"This collection of essays marking the twenty-fifth anniversary of the publication of Michael Omi and Howard Winant's *Racial Formation in the United States* demonstrates the importance and influence of the concept of racial formation. The range of disciplines, discourses, ideas, and ideologies makes for fascinating reading, demonstrating the utility and applicability of racial formation theory to diverse contexts, while at the same time presenting persuasively original extensions and elaborations of it. This is an important book, one that sums up, analyzes, and builds on some of the most important work in racial studies during the past three decades."—George Lipsitz, author of *How Racism Takes Place* "*Racial Formation in the Twenty-First Century* is truly a state-of-the-field anthology, fully worthy of the classic volume it honors—timely, committed, sophisticated, accessible, engaging. The collection will be a boon to anyone wishing to understand the workings of race in the contemporary United States." —Matthew Frye Jacobson, Professor of American Studies, Yale University "This stimulating and lively collection demonstrates the wide-ranging influence and generative power of Omi and Winant's racial formation framework. The contributors are leading scholars in fields ranging from the humanities and social sciences to legal and policy studies. They extend the framework into new terrain, including non-U.S. settings, gender and sexual relations, and the contemporary warfare state. While acknowledging the pathbreaking nature of Omi and Winant's intervention, the contributors do not hesitate to critique what they see as limitations and omissions. This is a must-read for anyone striving to make sense of tensions and contradictions in racial politics in the U.S. and transnationally."—Evelyn Nakano Glenn, editor of *Shades of Difference: Why Skin Color Matters*

Everything you need to know to restore or customize your classic Japanese motorcycle. Whether you want to correctly restore a classic Japanese motorcycle or create a modified, custom build, you need the right information about how to

perform the mechanical and cosmetic tasks required to get an old, frequently neglected, and often long-unridden machine back in working order. How to Rebuild and Restore Classic Japanese Motorcycles is your thorough, hands-on manual, covering all the mechanical subsystems that make up a motorcycle. From finding a bike to planning your project to dealing with each mechanical system, How to Rebuild and Restore Classic Japanese Motorcycles includes everything you need to know to get your classic back on the road. Japanese motorcycles have been the best-selling bikes in the world since the mid-1960s, driven by the "big four": Honda, Yamaha, Suzuki, and Kawasaki. Of course certain bikes have always had a following - Honda CB750, 305 Hawk, CB400-4, Benly; Suzuki GT750, Katana, GS1000S; Yamaha XS650, RD400 Daytona, TZ; Kawasaki H1, H2, Z1R - and these have now become the blue-chip Japanese bikes leading collectors to seek out more common (and now more affordable) alternatives. This is the perfect book for anyone interested in classic Japanese motorcycles, as well as prepping a bike to build a cafe racer, street tracker, or other custom build.

Each Haynes Manual is based on a complete teardown and rebuild of the specific vehicle. Features hundreds of "hands-on"

photographs taken of specific repair procedures in progress. Includes a full chapter on scheduled owner maintenance and devotes a full chapter to emissions systems. Wiring diagrams are featured throughout.

### **Just a Spoonful of Laughter Helps the Medicine Go Down**

Over the past two decades, there have been a number of important developments in the areas of liability, property, and life and health insurance that have significantly changed insurance law. Accordingly, the Fourth Edition of Principles of Insurance Law has been substantially rewritten, reformatted, and refocused in order to offer the insurance law student and practitioner a broad perspective of both traditional insurance law concepts and cutting-edge legal issues affecting contemporary insurance law theory and practice. This edition not only expands the scope of topical coverage, but also segments the law of insurance in a manner more amenable to study, as well as facilitating the recombination and reordering of the chapters as desired by individual instructors. The Fourth Edition of Principles of Insurance Law includes new and expanded treatment of important insurance law developments, including:

- The critical role of insurance binders as temporary forms of insurance as illustrated in the World Trade Center property insurance disputes resulting from the terrorist attacks of September 11, 2001;
- The continuing debate between "legal formalists" and "legal functionalists" for "the heart and soul" of insurance contract law;
- What constitutes a policyholder's "reasonable expectation" regarding coverage;
- The current property and liability insurance "crisis";
- Risk management and self-insurance issues;
- Emerging, and frequently conflicting, case law concerning the intersection of insurance law and federal anti-discrimination regulation;
- Ongoing interpretive battles over the preemptive scope of ERISA;
- The United States Supreme Court ruling that a California statute attempting to leverage European insurers into honoring commitments to Holocaust era policies is preempted by the Executive's power over foreign affairs;
- The State Farm v. Campbell decision, which struck down a \$145 million punitive damages award in an insurance bad faith claim as well as setting more restrictive parameters for the recovery of punitive damages;
- New issues over the dividing line between "tangible" property typically covered under a property insurance policy and "intangible" property, which is typically excluded - an issue of increasing importance in the digital and cyber age;
- Refinement of liability insurance law regarding trigger of coverage, duty to defend, reimbursement of defense costs, and apportionment of insurer and policyholder responsibility for liability payments;
- The difficult-to-harmonize decisions concerning when a loss arises out of the "use" of an automobile;
- Insurer bad faith and the availability, if any, of actions against a policyholder for "reverse bad faith"; and
- The degree to which excess insurance and reinsurance may be subject to modified approaches to insurance policy construction.

The RD350LC/YPVS family of water-cooled, race-derived two-stroke 'screamers' has become a motorcycling icon of the 1980s. It was the first mass-production bike to use now commonplace monoshock rear suspension, and in racing it instantly became the production racer of choice. The LC marked the end of an era, as tightening emissions regulations ensured that it was the last of the middleweight, no-compromise performance two-strokes. This book describes the full development, production and racing history of what soon became the dream bike for a generation of teenagers - nothing else came close.

Just a Spoon Full of Laughter is a great read for anyone that's been to a doctor's office and made it out alive. Written by an actual physician, it will keep you in stitches (no pun intended) from one story to the next. See for yourself what could be so funny about the physician office visit. Whether it's recalling his first sigmoidoscopy or performing an autopsy, you'll keep this riveting series of short humorous stories right there in the bathroom for pleasurable reading. You may even find yourself somewhere between the pages. From an author who will never be a New York Times Best Seller, it's a great book for young or old, male or female, professional or not. It's especially ideal for that person in your life who has everything except a sense of humor. It's ideal as a stocking stuffer, white elephant gift or for future yard sales. "The funniest book I ever read." Says Dr. Zhivago "Yes! Yes! Yes!" Says Dr. No

## **Yamaha V-Star 1100**
