From the coauthor of Dork Diaries comes a witty and engaging picture book about a prankster who wants to pull off the best prank of all—pranking the Tooth Fairy! Kaylee loves pulling pranks: from dropping water balloons on passers by to even tricking Santa

Claus, she's a prize-winning prankster! But is she the Princess of Pranks? No! That title is held by none other than the Tooth Fairy. But when Kaylee loses a tooth and the Tooth Fairy goes about her usual tooth-taking business, Kaylee pranks her with a fake frog. As Kaylee and the Tooth Fairy try to out-prank one another, things get way out of hand, until the two finally see eye and eye and decide to share the crown!

An Angel in Disguise

Adaptive Behavior Assessment System-II summarizes

information on adaptive behavior and skills as well as general issues in adaptive behavior assessment with the goal of promoting sound assessment practice during uses, interpretations, and applications of the Adaptive Behavior Assessment System-II. Adaptive behavior and skills refer to personal qualities associated with the ability to meet one's personal needs such as communication, self-care, socialization, etc. and those of others. Data from measures of adaptive behavior have been used most commonly in assessment and intervention services for persons with mental retardation. However, the display of adaptive behaviors and skills is relevant to all persons. The Adaptive Behavior Assessment System-II (ABAS-II) provides a comprehensive, norm-referenced assessment of the adaptive behavior and skills of individuals from birth through age 89. The comprehensive nature of the ABAS-II, ease in administration and scoring, and wide age range have resulted in its widespread use for a large number of assessment purposes. The book provides practical information and thus serves as a valuable resource for those who use the ABAS-II. Assists in the functional use of the ABAS-II Provides case studies illustrating use of the ABAS-II in comprehensive assessment and intervention planning Reviews scholarship on adaptive behaviors and skills Describes legal, ethical, and other professional standards and guidelines that apply to the use of the ABAS-II and other measures of adaptive behavior Discusses the use of the ABAS-II with autism, mental retardation; young children and those in elementary and secondary school; as well as incarcerated persons being evaluated for possible mental retardation

The Kalpasûtra of Bhadrabâhu

ISC Commerce Class-XII (Vol.II)

In *The Merchant of Venice*, the path to marriage is hazardous. To win Portia, Bassanio must pass a test prescribed by her father's will, choosing correctly among three caskets or chests. If he fails, he may never marry at all. Bassanio and Portia also face a magnificent villain, the loan shark Shylock. In creating Shylock, William Shakespeare seems to have shared in a widespread prejudice against Jews. Shylock would have been regarded as a villain because he was a Jew. Yet he gives such powerful expression to his alienation due to the hatred around him that, in many productions, he emerges as the hero. Portia is most remembered for her disguise as a lawyer, Balthazar, especially the speech in which she urges Shylock to show mercy that "droppeth as the gentle rain from heaven." *The Merchant of Venice* is an intriguing drama of love, greed, and revenge.

Mudrarakshasa of Visakhadatta

This volume brings together four semi-autonomous bodies of research (choice, self-determination, self-regulation, and self-management) to form a new theory of self-engaged learning entitled, Self-Determined Learning Theory. This theory explains why and how students self-engage. It identifies the factors that give students the sense of control over their learning that is needed for sustained, adaptive,

and ultimately successful learning. It begins by describing the characteristics of disengaged learners, then describes and illustrates self-determined learning theory within both normal and special populations. It then examines the theory's predictive value across several special population contexts and then concludes with a critique of the theory's credibility and worth. Divided into three sections--theory construction, theory verification, and theory evaluation--this volume is organized using the four steps of a previous book, *Learning to Theorize: A Four Step Strategy*. Step 1 defines a problem of not understanding something as discrepancy between what is known and not known about a circumstance. Step 2 searches for information and explanations to change the condition of not knowing into a condition of knowing. Step 3 evaluates the credibility and worth of the explanation constructed in Step 2. Step 4 adjusts existing beliefs so they are consistent with the new theory. Although aimed primarily at leaders in special education, it should also appeal to researchers and scholars in psychology, educational psychology, and school psychology who are interested in the applications of self-regulated learning theory--in this case to special populations.

