken place in India since 1980, a period that began with the assassination of the formidable Prime Minister Indira Gandhi. Her death, and that of her son Rajiv seven years later, marked the end of the Nehru-Gandhi era. Although the country remains one of the few democracies in the developing world, many of the policies instigated by these earlier regimes have been swept away to make room for dramatic alterations in the political, economic and social landscape. Sumit Ganguly and Rahul Mukherji, two leading political scientists of South Asia, chart these developments with particular reference to social and political mobilization, the rise of the BJP and its challenge to Nehruvian secularism and the changes to foreign policy that, in combination with its meteoric economic development, have ensured India a significant place on the world stage.

We all have dreams—things we fantasize about doing and generally never get

around to. This is the story of Azar Nafisi's dream and of the nightmare that made it come true. For two years before she left Iran in 1997, Nafisi gathered seven young women at her house every Thursday morning to read and discuss forbidden works of Western literature. They were all former students whom she had taught at university. Some came from conservative and religious families, others were progressive and secular; several had spent time in jail. They were shy and uncomfortable at first, unaccustomed to being asked to speak their minds, but soon they began to open up and to speak more freely, not only about the novels they were reading but also about themselves, their dreams and disappointments. Their stories intertwined with those they were reading—*Pride and Prejudice*, *Washington Square*, *Daisy Miller* and *Lolita*—their *Lolita*, as they imagined her in Tehran. Nafisi's account flashes back to the early days of the revolution, when she first started teaching at the University of Tehran amid the swirl of protests and demonstrations. In those frenetic days, the students took control of the university, expelled faculty members and purged the curriculum. When a radical Islamist in Nafisi's class questioned her decision to teach *The Great Gatsby*, which he saw as an immoral work that preached falsehoods of "the Great Satan," she decided to let him put *Gatsby* on trial and stood as the sole witness for the defense. Azar Nafisi's luminous tale offers a fascinating portrait of the Iran-Iraq war viewed from Tehran and gives us a rare glimpse, from the inside, of women's lives in revolutionary Iran. It is a work of great passion and poetic beauty, written with a startlingly original voice. From the Hardcover edition.

Widowed for two years from a man who felt that anything besides the missionary position was dirty, Harper Shaw is ready to move on. The first step to feeling alive again is sex. Hot, dirty, black-out-from-orgasm sex. And who better to provide it than the brooding, sexy, tatted bad boy-turned-man she's known for years? One night to introduce her to a passion that makes both doubt if it will be enough"

One film out of every five made anywhere on earth comes from India. From its beginnings under colonial rule through to the heights of Bollywood, Indian Cinema has challenged social injustices such as caste, the oppression of Indian women, religious intolerance, rural poverty, and the pressures of life in the burgeoning cities. And yet, the Indian movie industry makes only about five percent of Hollywood's annual revenue. In this Very Short Introduction Ashish Rajadhyaksha delves into the political, social, and economic factors which, over time, have shaped Indian Cinema into a fascinating counterculture. Covering everything from silent cinema through to the digital era, Rajadhyaksha examines how the industry reflects the complexity and variety of Indian society through the dramatic changes of the 20th century, and into the beginnings of the 21st. ### **Even Greater Pb**

Bestselling author Barbara Kingsolver returns with her first nonfiction narrative that will open your eyes in a hundred new ways to an old truth: You are what you eat. "As the U.S. population made an unprecedented mad dash for the Sun Belt, one carload of us paddled against the tide, heading for the Promised Land where water falls from the sky and green stuff grows all around. We were about to begin the adventure of realigning our lives with our food chain. "Naturally, our first stop was to buy junk food and fossil fuel. . . ." Hang on for the ride: With characteristic poetry and pluck, Barbara Kingsolver and her family sweep readers along on their journey away from the industrial-food pipeline to a rural life in which they vow to buy only food raised in their own neighborhood, grow it themselves, or learn to live without it. Their good-humored search yields surprising discoveries about turkey sex life and overly zealous zucchini plants, en route to a food culture that's better for the neighborhood and also better on the table. Part memoir, part journalistic investigation, *Animal, Vegetable, Miracle* makes a passionate case for putting the kitchen back at the center of family life and diversified farms at the center of the American diet. "This is the story of a year in which we made every attempt to feed ourselves animals and vegetables whose provenance we really knew . . . and of how our family was changed by our first year of deliberately eating food produced from the same place where we worked, went to school, loved our neighbors, drank the water, and breathed the air." Includes an excerpt from *Flight Behavior*.

### **Inter Views in Performance Philosophy**

How have cinema and popular religion shaped each other? Is the display of devotion in a cinema hall the same as devotion in a temple? How do we understand cinema's compelling power to mesmerize people? Unlike Hindi cinema, mythological and devotional films remained popular genres in Telugu (and Tamil too) until quite recently. The political success of film star N.T. Rama Rao, well-known for his portrayal of gods and kings, posed afresh the problem of cinema's power to enthrall. To what extent viewers were persuaded of his divinity became a matter of debate. In later decades, the figure of another kind of viewer haunted the discourses around cinema, that of the female viewer who got possessed during screenings of goddess films. Using questions around viewership as the focal point, this book studies the intersections between popular cinema, religion, and politics in South India. The first full-length study of Telugu mythological and devotional films, it combines an account of the history and politics of these genres with an anthropology of film-making and viewership practices. It argues that cinema and other audio-visual technologies lead to the re-orientation of sensibilities and the cultivation of new sensory modes.
