### **The Washington Manual of Medical Therapeutics**

This handbook is a practical guide to the general internal medicine consult. It is ideally suited for residents called on to do an inpatient consult, for students working on an inpatient medicine service, and for specialists seeking information

on general internal medicine management. The content is based on the top 25 most common general internal medicine consults requested of the hospitalist service at the Barnes-Jewish Hospital and Washington University. Coverage includes symptoms and diseases, perioperative management, guidelines on the appropriate conduct and approach of a medical consultant, and reviews of selected clinical trials.

### **The Washington Manual of Cardiology Subspecialty Consult**

This new Washington Manual  is an ideal quick reference for house officers and practitioners involved in ambulatory care of adult patients. Prepared by house officers, it has the same front-lines practicality as the world-famous Washington Manual  of Medical Therapeutics. Chapters cover outpatient topics that receive little coverage in the original Washington Manual —lipid disorders; complaint-specific therapeutics (e.g. cough); office management of cancer patients (including screening, hospice, and supportive care); musculoskeletal pain; women's and men's health; dermatologic problems; anxiety and mood disorders; and dementia. Emphasis is on what the clinician needs to know at key decision points in a case. The Washington Manual  of Ambulatory Therapeutics is also available electronically for use in a PDA.
