Gary Thomas, one of this generation's most popular and accessible writers about the spiritual life, explores what it means to build a life of true pleasure—one that will liberate the believer's spiritual life, marriage, family, Christian community, and outreach. Many Christians assume "pleasure" and "sin" are synonymous. Others define godly pleasure so narrowly that they drastically minimize the powerful and holy role that pleasure can play in their lives. Still others feel guilty even thinking about how to build a life of pleasure. For all of them, Pure Pleasure provides an entirely new paradigm. It invites contemporary Christians to embrace a life of true pleasure as a pathway to obedience, worship, and service. Building on his bestselling books Sacred Pathways, Sacred Marriage, and the Gold Medallion-winning Authentic Faith, Gary Thomas takes readers to a new level of faith by providing a theological and inspirational framework to help them cultivate the kind of life that pleases God. Abounding with spiritual insights and practical exercises, this book provides the freedom to approach life in Christ with new wonder and joy.

During the Middle Ages, the relationship between the Buddha's omniscience and his religious authority was a major issue in Buddhist thought. One of the most extensive and sophisticated discussions on this topic is found in the *Pramanavarttikalankarabhāṣya*, the magnum opus of the 8th-century Buddhist master Prajnakaragupta. In this study, author Shinya Moriyama combines philological acumen with philosophical analysis to present Prajnakaragupta's innovative ideas, offering an important introduction to his religious thought in its historical context of post-Dharmakīrtian Buddhist Epistemology. (Series: *Leipziger Studien zu Kultur und Geschichte Süd- und Zentralasiens / Leipzig Studies on Culture and History of South and Central Asia - Vol. 4*)

Increasingly, medical students are required to face up to ethical issues in their training and practice. At the same time, there is growing interest in philosophy courses in the ethical issues raised by medical practice. This textbook, designed

primarily for students of medicine, develops the issues to a philosophical level complex enough to be satisfying to students of philosophy as well as MA students on applied ethics courses. The author advocates an approach to medical ethics which breaks out of the straitjacket of the narrow choice between utilitarian or deontological theory, and contains a valuable discussion of practical wisdom. It maintains a balance between case studies and philosophical arguments - which are developed in a historical context, and will be of interest at all levels of the medical profession.

The Collected Works of Chögyam Trungpa brings together in eight volumes the writings of the first and most influential and inspirational Tibetan teacher to present Buddhism in the West. Organized by theme, the collection includes full-length books as well as articles, seminar transcripts, poems, plays, and interviews, many of which have never before been available in book form. From memoirs of his escape from Chinese-occupied Tibet to insightful discussions of psychology, mind, and meditation; from original verse and calligraphy to the esoteric lore of tantric Buddhism—the impressive range of Trungpa's vision, talents, and teachings is showcased in this landmark series. Volume Three captures the distinctive voice that Chögyam Trungpa developed in North America in the 1970s and reflects the preoccupations among Western students of that era. It includes *Cutting Through Spiritual Materialism* and *The Myth of Freedom*, the two books that put Chögyam Trungpa on the map of the American spiritual scene. *The Heart of the Buddha* and sixteen articles and forewords complete this volume.

Pleasure

The Unitarian Review and Religious Magazine

For many, the word 'pleasure' conjures associations with hedonism, indulgence, and escape from the life of the mind. However little we talk about it, though, pleasure also plays an integral role in cognitive life, in both our sensory perception of the world and our intellectual understanding. This previously important but now neglected philosophical understanding of pleasure is the focus of the essays in this

volume, which challenges received views that pleasure is principally motivating of action, unanalyzable, and caused, rather than responsive to reason. Like other books in the Oxford Philosophical Concepts series, it traces the development of the focal idea from ancient times through the 20th century. The essays highlight points of departure for new lines of inquiry rather than attempting to provide a full picture of how the idea of pleasure has been explored in philosophy. The volume begins by showing how Plato, Aristotle, early Islamic philosophers, and philosophers in the Medieval Latin tradition, such as Aquinas, honed in on the challenge of unifying the variety of pleasures so that they fall under one concept. In the early modern period, philosophers shifted from understanding the logic of pleasure to treating pleasure as a mental state. As the studies of Malebranche, Berkeley and Kant show, the central problem becomes understanding the relation of pleasure to other sensory experiences, and the role of pleasure in human cognition and knowledge. Short interdisciplinary reflections interspersed between essays focus on art of 16th and 17th century textbooks and the difficult music of composers like Bach, which demonstrate translation of these concerns to cultural production in the period. As the essay on Mill shows, the 19th century development of scientific psychology narrowed the definition of pleasure, and so its philosophical focus. Contemporary accounts of pleasure, however, in both philosophy and psychology, are now recognizing the limitations of this narrow focus, and are once again recognizing the complexity of pleasure and its role in human life.

