Time and the Moment in Victorian Literature and Society

The topic for this book incorporates photography, surrealism and print advertisement by advertisers to

garner attention towards the products and services that they promote. The term “Photo-surrealism” is developed by the author in this book. The word “Photo” is derived from the photography technique used in advertising and “Surrealism” from the surrealism style. This book discusses the characteristics of Photo-surrealism style, its importance and effectiveness in print advertising today.

Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry’s most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music’s heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company’s president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling

behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of "Sexual Healing"—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff's clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for

redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You'll Never Eat Lunch in this Town Again* of the music industry.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and

supermoto--promising a solution to virtually any handling problem.

WALNECK'S CLASSIC CYCLE TRADER, DECEMBER 2008

Yamaha XV (Virago) V-Twins 1981 to 2003

Sudden changes, opportunities, or revelations have always carried a special significance in Western culture, from the Greek and later the Christian *kairos* to Evangelical experiences of conversion. This fascinating book explores the ways in which England, under the influence of industrializing forces and increased precision in assessing the passing of time,

attached importance to moments, events that compress great significance into small units of time. Sue Zemka questions the importance that modernity invests in momentary events, from religion to aesthetics and philosophy. She argues for a strain in Victorian and early modern novels critical of the values the age invested in moments of time, and suggests that such novels also offer a correction to contemporary culture and criticism, with its emphasis on the momentary event as an agency of change.