Investing in the stock market is challenging, as the

market dynamics are unpredictable. Analysts, brokers and retail investors realize to their dismay that investments do well, but investors don't do well. What could be the reasons behind this? What goes on in an investor's mind? What makes a stock market bubble? How does it burst? How does one find the right strategy of investing? Intrigued by these pertinent questions, Parag Parikh, a seasoned broker and expert, took up this daunting task of understanding and demystifying investing in the stock market. *Stocks to Riches* is a distillate of his experience. It simplifies investing in stocks and provides key perspectives for a lay investor venturing into the market. At the end of the day, *Stocks to Riches* helps the retail investor make money by following the time-tested and proven guidelines provided in the book. A must read for brokers, analysts and retail investors.

The Merchant of Venice has been performed more often than any other comedy by Shakespeare. Molly Mahood pays special attention to the expectations of the play's first audience, and to our modern experience of seeing and hearing the play. In a substantial new addition to the Introduction, Charles Edelman focuses on the play's sexual politics and recent scholarship devoted to the position of Jews in Shakespeare's time. He surveys the international scope and diversity of theatrical interpretations of The Merchant in the 1980s and 1990s and their different ways of tackling the troubling figure of Shylock.

The Bird of Time

The poem that begins "Whose woods these are I think I know" holds a special place in American hearts. Robert Frost is a poet who spoke to everyone, but rarely more memorably than in this evocation of the quiet delights of winter. Jeffers brings the wintry woods to life with richly detailed, subtly colored artwork. She captures the patterns of bare branches against the sky and the silent fury of a snowstorm. Her kindly narrator exudes a childlike joy as he stops to appreciate the beauty of a snowy afternoon. Readers will delight in the way he fulfills his promises to keep before he is off again in his sleigh, with many miles to go before he can sleep. A perfect book for introducing children to great American literature. Its elegance and magic will be cherished by

everyone.

The Black Hermit

Adaptive Behavior Assessment System-II

Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. "*I Know Why the Caged Bird Sings* liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin From the Paperback edition.

Arms and the Man was George Bernard Shaw's first commercially successful play. It is a comedy about idealized love versus true love. A young Serbian woman idealizes her war-hero fiance and thinks the Swiss soldier who begs her to hide him a terrible coward. After the war she reverses her opinions, though the tangle of relationships must be resolved before her ex-soldier can conclude the last of everyone's problems with Swiss exactitude. The play premiered to an enthusiastic reception. Only one man booed Shaw at the end, to which Shaw replied: 'My dear fellow, I quite agree with you, but what are we two against so many?'

Thye Mudrarakshasa, unlike the majority of sanskrit plays, is purely a political drama. It has for its theme, besides elevation of Chandragupta to the throne of Magadha, wining over of Rakashsa, the hostile minister of the Nanda dynasty to the side of Chandragupta and adoption of measures to strengthen the rule by Chankaya, the renowned politician of his times. In the words of H.H.Wilson; It is a historical or political drama, and represents a curious staste of public morals, in wich fraud and assassination are the simple means by which inconvenient obligations are open enemies removed. It is not howere , that such acts are not held in themselves as crimies, orthat their perpetrators, if instigated by vugar vice or ferocity, are not condemned as culprits; it is only when the commission of the crime proposes a poliitical end that it is represented as venial, and is compatible with an amiable. it includes the commentary of Dhundiaja, English translation, critical and explanatory notes, Introduction and verious readings .

Innovative, startlingly perceptive and aglow with colour, these fifteen stories were written towards the end of Katherine Mansfield's tragically short life. Many are set in the author's native New Zealand, others in England and the French Riviera. All are revelations of the unspoken, half-understood emotions that make up everyday experience - from the blackly comic 'The

Daughters of the Late Colonel', and the short, sharp sketch 'Miss Brill', in which a lonely woman's precarious sense of self is brutally destroyed, to the vivid impressionistic evocation of family life in 'At the Bay'. 'All that I write,' Mansfield said, 'all that I am - is on the borders of the sea. It is a kind of playing.'

A Psalm of Life

Even though they are aware of the Third World in relation to their daily lives, most Canadians know little about the historical foundations and complex nature of their country's entanglements with non-Western societies. Canada and the Third World provides a long overdue introduction to Canada's historical relationship with the Third World. The book critically explores this relationship by asking four central questions: how can we understand the historical roots of Canada's relations with the Third World? How have Canadians, individuals and institutions alike, practiced and imagined development? How can we integrate Canada into global histories of empire, decolonization, and development? And how should we understand the relationship between issues such as poverty, racism, gender equality, and community development in the First and Third World alike?