Imagine: An explosive vaginal orgasm that doesn't require a perfect sex partner. An orgasm without exhaustion or convoluted gymnastics. An orgasm that you control. Thanks to Barbara Keesling, Ph.D., this type of sexual fulfillment can now be any woman's reality. Dr. Keesling has identified the cul-de-sac -- an area of extreme sensitivity in the vaginal canal that enables any woman to have a Super Sexual Orgasm! Normally hidden beneath the uterus and just beyond the cervix, the cul-de-sac is so extraordinarily rich in sensitive nerve endings that the slightest contact can trigger a powerful, consuming, instantaneous orgasm. To reveal this secret and bring this ultimate sensation into your sex life, Dr. Keesling has devised

a series of simple exercises designed to tighten the PC muscle, lift and flatten the uterus, and expose the usually hidden cul-de-sac. These exercises can work for all women -- from the highly orgasmic to the silent majority who have been suffering snoregasms. The cul-de-sac will become a woman's best-loved secret, for it will allow her to have consistent, euphoric orgasms that she can fully control. Dr. Keesling also includes sensual exercises for women to practice after they have mastered the Super Sexual Orgasm and exercises for couples to practice together, so that women can fully incorporate Super Sexual Orgasm into their lives in a mind-body-spirit approach. Barbara Keesling, Ph.D., is the author of *Talk Sexy to the One You Love*, *How to Make Love All Night* and *Sexual Pleasure*. She has taught human sexuality and psychopathology at several southern California universities. "What is the one word that is pivotal to female sexuality? Control. What I'm saying is this: Women want to have control of their sexual energies. They want to fully enjoy every scintilla of their lovemaking, from sensual caressing to supersonic climaxes, and once you discover the magic of Super Sexual Orgasm, you will be able to decide if you want to have your explosive climax at the beginning of intercourse or wait till your partner is on the verge of orgasm or have multiple explosive orgasms or have it all! All of this is available to you. You will have the control. Isn't this what you want?" -- Barbara Keesling, Ph.D.

Aldous Huxley decried "the horrors of modern 'pleasure,'" or the proliferation of mass produced, widely accessible entertainment that could degrade or dull the mind. He and his contemporaries, including James Joyce, T. S. Eliot, Gertrude Stein, D. H. Lawrence, and Jean Rhys, sought to radically redefine pleasure, constructing arduous and indirect paths to delight through their notoriously daunting work. Laura Frost follows these experiments in the art of unpleasure, connecting modernism's signature characteristics, such as irony, allusiveness, and obscurity, to an ambitious attempt to reconfigure bliss. In *The Problem with Pleasure*, Frost draws upon a wide variety of materials, linking interwar amusements, such as the talkies, romance novels, the Parisian fragrance Chanel no. 5, and the exotic confection Turkish Delight, to the artistic play of Joyce, Lawrence, Stein, Rhys, and others. She considers pop cultural phenomena and the rise of celebrities such as Rudolph Valentino and Gypsy Rose Lee against contemporary sociological, scientific, and philosophical writings on leisure and desire. Throughout her study, Frost incorporates recent scholarship on material and visual culture and vernacular modernism, recasting the period's high/low, elite/popular divides and formal strategies as efforts to regulate sensual and cerebral experience. Capturing the challenging tensions between these artists' commitment to innovation and the stimulating amusements they denounced yet deployed in their writing, Frost calls attention to the central role of pleasure in shaping interwar culture.

The Ultimate Pleasure (1925) is a dystopia that describes in stark, uncompromising terms a future tyranny and the struggle of its heroine, known only as B 309. In that world, a small technocratic elite use deliberate terror in a desperate attempt to preserve the last remnant of the human race from a worldwide disaster precipitated by a massive disruption of the San Andreas Fault. But what happens after the revolution? Kaschmir (1925) is Renee Dunan's engagingly idiosyncratic variation on the exotic femme fatale, the beautiful but deadly Zenahab of Kashmir, inspired by H. Rider Haggard's She. Metal (1920), one of the author's earliest works, is a prehistoric Atlantean fantasy inspired by the works of J.-H. Rosny Aine."

Drawing on the work of a wide range of architects, artists and writers, this book considers the relations between the architect and the user, which it compares to the relations between the artist and viewer and the author and reader. The book's thesis is informed by the text 'The Death of the Author', in which Roland Barthes argues for a writer aware of the creativity of the reader. *Actions of Architecture* begins with a critique of strategies that define the user as passive and predictable, such as contemplation and functionalism. Subsequently it considers how an awareness of user creativity informs architecture, architects and concepts of authorship in architectural design. Identifying strategies that recognize user creativity, such as appropriation, collaboration, disjunction, DIY, montage, polyvalence and uselessness, *Actions of Architecture* states that the creative user should be the central concern of architectural design.
